ASX & MEDIA RELEASE

ENERGY EFFICIENCY BUSINESS WINS \$8M OF ADDITIONAL PROJECTS

PARMAC, a wholly owned subsidiary of diversified renewable energy company, CBD Energy Limited (ASX: CBD), has recently added to its project pipeline being successfully awarded several installations with a combined project value in excess of \$8 million.

Parmac is a mechanical services and air conditioning installations business based in Melbourne, with year to date results indicating a turnaround from its FY12 performance.

Since 30 June, Parmac has been involved in 40 projects and on current indications will contribute positively to the Group half-year earnings.

Among current large projects for which Parmac is providing mechanical services are:

Box Hill TAFE Building 7

This project was commenced in November 2012 and is expected to complete in April 2013. The project is a three level facility to be used in training mechanical services apprentices and technicians in the use of different types of air conditioning systems and associated technologies.

C8 Lifestyle

This project involves providing services to a four level serviced office building at Docklands, Melbourne, with work commenced in October 2012 and expected completion May 2013.

Latrobe University – Bundoora

On the Bundoora campus of Latrobe University, Parmac has been awarded a contract to provide services for a new six floor teaching and administration facility. Work is to begin in December 2012 with expected completion in September 2013.

Parmac employs 58 people and has been an installer of energy efficient air conditioning and mechanical serves since 1994. It designs, engineers, procures, installs and services quality, energy efficient HVAC systems in industrial and commercial buildings throughout Victoria.

ABOUT CBD ENERGY (ASX:CBD) <http://www.cbdenergy.com.au>

CBD is Australia's emerging leader in renewable energy, enabling the efficient use of renewable energy for utilities, businesses and households through operations in wind, solar, energy storage and engineering. It has become one of the largest non-utility suppliers and installers of solar energy generation equipment for both large- and domestic-scale operation in Australia. Utilising its globally-competitive supply chain, CBD is also currently developing and installing solar projects in Europe, the United States and Southeast Asia.
