5 November 2003

Company Announcements Office  
Australian Stock Exchange Limited  
10<sup>th</sup> Floor, 20 Bond Street  
SYDNEY NSW 2000

Dear Sirs

**PATENTS GRANTED - USA**

The Company is pleased to announce that its 81.2% owned subsidiary, ObjectiVision Pty Ltd ("ObjectiVision"), has been granted patents in the United States of America for the underlying technology used in the visual field testing equipment trade marked "Accumap".

ObjectiVision has an application for Accumap's marketing approval (510K) pending with the Food and Drug Administration ("FDA") in the United States, which is the largest market in the world for visual field testing equipment. Accumap has already obtained a CE mark for marketing purposes in Europe.

"Accumap" was developed from research carried out by The Save Sight Institute of Sydney University.

The granting of the patents is a key milestone for the Company as it strengthens its intellectual property position.

Yours faithfully

A handwritten signature in blue ink, appearing to read "Mark Clements".

MARK CLEMENTS  
**Company Secretary**
