OVER FIFTY GROUP ANNOUNCES HALF YEAR RESULTS

- Underlying net profit before tax of \$4.5 million
- Underlying net profit after tax of \$2.2 million
- Reported net loss after tax of \$2.5 million
- > Interim dividend of 2.5 cents per share, payable in April 2011
- > Final dividend guidance of 3.5 cents per share reconfirmed
- > Net assets of \$93.2 million equivalent to \$1.19 per share
- > Net tangible assets of \$39.3 million equivalent to 50 cents per share
- Favourable outlook driven by new business initiatives

Over Fifty Group Limited ("**OFG**" or the "**Company**") is pleased to report underlying net profit before tax ("**Underlying NPBT**") of \$4.5 million for the half year ended 31 December 2010 ("**1HY11**"), compared with \$4.8 million in the previous corresponding period. Underlying net profit after tax ("**Underlying NPAT**") was \$2.2 million, equivalent to 2.8 cents per share ("**cps**"). Underlying profit represents reported profit tax adjusted for items of a non-recurring nature and excluding the consolidated financial affairs of the benefit funds.

The directors believe Underlying NPBT provides the most relevant measure of the ongoing performance of the Company and provides a more meaningful benchmark for future performance than reported net profit after tax ("**Reported NPAT**").

A summary of OFG's half year results is presented below:

Half Year Ended	31 December 2010 \$'000	31 December 2009 \$'000
Total revenue	21,627	22,778
Underlying NPBT	4,503	5,148
Underlying NPAT	2,178	3,188
Reported NPAT	(2,544)	3,192
Interim Dividend - Franking (@30% tax rate)	2.5c 30%	2.5c 30%

Half Year Results Summary (excluding benefit funds)

While the Underlying NPBT is broadly in line with the expectations of management and the directors given the timing of Property Funds Management receipts (ie the majority of major transactions occurring in the second half). The Reported NPAT has been impacted by the following material non-recurring items:

Underlying NPAT Reconciliation (excluding benefit funds)

Half Year Ended	31 December 20 \$'000		
Underlying NPAT		2,178	
Non cash and one off in nature:			
Century Bulky Goods Funds No 1 revaluation movement ¹ Provision for National Leisure Trust receivables ² Impairment of National Leisure Trust property investment ³	(599) (3,146) (3,000)		
Tax expense (credit) on non cash and one off items above	2,023	(4,722)	
Reported NPAT (loss)		(2,544)	

^{1.} The Century Bulky Goods Funds No 1 ("CBG") revaluation movement has resulted from net write-downs in the property investment in CBG.

^{2.} The provision for the receivable in the National Leisure Trust relates to a rental receivable from Hanners Management Pty Ltd. The receivable has been provided for fully however the Company intends to pursue its recovery vigorously.

^{3.} The impairment of the property values in the National Leisure Property Trust has reduced the aggregate carrying value of the company's investment in the trust to nil (ie it has been fully provisioned).

The half year result represents a period of consolidation within the business after witnessing significant turmoil in the marketplace. The Company has expanded funds under management, strengthened its senior management team and renewed its focus on OFG's core strengths and operations.

At 31 December 2010, OFG had a cash balance of \$15.3 million and corporate debt (i.e. excluding non-recourse loans) of \$6.8 million. The Company's total net assets of \$93.2 million and total net tangible assets of \$39.3 million at 31 December 2010 equated to \$1.19 and \$0.50 per share respectively.

The directors are pleased to declare an interim dividend of 2.5 cps (30% franked at the corporate tax rate of 30%). The record date for determining entitlements to the interim dividend is 11 March 2011, with the dividend to be paid to shareholders on 8 April 2011.

The Board remains confident of the future performance of the Company and reconfirms full year 2011 dividend guidance of 6.0 cps, with the final dividend expected to be 3.5 cps.

During 1HY11, OFG announced an Unmarketable Parcel Selling Plan. This capital management initiative streamlined the Company's share register by 6,600 shareholders and resulted in the acquisition of approximately 3.2% of OFG's issued capital subsequent to the end of the period.

At the Annual General Meeting in November 2010, shareholders approved the change of the Company's name to "Centuria Capital Limited" and the process of brand consolidation is underway.

Mr. John McBain, the Chief Executive Officer and Director of OFG commented:

"We are excited about the future of the Company. Investments have been made across the business to ensure we have the platform for growth into the future. Our balance sheet is well positioned and our underlying result supports the core earnings guidance previously provided to the market."

Review of Operations and Performance

Property Funds Management

The highlights for the Property Funds Management division during the half year were as follows:

- the sale of 35 Spring Street, Melbourne which was a property in the Over Fifty Direct Property Trust; and
- the appointment by the unit-holders of Century Funds Management Limited ("**Century**")(100% owned by OFG) as replacement Responsible Entity for two Becton funds, Becton Office Fund No. 2 and Becton Diversified Direct Property Fund.

Funds under management have increased to \$920 million during 1HY11 from \$714 million at the start of the period. Further growth is expected to continue, supported by several key factors including:

- fewer competitors in the marketplace;
- high quality investment properties available at attractive valuations;
- interest rates at an acceptable level;
- loyal direct investor base and continued financial planner support; and
- platform marketing to a wider investment audience.

The Property Funds Management team has been bolstered by the strategic appointments of a number of senior staff. These additional resources have strengthened the management team and provided OFG with the capability to deliver the expected strong growth from this division in the near-term.

The Company expects to settle the off balance sheet purchase by Century Property Trust 14 ("**CPT 14**") of a Brisbane CBS asset in early March 2011 for \$37.7 million. CPT 14 has been extremely well received in the market place and is expected to contribute favourably to OFG's 2HY11 earnings, as will other property offerings in the near future.

Terms have been agreed for the purchase of a further investment property in NSW for circa \$30 million. Another Century property trust will be created to acquire this asset and OFG expects investors to support it strongly.

Friendly Society

As at 31 December 2010, the Over Fifty Mutual Friendly Society ("**Friendly Society**") administered \$741.7 million of friendly society benefit funds and the Friendly Society division continued to be a major contributor to the Company's earnings. OFG has remained focused on improving the investment management capabilities and member communication and services of the investment and operational team.

The Friendly Society released its new education investment bond "Sprout" earlier in the year, aimed at providing tax effective benefits for education expenses as well as competitive returns from a highly rated investment product. Following the release of the Sprout investment bond, the Friendly Society released an Imputation Bond which is expected to be well received in the market.

The level of Friendly Society redemptions has fallen sharply and total funds under administration now appear to have stabilised. With a fresh approach, new products and additional new business development managers across an expanded financial planner network, OFG is confident of improving inflows into the Friendly Society going forward.

Mortgage Businesses

The reverse mortgage business, Over Fifty Senior Home Equity Release Pty Ltd, administered approximately \$193.3 million in loans as at 31 December 2010. The loans are secured against approximately \$967 million of residential property. Whilst the loans reside on OFG's balance sheet for the purposes of Australian International Financial Reporting Standards, they are totally non-recourse to the wider assets of the group.

The present loan facility has been rolled to 30 September 2011 on favourable terms and the facility has been drawn to \$170 million which represents a loan to valuation ratio of only 17.6%. The OFG management team has commenced discussions with the financier to extend further the term of the facility.

There is significant embedded value emerging in the portfolio as the gap widens between the loan facility balance (which is reducing) and the balance of the underlying mortgages (which are capitalising interest). As noted at the Company's 2010 Annual General Meeting, the expected long term realisation of the embedded value in OFG's reverse mortgage book should generate substantial shareholder wealth.

Mortgage manager and broker, Mortgageport (OFG's 50% associate), has continued to contribute to the Company's result for the year. The mortgages under management by Mortgageport have remained steady throughout the last two years which is a pleasing result for the Company.

<u>Insurance</u>

The Company continued to operate its insurance agency successfully during 1HY11. OFG is committed to growing this business in targeted areas that demonstrate a strong and reliable recurring income stream with consistent annual growth. The business continues to service actively the risk requirements of approximately 29,000 policyholders.

Outlook

OFG believes its Property Funds Management division is well positioned to take advantage of acquisitive growth opportunities on behalf of new property funds. The Company is one of a handful of managers making acquisitions in what is a buyer's commercial property market. This presents OFG with a favourable opportunity to increase its funds under management on attractive terms.

The Company is also very active in the acquisition of property funds management rights provided the calibre of the assets meets its strict criteria.

Funds under administration in the Friendly Society have stabilised and this division is expected to continue to generate strong underlying profitability. The focus now is on growing the business with new products and other value initiatives.

Reverse mortgages should become a significant contributor to long term shareholder value as the embedded value of this significant portfolio is realised over time. The Board remains committed to this objective. In summary, the Board and the OFG management team are disappointed to report a slight decline in the Underlying NPBT for the half year. However, during this period, the Company has invested for future growth and made substantial progress in the development of its businesses. Accordingly, the prospects for the second half of the financial year are favourable. In the absence of unforeseen circumstances, the Board expects OFG to deliver strong Underlying NPAT and earnings per share in FY11.
