6. ACCOUNTING STANDARDS

AASB 134 "Interim Financial Reporting" has been used in compiling the information contained in this Appendix 4D.

7. AUDIT DISPUTES OR QUALIFICATIONS

There is no audit dispute or qualification.

Directors' Report

8. HALF-YEAR FINANCIAL STATEMENTS 30th JUNE 2011

8.1 DIRECTORS' REPORT

The Directors of Oriental Technologies Investment Limited (Company) present their report on the consolidated group for the financial half-year ended 30th June 2011.

Directors

The names of the Directors of the Company during or since the end of the financial half-year are:

Gerard McMahon	Non Executive Chairman
Lawrence Luo-lin Xin	Executive Deputy Chairman
Xinsheng Wang	Managing Director
George Su Su	Non Executive Director

All the Directors named above held office during and since the end of the financial half-year.

Review of Operations

Overview

The Company is pleased to report its results for the half-year ended 30th June 2011.

The profit after tax from continuing operations for the half-year ended 30th June 2011 was \$985,000 (2010 \$465,000), a 112% increase. Revenue for the period was \$41,662,000, a 15% increase over the previous half-year (2010 \$36,274,000).

Outlook

There were two significant events during the half year ended 30th June 2011:

1. During February 2011, the Chinese central government started to enforce increased pollution control procedures and, since then, almost 80% of Chinese battery plants have been inspected and either shut down by the authorities or forced to make an upgrade to their pollution control system.

Because the Company's subsidiary Yangzhou Apollo Battery Company Limited (Apollo) has always paid high attention to its pollution control system, Apollo has successfully passed several of these inspections. There has not been a significant interruption to Apollo's production.

2. Apollo has successfully completed the second phase of its production expansion. This expansion will enable Apollo to produce over three million batteries per annum, ranking Apollo within China's top 10 battery producers.

Sales during the held year ended 31st December 2011 are expected to be strong due to strong market demands for both export and domestic sales. Cash flow is also expected to improve, with Apollo having no further requirement for extra bank loans.

Oriental Technologies Investment Limited – Half-Year Report 30th June 2011

Directors' Report

Auditor's Independence Declaration

A copy of the independence declaration by the lead auditor under section 307C is included on page 25 to this half-year financial report.

Rounding of Amounts to the Nearest Thousand Dollars

The Company satisfies the requirements of Class Order 98/0100 issued by the Australian Securities and Investments Commission relating to "rounding off" of amounts in the directors' report and the financial report to the nearest thousand dollars. Amounts have been rounded off in the directors' report and financial report in accordance with that Class Order.

Sydney, 30 August 2011

Signed in accordance with a resolution of the Board of Directors

A handwritten signature in dark ink, appearing to read 'Gerard McMahon', is written over a light yellow rectangular background.

Notes to and forming part of the Financial Statements for the half year ended 30th June 2011
(continued)

8.6 STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

8.6.1 Basis of Preparation

These general purpose financial statements for the interim half-year reporting period ended 30th June 2011 have been prepared in accordance with requirements of the *Corporations Act 2001* and Australian Accounting Standards including AASB 134: Interim Financial Reporting. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with International Financial Reporting Standards.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Oriental Technologies Investment Ltd and its controlled entity (the Group). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 31st December 2010, together with any public announcements made during the half-year.

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements.

8.6.2 New and Revised Accounting Requirements Applicable to the Current Half-Year Reporting Period

For the half-year reporting period to 30th June 2011, a number of new and revised accounting standard requirements became mandatory for the first time. A discussion of these new and revised requirements and their impact on the Group is provided below.

- AASB 2009–5: Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project [AASB 5, 8, 101, 107, 117, 118, 136 & 139]

The amendments to some Australian Accounting Standards arising from AASB 2009–5 result in accounting changes for presentation, recognition or measurement purposes, while some amendments relate to terminology and editorial changes that have little or no effect on the relevant accounting requirements. A summary of the main reporting changes arising from AASB 2009–5 is provided below.

AASB 5: Non-current Assets Held for Sale and Discontinued Operations specifies all of the disclosures required in respect of non-current assets (or disposal groups) classified as held for sale or discontinued operations unless another Standard specifically requires:

- disclosures in respect of non-current assets (or disposal groups) classified as held for sale or discontinued operations; or
- disclosures about the measurement of assets and liabilities within a disposal group that are not within the scope of the measurement requirement of AASB 5 and such disclosures are not provided elsewhere in the financial statements.

AASB 8: Operating Segments states that an entity is only required to report a measure of total assets for each reportable segment if such information is regularly provided to the chief operating decision maker. (Previously entities were required to report a measure of total assets for each reportable segment, irrespective of whether such amounts were regularly provided to the chief operating decision maker.)

AASB 101: Presentation of Financial Statements clarifies that the classification of a (current) liability for which the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting date is not affected by the existence of any terms that could, at the option of the counterparty, result in the settlement of the liability by the issue of equity instruments by the entity.

Notes to and forming part of the Financial Statements for the half year ended 30th June 2011
(continued)

AASB 107: Statement of Cash Flows clarifies that only expenditures that result in a recognised asset in the statement of financial position would be classified as cash flows from investing activities in the statement of cash flows.

AASB 117: Leases states that when a lease includes both land and building components, each component is required to be separately assessed as either an operating or finance lease in accordance with the criteria in AASB 117.

AASB 118: Revenue now includes an additional example to assist with determining whether an entity is acting as a principal or as an agent.

AASB 136: Impairment of Assets clarifies that when allocating goodwill to a cash generating unit (CGU) or group of CGUs, each CGU or group of CGUs must:

- represent the lowest level within the entity at which goodwill is monitored for internal management purposes; or
- not be larger than an operating segment as per AASB 8 before aggregation for disclosure purposes.

AASB 139: Financial Instruments: Recognition and Measurement clarifies that a forward contract:

- between an acquirer and a selling shareholder to buy or sell an acquiree; and
- which will result in a business combination within a reasonable timeframe and therefore is not dependent on further actions by either party;

is outside the scope of AASB 139.

AASB 139 also clarifies that gains or losses recognised in other comprehensive income in respect of a:

- hedge of a forecast transaction that subsequently results in the recognition of a financial asset or a financial liability; or
- a cash flow hedge other than a hedge of a forecast transaction covered by paragraphs 97 and 98 of AASB 139;

are to be reclassified from equity to profit or loss in the same period or periods during which the hedged forecast cash flows affect profit or loss (such as in the periods that interest income or interest expense is recognised, or when a forecast sale occurs).

AASB 139 also clarifies that the economic characteristics and risks of an embedded derivative are closely related to a loan (the host contract) if the exercise price of a prepayment option attached to the loan reimburses the lender for an amount up to the approximate present value of lost interest for the remaining term of the loan.

Application of the amendments in AASB 2009–5 did not have a material impact on the financial statements of the Group.

- AASB 2009–8: Amendments to Australian Accounting Standards – Group Cash-settled Share-based Payment Transactions [AASB 2]

AASB 2009–8 amends AASB 2: Share-based Payment to require an entity within a group that receives goods or services in a share-based payment transaction involving another entity in the group to account for those goods or services in its separate financial statements, regardless of which entity in the group settles the transaction and whether the transaction is settled in shares or cash.

Notes to and forming part of the Financial Statements for the half year ended 30th June 2011
(continued)

AASB 2009–8 also amends AASB 2 to incorporate the requirements previously included in Interpretation 8: Scope of AASB 2 and Interpretation 11: AASB 2 – Group and Treasury Share Transactions in AASB 2. Consequently, Interpretations 8 and 11 are superseded by the amendments in AASB 2009–8 to AASB 2.

Application of the amendments in AASB 2009–8 did not have a material impact on the financial statements of the Group.

- AASB 2009–9: Amendments to Australian Accounting Standards – Additional Exemptions for First-time Adopters [AASB 1]

AASB 2009–9 amends AASB 1: First-time Adoption of Australian Accounting Standards to:

- specify accounting requirements for first-time adopters using the full cost method in place of retrospective application of Australian Accounting Standards for oil and gas assets; and
- exempts first-time adopters with existing leasing contracts from reassessing the classification of those contracts in accordance with Interpretation 14: Determining whether an Arrangement contains a Lease when the application of the entity's previous accounting policies would have produced the same outcome.

As the Group has been applying Australian Accounting Standards since 2005, the amendments in AASB 2009–9 did not impact on the financial statements of the Group.

- AASB 2009–10: Amendments to Australian Accounting Standards – Classification of Rights Issues [AASB 132]

AASB 2009–10 amends AASB 132 to clarify that rights, options or warrants to acquire a fixed number of an entity's own equity instruments for a fixed amount in any currency are equity instruments if the entity offers the rights, options or warrants pro-rata to all existing owners of the same class of its own non-derivative equity instruments. It is relevant to note that this approach is contrary to the general principle in AASB 132.

Application of the amendments in AASB 2009–10 did not have a material impact on the financial statements of the Group.

- Interpretation 19: Extinguishing Financial Liabilities with Equity Instruments

Interpretation 19 clarifies how a debtor would account for the extinguishment of a liability, either fully or partially, through the issue of equity instruments (a "debt for equity swap").

Under Interpretation 19 entities are required to measure equity instruments issued to a creditor to extinguish all or part of a financial liability at their fair value, unless the fair value cannot be reliably measured. When fair value cannot be reliably measured, the equity instruments would be measured to reflect the fair value of the financial liability extinguished. Any difference between the carrying amount of the financial liability (or part of the financial liability) extinguished and the consideration paid is recognised immediately as a gain or loss and disclosed separately in the profit or loss or in the notes.

When only part of the financial liability is extinguished, the entity assesses whether some of the consideration paid related to a modification of the terms of the liability that remains outstanding. If so, the entity allocates the consideration paid between the part of the liability extinguished and the part of the liability that remains outstanding.

Application of Interpretation 19 did not have a material impact on the financial statements of the Group.

- AASB 2009–13: Amendments to Australian Accounting Standards arising from Interpretation 19 [AASB 1]

Notes to and forming part of the Financial Statements for the half year ended 30th June 2011
(continued)

AASB 2009–13 amends AASB 1 to permit first-time adopters to apply the transitional provisions in Interpretation 19 as identified in AASB 1048: Interpretation of Standards.

Application of the amendments in AASB 2009–13 did not have a material impact on the financial statements of the Group.

- AASB 2010–1: Amendments to Australian Accounting Standards – Limited Exemption from Comparative AASB 7 Disclosures for First-time Adopters [AASB 1 & AASB 7]

AASB 2010–1 amends AASB 1 and AASB 7: Financial Instruments: Disclosures to permit first-time adopters of Australian Accounting Standards to use the same transition provisions permitted for existing preparers of financial statements prepared in accordance with Australian Accounting Standards that are included in AASB 2009–2: Amendments to Australian Accounting Standards – Improving Disclosures about Financial Instruments [AASB 4, AASB 7, AASB 1023 and AASB 1038] (issued April 2009).

AASB 2009–2 amended AASB 4: Insurance Contracts, AASB 1023: General Insurance Contracts and AASB 1038: Life Insurance Contracts for editorial changes resulting from the amendments to AASB 7 (arising from the issuance of Improved Disclosures about Financial Instruments (Amendments to IFRS 7) by the IASB). The amendments to AASB 7 require enhanced disclosures about fair value measurements and liquidity risks. In particular, the amendments to AASB 7:

- clarify that the existing fair value disclosure requirements in the Standard must be made separately for each class of financial instrument;
- require disclosure of any change in a method for determining fair value and the reasons for the change;
- introduce a three-level hierarchy for making fair value measurements;
- require disclosure about the relative reliability of each fair value measurement in the statement of financial position;
- clarify that the current maturity analysis for non-derivative financial instruments should include issued financial guarantee contracts; and
- require disclosure of a maturity analysis for derivative financial liabilities.

As the Group has been applying Australian Accounting Standards since 2005, the amendments in AASB 2010–1 did not impact on the financial statements of the Group.

- AASB 2010–3: Amendments to Australian Accounting Standards arising from the Annual Improvements Project [AASB 3, AASB 7, AASB 121, AASB 128, AASB 131, AASB 132 & AASB 139]

A summary of the main reporting changes arising from AASB 2010–3 is provided below.

AASB 3: Business Combinations (revised 2008) clarifies that only those components of non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the subsidiary's net assets in the event of the subsidiary's liquidation can be measured by the acquirer at fair value or at the present ownership instruments' proportionate share in the recognised amounts of the acquiree's identifiable net assets. All other components of non-controlling interests are to be measured by the acquirer at the acquisition date fair values, unless another measurement basis is required by another Australian Accounting Standard.

AASB 3: Business Combinations (revised 2008) clarifies that an acquirer measures a liability or an equity instrument related to share-based payment transactions of the acquiree in existence at the date of acquisition in accordance with the method in AASB 2 ("market-based measure") at the acquisition date.

Notes to and forming part of the Financial Statements for the half year ended 30th June 2011
(continued)

In addition, the Amending Standard clarifies that, in respect to any outstanding share-based payment transactions of the acquiree that the acquirer does not exchange for its share-based payment transactions:

- vested transactions are part of the non-controlling interests in the acquiree and are measured at their market-based measure; and
- unvested transactions are measured at their market-based measure and the measured amount is allocated to the non-controlling interests on the basis of the ratio of the portion of the vesting period completed to the greater of the total vesting period or the original vesting period. The balance is allocated to post-combination service.

AASB 3: Business Combinations (revised 2008) clarifies that contingent consideration balances arising from business combinations whose acquisition dates preceded the date when the acquirer first applied AASB 3 (revised 2008) are not to be adjusted upon first application of AASB 3 (revised 2008).

AASB 121: The Effects of Changes in Foreign Exchange Rates, AASB 128: Investments in Associates and AASB 131: Interests in Joint Ventures clarify the transition requirements for amendments made to AASB 121, AASB 128 and AASB 131 by AASB 2008–3: Amendments to Australian Accounting Standards arising from the Annual Improvements Project with respect to the treatment of cumulative exchange differences upon the loss of control of a subsidiary, loss of significant influence over an associate, or loss of control over a jointly controlled entity when these entities are foreign operations.

Application of the amendments in AASB 2010–3 did not have a material impact on the financial statements of the Group.

- AASB 2009–14: Amendments to Australian Interpretation – Prepayments of a Minimum Funding Requirement [AASB Interpretation 14]

AASB 2009–14 amends AASB Interpretation 14: AASB 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction to address the accounting implications of an entity prepaying contributions in respect of a defined benefit plan and being required to pay minimum contributions in circumstances where the entity recognises a defined benefit asset.

Where a minimum funding requirement requires an entity to make a fixed level of contributions to a defined benefit plan each period, and the entity is unable to receive any surplus as a refund, the minimum funding requirement effectively prevents the entity from utilising any defined benefit surplus by reducing future contributions. Accordingly, under the amendments in AASB 2009–14, the entity's asset would be limited to the amount of any prepayment of contributions.

However, in circumstances where an entity is required to maintain its defined benefit plan at a minimum funding level (such as plan assets equal to or greater than 100% of members' accrued benefits), and the entity is unable to receive any surplus as a refund, the recognition of an asset arising from any surplus would be subject to the surplus being available to the entity for reducing future contributions. Accordingly, under the amendments in AASB 2009–14, the entity would recognise an asset comprising:

- any prepayment of contributions in respect of future services costs; and
- the amount of any surplus excluding any prepayment if it is available to the entity for reducing future contributions; or
- no additional asset if any surplus excluding any prepayment is not available to the entity for reducing future contributions.

Application of the amendments in AASB 2009–14 did not have a material impact on the financial statements of the Group.

Notes to and forming part of the Financial Statements for the half year ended 30th June 2011
(continued)

- AASB 124: Related Party Disclosures (December 2009)

AASB 124 (December 2009) introduces a number of changes to the accounting treatment of related parties compared to AASB 124 (December 2005, as amended), including the following.

- the definition of a related party is simplified, clarifying its intended meaning and eliminating inconsistencies from the definition, including:
 - the definition now identifies a subsidiary and an associate with the same investor as related parties of each other;
 - entities significantly influenced by one person and entities significantly influenced by a close member of the family of that person are no longer related parties of each other;
 - the definition now identifies that, whenever a person or entity has both joint control over a second entity and joint control or significant influence over a third party, the second and third entities are related to each other; and
 - the definition now clarifies that a post-employment benefit plan and an employer sponsor of such a plan are related parties of each other.
- A partial exemption is provided from the disclosure requirements for government-related entities. Entities that are related by virtue of being controlled by the same government can provide reduced related party disclosures.

Application of AASB 124 (December 2009) did not have a material impact on the financial statements of the Group.

- AASB 2010–4: Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project [AASB 1, AASB 7, AASB 101 & AASB 134 and Interpretation 13]

This standard details numerous non-urgent but necessary changes to accounting standards arising from the IASB's annual improvements project. Key changes include:

- clarifying the application of AASB 108 prior to an entity's first Australian-Accounting-Standards financial statements;
- AASB 7 is amended to add an explicit statement that qualitative disclosures should be made in the context of the quantitative disclosures to better enable users to evaluate an entity's exposure to risks arising from financial instruments;
- AASB 101 is amended to clarify that disaggregation of changes in each component of equity arising from transactions recognised in other comprehensive income is required to be presented, but is permitted to be presented in the statement of changes in equity or in the notes;
- AASB 134 is amended by adding a number of examples to the list of events and transactions that require disclosure under AASB 134; and
- sundry editorial amendments to various Standards and interpretations.

Application of the amendments in AASB 2010–4 did not have a material impact on the financial statements of the Group.

- AASB 2010–5: Amendments to Australian Accounting Standards [AASB 1, 3, 4, 5, 101, 107, 112, 118, 119, 121, 132, 133, 134, 137, 139, 140, 1023 & 1038 and Interpretations 112, 115, 127, 132 & 1042]

**Notes to and forming part of the Financial Statements for the half year ended 30th June 2011
(continued)**

This Standard makes numerous editorial amendments to a range of Australian Accounting Standards and Interpretations, including amendments to reflect changes made to the text of IFRSs by the IASB. However, these editorial amendments have no major impact on the requirements of the respective amended pronouncements. Accordingly, application of the amendments in AASB 2010-5 did not have a material impact on the financial statements of the Group.

8.7 SEGMENT INFORMATION

Description of segments

The Group has identified its operating segments based on internal reports that are reviewed and used by the Chief Operating Decision Maker in assessing performance and determining the allocation of resources. The Group is managed primarily on the basis of geographic location. Operating segments are therefore determined on this basis.

Although managed globally, the Group operates in four principal geographical areas – China, Europe, Middle East and Australia. The composition of each geographical segment is as follows:

China – a People's Republic of China entity controlled by Oriental Technologies Investment Limited operates a lead acid battery manufacturing plant in China and makes local sales.

Europe, Middle East and Australia - a People's Republic of China entity controlled by Oriental Technologies Investment Limited exports a broad range of its products to the Europe, Middle East and Australia.

Reporting format - Geographical segments

Chief Operating Decision Maker (CODM)

The CODM is Dr Xinsheng Wang, Managing Director.

The costs of the holding company, which are included above as unallocated, are in respect of the business in China and costs incurred in respect of that business.

Oriental Technologies Investment Limited only manufactures lead acid batteries in China, so a split between segmental depreciation, assets and liabilities is not deemed necessary as all the risks and returns arising from the carrying amounts of assets and liabilities only apply to this one geographic segment, China.

8.8 EQUITY SECURITIES ISSUED AND GRANTED

Oriental Technologies Investment Limited has issued share options to employees in accordance with the Orientech Share Option Plan. Each option is for one ordinary share and may be exercised within the exercise period or if there is earlier termination of the option. An option cannot be exercised unless the option holder has provided not less than 24 months service to the Company (unless the Directors determined otherwise). Details of options granted are:

Series 2 Options

Issue Date: 18 May 2005

Exercise Period: Within the five-year period ending on 17 May 2010 and have now expired.

Exercise Price: 9.9 cents per share.

Total number issued: on issue date 200,000

Series 3 Options

Issue Date: 16 November 2007

Exercise Period: Within the five-year period ending on 15 November 2012.

Exercise Price: 7.0 cents per share.

Total number issued: on issue date 10,500,000

8.10 EVENTS SUBSEQUENT TO REPORTING DATE

The Directors are not aware of any matter or circumstance that has arisen since the end of the financial half-year that has significantly affected or may significantly affect the Group's operations, the results of these operations or the Group's state of affairs in future financial years.

8.11 ROUNDING OF AMOUNTS

The company satisfies the requirements of Class Order 98/0100 issued by the Australian Securities and Investments Commission relating to "rounding off" of amounts in the directors' report and the financial report to the nearest thousand dollars. Amounts have been rounded off in the directors' report and financial report in accordance with that Class Order.

Oriental Technologies Investment Limited – Half-Year Report 30th June 2011

9. DECLARATION BY DIRECTORS

The Directors of the Company declare that:

1. The financial statements and notes comprising the Consolidated Statement of Comprehensive Income, Consolidated Statement of Financial Position, Consolidated Statement of Cash Flows, Consolidated Statement of Changes in Equity, and accompanying notes are in accordance with the Corporations Act 2001 and:
 - (a) comply with Accounting Standard AASB 134 Interim Financial Reporting; and
 - (b) give a true and fair view of the consolidated entity's financial position as at 30th June 2011 and of its performance for the half-year ended on that date;
2. In the Directors' opinion, there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Sydney 30 August 2011

Signed in accordance with a resolution of the Board of Directors

A handwritten signature in dark ink, appearing to read 'G McMahon', is written over a faint, light-colored rectangular stamp.

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the review of the financial report of Oriental Technologies Investment Limited for the half year ended 30 June 2011, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- (ii) any applicable code of professional conduct in relation to the review.

INDEPENDENT AUDITOR'S REVIEW REPORT
TO THE MEMBERS OF
ORIENTAL TECHNOLOGIES INVESTMENT LIMITED

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Oriental Technologies Investment Limited and controlled entity (the consolidated entity) which comprises the consolidated condensed statement of financial position as at 30 June 2011, the consolidated condensed statement of comprehensive income, consolidated condensed statement of changes in equity and consolidated condensed statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entity it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Oriental Technologies Investment Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Oriental Technologies Investment Limited and controlled entity, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

RSM Bird Cameron Partners

Chartered Accountants

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Oriental Technologies Investment Limited and controlled entity is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.
