## **EGL WINS ORDER FROM BHP BILLITON**

The Environmental Group Limited (EGL) has won an order for a gas scrubbing system for BHP Billiton's, QNI Yabulu Refinery, near Townsville North Queensland.

The system, valued at over \$600,000, is designed to recover ammonia for reuse, and forms part of a project to increase the production of Cobalt.

The contract covers the design, manufacture and off-site assembly of the unit and should be complete by the end of January 2005.

The client is considered a key account, due to the future potential for further gas scrubbing equipment on the site and demonstrates EGL's commitment to serving major industrial customers.

For further information, please contact Mr. Howard Johnson on (02) 8858 3499.
