Chairman's letter

10 April 2018

Dear Avanco Shareholders

Recommended off-market takeover bid for Avanco

On behalf of the OZ Minerals Board, I am pleased to present you with this compelling Offer to acquire all of your Avanco Shares for \$0.085 cash and 0.009 OZ Minerals Shares for each of your Avanco Shares. The Offer Price is final, and cannot be increased during the Offer Period, in the absence of a competing proposal.

The Offer values Avanco at approximately \$418 million¹ or \$0.17 per Avanco Share based on a 1-month VWAP of OZ Minerals Shares up to and including 26 March 2018, the day prior to the announcement of the Offer, of \$9.45 per share. This represents a very attractive premia for your Avanco Shares:

- 121% to the last closing price of \$0.077 per share, being the price of Avanco Shares on the ASX at the close of trading on 26 March 2018;
- 119% to Avanco's 1-month VWAP of \$0.078 per share up to and including 26 March 2018; and
- 104% to Avanco's 3-month VWAP of \$0.083 per share up to and including 26 March 2018.

The Offer has been structured so that Avanco Shareholders receive an attractive price and consideration comprising both cash and OZ Minerals Shares. As a result, should you accept the Offer and the Offer is successful, you will become a shareholder in a leading Australian-based metals miner, listed on the ASX, with a diversified portfolio of assets across the lifecycle, a well-capitalised balance sheet and a track record of paying dividends. Importantly, you will retain exposure to the Avanco assets while benefiting from the enhanced scale, financial capacity, and mining expertise offered by OZ Minerals, which will better enable it to best optimise the asset portfolio.

The Offer is subject to a 50.1% minimum acceptance condition and other customary conditions, including there being no adverse regulatory action, no prescribed occurrences in Avanco, no material adverse changes in Avanco and receipt of a change of control consent for any Avanco material contracts. A full list of the conditions of the Offer is provided in section 0 of this Bidder's Statement.

Support from the Avanco Directors, certain Avanco Management and Major Avanco Shareholders

OZ Minerals is pleased to note that the Avanco Board has unanimously recommended that Avanco Shareholders accept the Offer in the absence of a superior proposal.

In addition, as at the date of this Bidder's Statement, OZ Minerals has a relevant interest in 453,307,418 Avanco Shares representing approximately 18.45% of all Avanco Shares² as a result of the largest Avanco Shareholder, Appian,³ entering into a Pre-Bid Acceptance Deed with OZ Minerals under which it has agreed to accept the Offer in respect of its entire interest in Avanco Shares, subject to certain conditions.

Furthermore:

- BlackRock, which acts as investment manager on behalf of clients who are beneficial holders of or have interests in Avanco Shares (including interests in

funds in which Avanco Shares are held), has stated that its current intention is to accept the Offer in respect of the 286,238,522 Avanco Shares it holds a relevant interest in, representing 11.65% of all Avanco Shares,⁴ in the absence of a superior proposal and subject to the conditions of the Offer being fulfilled.

- BlackRock (subject to applicable law) reserves and retains the right to deal with the Avanco Shares described above on behalf of its clients in its absolute discretion and/or on the instructions of its clients or otherwise (including without limitation, a transfer of Avanco shares to any replacement investment manager or custodian nominated by its client(s) in circumstances where such client(s) has/have terminated BlackRock's professional relationship in respect of the Avanco shares). BlackRock's statement of intention was not, and was not intended to be, legally binding and shall neither have any legal effect nor create any legal obligation or liability on any member of the BlackRock group or any of its clients. BlackRock's statement of intention relates not to a specific number of Avanco shares but to such number of Avanco Shares BlackRock has the authority to commit to the Offer at the time it accepts the Offer;⁵ and
- Avanco Directors and certain Avanco Management, whom collectively own 14,045,196 Avanco Shares representing 0.57%⁶ of all Avanco Shares, have also stated they intend to accept the Offer for all of their Avanco Shares, subject to there being no superior proposal and certain other conditions and qualifications.⁷

Becoming a Shareholder in a Leading Australian Metals Company

OZ Minerals is a leading listed Australian-based metals miner, with a market capitalisation of \$2,688 million, as at 6 April 2018.

OZ Minerals has a diverse asset portfolio in Australia including its flagship operating mine Prominent Hill and Carrapateena, a high-quality copper project presently under construction, and has interests in a suite of prospective development projects led by the West Musgrave copper-nickel pre-feasibility study stage project.

OZ Minerals has a track record of operational performance and in 2017 produced 112kt copper and 127koz gold at a C1 Cash Cost of US\$0.83/lb, which is in the bottom quartile of global copper mine costs. This result was in line with OZ Minerals' initial guidance for copper, exceeded initial guidance for gold and was below initial C1 Cash Cost guidance.

In 2017, OZ Minerals declared a total fully-franked dividend of \$0.20 per share. The OZ Minerals Board's current policy is to target a minimum dividend payment of 20% of cash generation, while maintaining a strong balance sheet for future investments.

Compelling Offer for Avanco Shareholders

OZ Minerals believes its Offer to Avanco Shareholders is attractively priced and designed to crystallise a significant premium, deliver immediate certainty from the relevant cash consideration and provide ongoing exposure to the Combined Group without the need to pay brokerage costs.

Importantly, the certainty provided by the Offer should be balanced against the risks and uncertainties currently borne by you as an Avanco Shareholder. If you do not accept the Offer, and it becomes unconditional, you will become a minority shareholder in Avanco. This may have several implications for you, including reduced liquidity in Avanco Shares

⁴ See footnote 1.

⁵ See section 6.8 for further details and relevant qualifications.

⁶ See footnote 1. Based on Avanco's ASX announcement titled "Recommended cash and scrip offer by OZ Minerals" released 27 March 2018 and available at <https://www.asx.com.au/asxpdf/20180327/pdf/43srbq36jq2w0s.pdf>.

and a reduced ability for you to sell your Avanco Shares at value. Moreover, if the Offer is unsuccessful and there is no successful superior proposal, it is possible that Avanco Shares will trade below the Offer Price and closer to the trading levels prior to the Announcement Date.

I urge you to **ACCEPT** the Offer as soon as possible.

To accept the Offer, please follow the instructions on the accompanying Acceptance Form. If you require additional assistance, please call the OZ Minerals Offer Information Line on 1300 330 255 (for callers within Australia) or +61 1300 330 255 (for callers outside Australia).

We appreciate your consideration of our Offer and look forward to the prospect of delivering significant shareholder value to you.

Yours sincerely

OZ Minerals Limited

1 Why you should accept the Offer

This section sets out some of the reasons why OZ Minerals believes that Avanco Shareholders should accept the Offer.

- 1 **The Offer represents a significant premium to both recent and historic longer term trading prices of Avanco Shares**
- 2 **The Offer is unanimously recommended by Avanco Directors**
- 3 **Support from the Avanco Directors, certain Avanco Management and major Avanco Shareholders**
- 4 **You will become a shareholder in a financially stronger company with a diversified asset portfolio and a history of paying dividends**
- 5 **You will have access to potentially greater liquidity**
- 6 **The Offer reduces the risks associated with being an Avanco Shareholder if Avanco were to remain a standalone entity**
- 7 **The Offer Price is final, and cannot be increased during the Offer Period in the absence of a competing proposal**
- 8 **The trading price of Avanco Shares may fall if the Offer is unsuccessful**

1.1 The Offer represents a significant premium to both recent and historic longer term trading prices of Avanco Shares

Under the Offer, you will receive \$0.085 cash and 0.009 new OZ Minerals Shares for each of your Avanco Shares.

Based on the one-month VWAP of OZ Minerals Shares up to and including 26 March 2018 of \$9.45 per share, the day prior to the Announcement Date, the Offer values your Avanco Shares at \$0.17 per share.

As shown in the chart below, the Offer represents a substantial premium to the trading price of Avanco Shares over a range of time periods prior to the Announcement Date.

Figure 1: Premia analysis of OZ Minerals' Offer (prior to Announcement Date)⁸

Since the announcement of the Offer, OZ Minerals' share price has traded flat, the S&P/ASX 200 has traded lower by 0.03%, and the Offer now values your Avanco Shares

at \$0.1680 per share, based on the one-month VWAP of OZ Minerals Shares up to and including 6 April 2018 of \$9.23 per share. You should note that any market fluctuations in the price of OZ Minerals Shares would impact the implied value of the Offer Price.

1.2 The Offer is unanimously recommended by Avanco Directors

Avanco Directors unanimously recommend Avanco Shareholders accept the Offer in the absence of a superior proposal.

Additionally, Avanco Directors and certain Avanco Management who own or control Avanco Shares have confirmed that they will accept or procure the acceptances of the Offer in respect of the Avanco Shares that they own or control, in the absence of a superior proposal.

Collectively, the Avanco Directors and certain Avanco Management own or control 14,045,196 Avanco Shares representing 0.57% of all Avanco Shares⁹ as at the date of this Bidder's Statement, excluding Avanco Options as of the Announcement Date.

1.3 Support from the Avanco Directors, certain Avanco Management and Major Avanco Shareholders

Subject to OZ Minerals receiving Offer acceptances described below, OZ Minerals only requires acceptances for a further 477,318,992 Avanco Shares representing 19.43% of all Avanco Shares for the Offer's 50.1% minimum acceptance condition to be satisfied.¹⁰

- Appian has entered into a Pre-Bid Acceptance Deed with OZ Minerals under which it has agreed to accept the Offer, subject to certain conditions, in respect of its relevant interest in 453,307,418 Avanco Shares representing approximately 18.45% of all Avanco Shares.¹¹ If OZ Minerals acquires Appian's Avanco Shares under the Pre-Bid Acceptance Deed and subsequently sells them to a competing bidder (whether under takeover or scheme of arrangement), OZ Minerals will pay Appian an amount equal to the difference between the value of consideration received for the shares and the two day VWAP for Avanco Shares prior to the announcement of the competing offer or competing scheme. A copy of the Pre-Bid Acceptance Deed has been lodged with the ASX.
- BlackRock, which acts as investment manager on behalf of clients who are beneficial holders of or have interests in Avanco Shares (including interests in funds in which Avanco Shares are held), has stated that its current intention is to accept the Offer in respect of the 286,238,522 Avanco Shares it holds a relevant interest in, representing 11.65% of all Avanco Shares¹² in the absence of a superior offer and the conditions of the Offer being fulfilled.

BlackRock (subject to applicable law) reserves and retains the right to deal with the Avanco Shares described above on behalf of its clients in its absolute discretion and/or on the instructions of its clients or otherwise (including without limitation, a transfer of Avanco shares to any replacement investment manager or custodian nominated by its client(s) in circumstances where such client(s) has/have terminated BlackRock's professional relationship in respect of the Avanco shares). BlackRock's statement of intention was not and was not intended to be legally binding and shall neither have any legal effect nor create

any legal obligation or liability on any member of the BlackRock group or any of its clients. BlackRock's statement of intention relates not to a specific number of Avanco shares but to such number of Avanco Shares BlackRock has the authority to commit to the Offer at the time it accepts the Offer.¹³

- Avanco Directors and certain Avanco Management, who collectively own 14,045,196 Avanco Shares representing 0.57% of all Avanco Shares,¹⁴ have stated they intend to accept the Offer with respect to all of their Avanco Shares subject to there being no superior offer for Avanco.

Further details in relation to the Pre-Bid Acceptance Deed and the statements given by BlackRock and the Avanco Directors and certain Avanco Management are provided in section 6.8.

1.4 You will become a shareholder in a financially stronger company with a diversified asset portfolio and international exploration prospects and a history of paying dividends

OZ Minerals is an Australian-based modern mining company with a focus on copper. Listed on the ASX (ASX100), OZ Minerals has a growth strategy focused on creating value for all stakeholders, and is utilising its knowledge and experience to implement a global strategy focused on IOCG deposits.

If the Offer is successful, Avanco Shareholders will have a relevant interest of up to 7.3%¹⁵ of OZ Minerals Shares.

The Combined Group will be larger and globally diversified with an attractive portfolio of operational, and advanced stage development and exploration projects currently supported by a strong, debt free balance sheet.

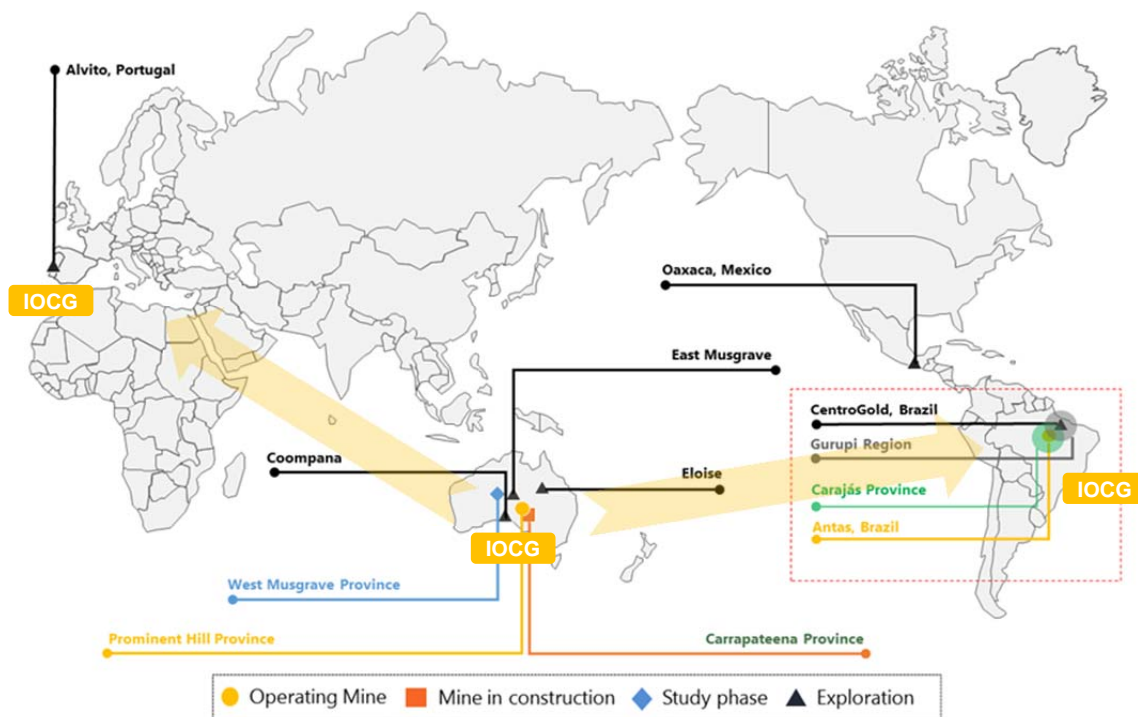

The diagram below shows the location of the Combined Group's activities:

¹³ See section 6.8 for further details and relevant qualifications.

¹⁴ See footnote 1. Based on Avanco's ASX announcement titled "Recommended cash and scrip offer by OZ Minerals" released 27 March 2018 and available at <https://www.asx.com.au/asxpdf/20180327/pdf/43srbq36jq2w0s.pdf>.

¹⁵ Assumes all 150,000,000 Avanco Options expiring 30 June 2018 are exercised prior to Offer Period close and OZ Minerals acquires all Avanco Shares.

Figure 2: Combined Group's assets

In addition, OZ Minerals has a track record of paying dividends and declared a total fully-franked dividend of \$0.20 per share in 2017. The OZ Minerals Board's current policy is to target a minimum dividend payment of 20% of cash generation, while maintaining a strong balance sheet for future investments. Avanco Shareholders holding OZ Minerals Shares at any future dividend record date would be eligible to receive any associated future dividends paid by OZ Minerals.

1.5 You will have access to potentially greater liquidity¹⁶

By accepting the Offer, Avanco Shareholders will receive OZ Minerals Shares as part of the Offer consideration. OZ Minerals has significantly greater relative trading liquidity compared to Avanco, which would provide Avanco Shareholders with an enhanced ability to realise the inherent value in their shareholding through OZ Minerals versus a shareholding in Avanco.

¹⁶ Source: IRESS as at 26 March 2018.

Figure 3: Daily trading value over the last year (\$ million)

Figure 4: Trading volume (% basic shares outstanding)

Moreover, should OZ Minerals be successful in acquiring a majority ownership in Avanco but not reach the compulsory acquisition threshold, there is a risk that the trading liquidity of Avanco Shares will be negatively impacted. In this instance, should you not accept the Offer and remain a minority Avanco Shareholder, it may make it more difficult for you to sell your Avanco Shares at prevailing price levels.

1.6 The Offer reduces the risks associated with being an Avanco Shareholder if Avanco were to remain a standalone entity

Avanco's asset portfolio is located in Brazil and comprises a single operating asset, being the Antas mine and a number of development projects, including Pedra Branca, CentroGold and Pantera. Accordingly, Avanco Shareholders are exposed to Brazil country risk as well as significant development and permitting risks.

With a cash balance of US\$24.4 million as at 31 December 2017, it is likely that Avanco will need to raise external capital to fund the construction of these projects, which may include the issuance of new equity.

OZ Minerals is currently generating strong cash flows from its Prominent Hill asset and has a strong balance sheet and the technical skills to help mitigate the development and funding risks of Avanco.

By accepting the Offer, and if the Offer is successful, Avanco Shareholders will crystallise value at a significant premium and reduce their exposure to Avanco's current risk profile.

1.7 The Offer Price is final and cannot be increased during the Offer Period in the absence of a competing proposal

OZ Minerals has declared that its Offer Price is final and cannot be increased during the Offer Period in the absence of a competing proposal.

Moreover, the OZ Minerals Offer is the only offer available for all your Avanco Shares as at the date of this Bidder's Statement. Neither Avanco nor OZ Minerals is aware of any other party intending to make a competing proposal for your Avanco Shares.

1.8 The trading price of Avanco Shares may fall if the Offer is unsuccessful

Avanco Shares have not traded at or above the Offer Price over the last five years.

If the Offer does not proceed or is otherwise unsuccessful and there are no competing proposals for Avanco Shares, it is possible that the trading price of Avanco Shares will fall.

3.3 History, structure and ownership of OZ Minerals Group

(a) **History**

OZ Minerals was formed in 2008 by the merger of two Australian non-ferrous metals mining businesses, Oxiana Limited and Zinifex Limited.

OZ Minerals' assets, excluding Prominent Hill, were then acquired in 2009 by China Non Ferrous Metals Co Ltd (Minmetals), the company now operating as MMG Limited.

In 2011, OZ Minerals purchased the Carrapateena exploration project. A pre-feasibility study was released for the project in 2014. In 2015, a series of parallel initiatives commenced to explore options to de-risk and increase the value of the project. OZ Minerals released a feasibility study update on Carrapateena in 2017, with construction of the project now underway.

In 2012, OZ Minerals expanded its Prominent Hill operation to include underground mining at the Ankata Underground mine. In 2015, a second underground mine, Malu Underground, was commissioned. The operations of these underground mines have subsequently been integrated. The company transitioned Prominent Hill to an underground-only mining operation in March 2018, whilst continuing to process stockpiles of ore historically mined from open pit mining operations.

In August 2016, OZ Minerals signed an agreement with Cassini Resources to earn up to 70% of the West Musgrave project, Australia's largest undeveloped copper-nickel deposit. In November 2017, OZ Minerals and Cassini Resources announced that the West Musgrave project would progress to a pre-feasibility study following positive scoping study results.

OZ Minerals relocated its corporate headquarters from Melbourne to Adelaide in July 2015.

3.4 Principal activities of OZ Minerals Brazil and OZ Minerals Group

(a) **OZ Minerals Brazil**

OZ Minerals Brazil has been incorporated for the purpose of making the Offer, and as such, it currently holds no assets of its own. OZ Minerals Brazil is a wholly owned subsidiary of OZ Minerals.

(b) **OZ Minerals Group**

A brief summary of OZ Minerals' principal operations and projects is set out below.

Prominent Hill (100% owned by OZ Minerals)

Prominent Hill is an underground copper-gold-silver mine located 130km south-east of Coober Pedy in South Australia, with a mine life that currently extends to 2029. The asset comprises:

- an underground mine (Ankata and Malu mine areas); and
- a conventional crushing, grinding and flotation processing plant.

The operation has transitioned to an underground only mining operation with open pit mining activities ceasing in March 2018.

These underground mining activities, combined with stockpile processing, will keep the processing plant at full capacity of approximately 9-10Mtpa ore until mid-2023, with underground ore to support processing plant throughput of approximately 3.5-4.0Mtpa ore post mid-2023.¹⁹

Prominent Hill was first commissioned in 2009, and produced 112Kt copper in concentrate in 2017 at a C1 Cash Cost of US\$0.83/lb. In 2018 Prominent Hill is forecast to produce 100-110Kt copper at a C1 Cash Cost of US\$0.75-0.85/lb. The operation is a fly-in fly-out site that currently employs approximately 900 employees and contractors.

Carrapateena (100% owned by OZ Minerals)

Carrapateena is a copper-gold project located approximately 160km north of Port Augusta in South Australia's highly prospective Gawler Craton.

The project is located on Pernatty Station and its supporting infrastructure is located within Oakden Hills Station.

Carrapateena is one of Australia's largest undeveloped copper deposits. It is expected to be a 4.25 Mtpa ore underground operation, with an estimated mine life of 20 years,²⁰ at an estimated construction build cost of approximately \$916 million. Installed and proposed infrastructure on site includes an accommodation village, airstrip, processing plant and tailings storage facility.

¹⁹ This information is extracted from the document entitled "Prominent Hill 2017 Mineral Resource and Ore Reserve Statement and Explanatory Notes" which is annexed to the ASX Release entitled "Prominent Hill underground Reserve growth continues, mine life extended to 2029" released on 21 November 2017 and available at https://www.ozminerals.com/uploads/media/171121_Prominent_Hill_2017_Mineral_Resource_and_Ore_Reserve.pdf. OZL Minerals confirms that all the material assumptions underpinning the production target in the initial announcement continue to apply and have not materially changed.

²⁰ ASX Announcement titled "Carrapateena Project Mineral Resource Restatement and Ore Reserve Statement" released on 24 August 2017 and available to view at: https://www.ozminerals.com/uploads/media/170824_ASX_Release_Resource_and_Reserve_Statement_-_Carrapateena_August_2017.pdf.

Construction of Carrapateena is underway and commissioning is scheduled for the fourth quarter of 2019, after which the project will ramp up to steady state production. Mining lease approvals were secured in March 2018 and OZ Minerals is presently in advanced negotiations regarding an award of a multi-year underground mining services contract.

There are two main phases to construction of Carrapateena:

- **Phase one Q3 2017 – Q1 2018:** comprises construction of enabling infrastructure including a 550 bed accommodation village and airstrip, as well as the continued development of the dual access underground decline; and
- **Phase two Q2 2018 – Q4 2019:** comprises construction of processing and above ground infrastructure, including the processing plant, tailings storage facility, continued development of the dual decline, underground materials handling system, access roads and power line.

West Musgrave (70% earn-in right held by OZ Minerals)

In August 2016, OZ Minerals signed an agreement with Cassini Resources to earn up to 70% of the West Musgrave project, which is located in the Musgrave Province of Western Australia and includes the Nebo-Babel copper-nickel and Succoth copper deposits.

Under this agreement, OZ Minerals can earn 51% of the project by spending at least \$22 million within 18 months. OZ Minerals may earn up to 70% by spending a total of \$36 million.

OZ Minerals has decided to proceed to the next stage of the agreement, enabling OZ Minerals to earn 51% of the project. As at the date of this Bidder's Statement, OZ Minerals is managing the pre-feasibility study of West Musgrave.

Other

OZ Minerals also has a dynamic pipeline of potential exploration and growth opportunities in Australia and South America with other partners. These include:

- Oaxaca with Acapulco Gold Corp, targeting copper/zinc VHMS systems in southern Mexico;
- Alvito with Avrupa Minerals, targeting shallow IOCG mineralisation in southern Portugal;
- Coompana with Mithril Resources, targeting copper/nickel magmatic sulphide mineralisation in South Australia;
- Eloise with Minotaur Exploration, targeting Cannington style lead/zinc/silver mineralisation and high grade copper/gold mineralisation in Queensland. OZ Minerals owns 51% of this venture;
- Punt Hill with Red Metal, targeting IOCG mineralisation 50km south of the Carrapateena project in South Australia; and
- East Musgrave with Woomera Exploration, targeting copper/nickel magmatic sulphide mineralisation in the eastern portion of the Musgrave province, South Australia.

OZ Minerals is also progressing studies on the potential development of a concentrate treatment plant to increase copper-in-concentrate grades and reduce impurities to very low levels. A successful pilot plant campaign was completed in December 2017.

(c) **Management commentary on historical results**

Overview

OZ Minerals' net profit after tax for 2017 was \$231.1 million, which was an increase of \$123.3 million (or 114%) compared to 2016. Strong production performance at Prominent Hill in 2017 enabled OZ Minerals to fully capitalise on

the strong copper price and deliver an underlying net annual profit after tax of \$231.1 million, an increase of \$96.8 million (or 72%) compared to 2016. EBITDA margins improved by 18% year on year despite the marginally lower volume of copper sold. OZ Minerals' cash balance of \$729.4 million as at 31 December 2017 reflects an increase of \$73.7 million compared to 2016 after capital investment at Carrapateena, expenditure on exploration activities, tax payments and dividend payments to shareholders.

Net revenue

2017 revenue was \$188.2 million higher than 2016 revenue as solid production from Prominent Hill benefited from strong copper prices. Contained copper sales of 112,288t were comparable to 2016 while gold sales of 132,285oz were 21% higher. In 2017 the average A\$ copper price was 25% higher than in 2016, while the average A\$ gold price was 2% higher. Treatment charges and refining costs (TCRC) were lower by \$12 million as a result of improved trading terms and lower refining charges.

Cost of goods sold

Cost of goods sold in 2017 was higher than the previous year by \$59.8 million resulting from an increased proportion of underground ore, higher power costs and royalties attributable to the higher revenue base.

Mining costs were \$20.6 million lower in 2017 as a result of the reduction in open pit mining activity (\$41 million), offset by increased higher grade underground mining of \$20.4 million. As a result of the declining open pit mine strip ratio (approximately 0.5:1 in 2017 compared to 1:1 in 2016), the deferral of mining costs to the balance sheet was also lower by \$32.6 million in 2017.

Processing costs increased by \$7.7 million, primarily due to higher power prices.

Royalties expenses increased by \$10.7 million due to higher sales revenue compared to the prior period.

During the year, 10Mt of ore was milled (2016: 9.8Mt), including 2.5Mt of underground ore (2016: 2.1Mt). The cash inventory adjustment of \$68.7 million in 2017 was \$16.7 million lower than 2016 as open pit mining reduced in line with the mine plan and was partially displaced by increased underground ore production. 6.1Mt of open pit ore was stockpiled compared to 7.7Mt in 2016.

Other costs

Exploration and evaluation costs of \$16.3 million were incurred during the year in progressing the West Musgrave project and other exploration earn-in arrangements and \$5 million was incurred in relation to corporate development, including due diligence costs associated with reviewing other non-organic growth opportunities. During the year \$3 million in government grant funding was received relating to the development of the Concentrate Treatment Plant technology.

Corporate general and administration costs of \$31.5 million comprised costs incurred in direct support of operating activities (\$11 million) and those related to largely corporate activities (\$20.5 million). Costs allocated to support operating activities covered a range of services and expenditure provided at the corporate office to the Prominent Hill, Carrapateena, and Exploration and Development operating segments. These included costs for sales and marketing, strategic sourcing, business services, information technology and insurance.

The income tax expense of \$98.3 million was higher than the previous year as a result of the higher profit and the benefit of tax losses recognised in the previous year.

Net depreciation and amortisation expense increased by \$10 million compared to 2016. This was predominantly due to the higher value ore milled.

5 Information on Avanco and Avanco Group

5.1 Overview of Avanco

Avanco is the holding company of the Avanco Group.

Avanco is an Australian copper mining company listed on the ASX and operating in the Carajás copper province and Gurupi gold belt in Brazil.

Antas is Avanco's current flagship asset. It is a high grade open pit operating copper-gold mine which commenced commercial production in July 2016. Avanco plans to expand through its large portfolio of exploration tenements and the development of new projects, notably Pedra Branca, Pantera and CentroGold.

5.2 Directors

As at the date of this Bidder's Statement, there are six directors of Avanco. The directors of Avanco are as follows:

- (a) Vernon Tidy – Interim Independent Non-Executive Chairman
- (b) Anthony Polglase – Managing Director
- (c) Simon Mottram – Executive Director
- (d) Luis Azevedo – Executive Director
- (e) Luiz Ferraz – Non-Executive Director
- (f) Paul Chapman – Independent Non-Executive Director

5.3 Principal activities of Avanco and Avanco Group

A brief summary of Avanco's principal operations and projects is set out below.

(a) **Antas**

Antas is an operating high-grade open pit copper-gold mine. It was discovered by Avanco in 2011, developed under budget in under 12 months and, after entering commercial production in July 2016, is now operating above its original design capacity. Near mine exploration targets provide potential upside to mine life and production.

Avanco's production guidance for 2018 is 12,000–13,000t of copper in concentrate.

(b) **Pedra Branca**

Pedra Branca is an undeveloped copper project located approximately 50km southwest of Antas. The project is comprised of two adjacent high-grade copper-gold deposits, Pedra Branca East and Pedra Branca West.

The East Zone is the first zone being prepared for production targeting 24,000t of copper annually, with the potential to supplement this from Pedra Branca West, subject to further technical studies.

(c) **Pantera**

In January 2018, Avanco announced that it had agreed terms for an option to acquire 100% of the Pantera copper project from Vale. The Pantera license covers approximately 100km². Pantera is located near Avanco's existing operations in the world class Carajás Mineral Province. It is characterised by high-grade copper-gold and has potential to add scale and longevity to Avanco's operations.

An initial 5,000m drilling program yielded a maiden Inferred Mineral Resource estimate shown in section 5.4.

(d) **CentroGold**

The CentroGold project is located in Maranhão, northern Brazil and was wholly acquired by Avanco in October 2017. CentroGold comprises approximately 1,370km² of tenements situated along a highly prospective and under explored 75km greenstone trend.

Avanco released the results of a scoping study on the CentroGold project on 10 April 2018. The results of the scoping study indicate the project has strong potential to be a high-grade, low capex gold project targeting over 100,000oz of gold annually for a greater than 10 year mine life. Avanco has made progress on advancing environmental and social permitting along with mineral rights and licences, however, construction cannot commence until an injunction is lifted and local housing is re-located.

Refer to Avanco's ASX announcement released on 10 April 2018, titled "CentroGold – Scoping Study" for further details.

OZ Minerals intends to undertake an execution review of Avanco's various deposits and exploration targets once it assumes operating control of Avanco in order to maximise the value of those assets.

6.8 Pre-bid acceptance agreement and intention statements

A number of Avanco Shareholders have indicated they intend to accept the Offer in the absence of a superior proposal. Below are further details on the arrangements with, or statements given, by these Avanco Shareholders.

- (a) Appian has entered into a Pre-Bid Acceptance Deed with OZ Minerals under which Appian has agreed to accept the Offer when requested by OZ Minerals at any time after the date which is 15 Business Days after the Offer becomes open for acceptance, in the absence of a superior proposal and subject to certain other conditions, in respect of its relevant interest in 453,307,418 Avanco Shares representing 18.45% of all Avanco Shares.³⁷ If OZ Minerals acquires Appian's Avanco Shares under the Pre-Bid Acceptance Deed and subsequently sells them to a competing bidder (whether under takeover or scheme of arrangement), OZ Minerals will pay Appian an amount equal to the difference between the value of consideration received for the shares and the two day VWAP for Avanco Shares prior to the announcement of the competing offer or competing scheme. A copy of the Pre-Bid Acceptance Deed was lodged with the ASX on 28 March 2018.
- (b) BlackRock, which acts as investment manager on behalf of clients who are beneficial holders of or have interests in Avanco Shares (including interests in funds in which Avanco Shares are held), has stated that its current intention is to accept the Offer in respect of the 286,238,522 Avanco Shares it holds a relevant interest in, representing 11.65% of all Avanco Shares,³⁸ in the absence of a superior proposal and subject to the conditions of the Offer being fulfilled.

BlackRock (subject to applicable law) reserves and retains the right to deal with the Avanco Shares described above on behalf of its clients in its absolute discretion and/or on the instructions of its clients or otherwise (including without limitation, a transfer of Avanco shares to any replacement investment manager or custodian nominated by its client(s) in circumstances where such client(s) has/have terminated BlackRock's professional relationship in respect of the Avanco shares). BlackRock's statement of intention was not and was not intended to be legally binding and shall neither have any legal effect nor create any legal obligation or liability on any member of the BlackRock group or any of its clients. BlackRock's statement of intention relates not to a specific number of Avanco shares but to such number of Avanco Shares BlackRock has the authority to commit to the Offer at the time it accepts the Offer.
- (c) Avanco Directors and certain Avanco Management, who collectively own or control 14,045,196 Avanco Shares representing 0.57% of all Avanco Shares³⁹ have stated they intend to accept the Offer with respect to all of their Avanco

7 Sources of consideration

7.1 Total consideration

The consideration for the acquisition of the Avanco Shares to which the Offer relates will be satisfied partly by the issue of OZ Minerals Shares and partly by the payment of cash.

The maximum number of OZ Minerals Shares which would become payable under the Offer if acceptances are received in respect of Avanco Shares on issue as at the date of this Bidder's Statement is approximately 22,112,158.

In addition, if all holders of Avanco Options on issue as at the date of this Bidder's Statement exercise their Avanco Options and accept the Offer in respect of the Avanco Shares issued to them during the Offer Period, then an additional amount of approximately 1,757,250 OZ Minerals Shares would become payable. If this additional number of OZ Minerals Shares also becomes payable, the total number of OZ Minerals Shares which would become payable under the Offer is approximately 23,869,408.

OZ Minerals has the capacity to issue the maximum number of OZ Minerals Shares which it may be required to issue under the Offer.

If acceptances are received for all Avanco Shares on issue as at the date of this Bidder's Statement, the amount of cash that OZ Minerals Brazil would be required to pay under the Offer would be approximately \$208,837,048.

In addition, if holders of all Avanco Options on issue as at the date of this Bidder's Statement exercise their Avanco Options and accept the Offer in respect of the Avanco Shares issued to them during the Offer Period, an additional \$16,596,250 will be payable by OZ Minerals Brazil under the Offer.

Accordingly, the maximum amount of cash that OZ Minerals Brazil could be required to pay under the Offer is \$225,433,298, excluding transaction costs.

7.2 Sources of cash consideration

The cash consideration payable under the Offer will be provided from the internal cash reserves of OZ Minerals, which will be made available to OZ Minerals Brazil.

8 OZ Minerals' intentions in relation to Avanco

8.1 Introduction

OZ Minerals Brazil has been established for the purpose of making the Offers. Accordingly, the intentions of OZ Minerals Brazil are the same as the intentions of OZ Minerals.

The intentions of OZ Minerals are set out in this section of the Bidder's Statement. Those intentions have been formed on the basis of facts and information concerning Avanco, and the general business environment, which are known at the time of preparing this Bidder's Statement. Final decisions will only be reached by OZ Minerals in light of material information and circumstances at the relevant time. Accordingly, the statements set out in this section are statements of current intention only and may vary as new information becomes available or circumstances change.

8.2 Overview and rationale for the Offer

The Offer is consistent with OZ Minerals' objective of becoming a multi-asset, copper-core, global modern mining company. The acquisition of Avanco will provide OZ Minerals with a potential organic pathway to seven mines in the next six years (Prominent Hill, Carrapateena, West Musgrave, Antas, CentroGold, Pedra Branca and Pantera). OZ Minerals will have expansive land holdings in Australia and Brazil with significant exploration and consolidation potential for long term growth, and a strong balance sheet position that preserves flexibility to maximise shareholder value.

The acquisition of Avanco would immediately add to OZ Minerals' copper production profile and provide expansion options in the highly prospective Carajás copper province and Gurupi gold belt in Brazil.

8.3 Intentions for Avanco as a wholly owned controlled entity

This section 8.3 describes OZ Minerals' intentions if OZ Minerals and its associates acquire a relevant interest in 90% or more of Avanco Shares, and so becomes entitled to proceed to compulsory acquisition of outstanding Avanco Shares in accordance with Part 6A.1 of the Corporations Act.

In that circumstance, OZ Minerals' current intentions are as follows.

(a) Corporate matters

OZ Minerals intends to:

- proceed with compulsory acquisition of the outstanding Avanco Shares in accordance with the provisions of Part 6A.1 of the Corporations Act;
- cause Avanco to make offers to each holder of Avanco Options (other than Key Management Personnel) in a form approved by OZ Minerals to cancel their Avanco Options for a price equal to \$0.07 each;
- apply for Avanco to be removed from the official list of the ASX; and
- replace Avanco non-executive directors with the nominees of OZ Minerals, while retaining the current Avanco executive directors. Replacement Avanco non-executive directors have not yet been identified by OZ Minerals and their identity will depend on the circumstances at the relevant time. However, it is expected that the majority of the replacement Avanco non-executive directors will be members of the OZ Minerals management team.
- retain the existing Managing Director of Avanco.

(b) General execution review

After the end of the Offer Period, OZ Minerals intends to conduct an immediate, broad based execution review of Avanco's operations on both a strategic and financial level to:

- evaluate Avanco performance, profitability and prospects; and
- seek to optimize Avanco's asset portfolio, improving operating costs and accelerate growth.

(c) Specific intentions

OZ Minerals will retain and benefit from Avanco's in-country Brazilian management team and employees, who have a proven track record of project delivery and maintaining strong local stakeholder relationships in Brazil.

A strong team combined with OZ Minerals' devolved operating model enables Avanco's Brazilian assets to be bolted on to OZ Minerals' business, simplifying integration.

(d) Impact on Employees

As a result of the implementation of the above intentions, it is possible that certain operational functions, for example, those relating to the maintenance of Avanco's listing on the ASX, and some head office functions will become redundant. Some job losses may occur as a result, however, the incidence, extent and timing of such job losses cannot be predicted in advance. OZ Minerals Brazil does not expect any in-country job losses to occur in Brazil.

Where possible, OZ Minerals will seek to minimise job losses through redeployment of the relevant employees elsewhere in the OZ Minerals Group. If redundancies do occur, the relevant employees will receive benefits in accordance with their contractual and other legal entitlements.

8.4 Intentions for Avanco as a part owned controlled entity

This section 8.4 describes OZ Minerals' intentions if Avanco becomes a controlled entity of OZ Minerals Brazil, but OZ Minerals Brazil is not entitled to proceed to compulsory acquisition of Avanco in accordance with Part 6A.1 of the Corporations Act.

In that circumstance, OZ Minerals' current intentions are as follows:

(a) Implement OZ Minerals' strategic objectives

Unless specifically set out below, to implement the intentions set out in section 8.3 to the extent possible.

(b) Replace Avanco Directors and/or appointment of new Avanco Directors

To seek to replace some or all non-executive Avanco Directors with nominees of OZ Minerals (subject to any requirement to have independent directors applicable from time to time).

(c) Steps may be taken to delist Avanco from the ASX

To cause Avanco to apply to the ASX for removal from the official list as soon as it is in a position to do so, subject to meeting the ASX's requirements.

(d) Exercise rights of compulsory acquisition if and when available

To exercise rights of general compulsory acquisition under Part 6A.2 of the Corporations Act if OZ Minerals Brazil becomes entitled to do so, for example, as a result of acquisitions of Avanco Shares in reliance on the '3% creep' exception in item 9 of section 611 of the Corporations Act.

(e) Funding

New external capital may be required to fund Avanco's operations and development projects in the future. OZ Minerals will review how best to fund Avanco's activities which, depending on the circumstances at the time, may include raising new equity.

(f) Distributions

OZ Minerals will review the existing distribution policy for Avanco but intends to limit distributions in the near term given Avanco's current cash on balance sheet, expected operating cash flow generation and potential capital requirements in the future.

(g) Information

To agree information and disclosure protocols with the Avanco Board for the purpose of facilitating OZ Minerals' financial results preparation and reporting.

The ability of OZ Minerals and OZ Minerals Brazil to implement the intentions set out in this section 8.4 will be subject to the legal obligations of Avanco Directors to have regard to the interests of Avanco and all Avanco Shareholders, and the requirements of the Corporations Act and the ASX Listing Rules relating to transactions between related parties. OZ Minerals will only make a decision on the above mentioned courses of action following legal and financial advice in relation to those requirements.

8.5 Intentions for Avanco if not controlled by OZ Minerals

OZ Minerals Brazil reserves its right to declare the Offer free from the 50.1% minimum acceptance condition (or any other condition) to the Offer. However, it has made no decision as to whether it will do so.

This section 8.5 describes OZ Minerals' intentions if OZ Minerals were to declare the Offer free of the 50.1% minimum acceptance condition and if Avanco does not become a controlled entity of OZ Minerals.

In that circumstance:

- OZ Minerals does not expect to be in a position to give effect to the intentions set out in sections 8.3 or 8.4 of this Bidder's Statement (other than OZ Minerals' intention to request appointment of OZ Minerals nominees as Avanco directors); and
- OZ Minerals' current intention is to continue to hold any Avanco Shares acquired with a view to maximising returns for OZ Minerals' shareholders (this may result in OZ Minerals Brazil and its Associates acquiring additional shares, to the extent permitted by law).

8.6 Other intentions

Subject to the matters described above in this section 0 and elsewhere in this Bidder's Statement and, in particular, the completion of the execution review of Avanco operations, it is the intention of OZ Minerals, on the basis of the facts and information concerning Avanco that are known to it and the existing circumstances affecting the assets and operations of Avanco at the date of this Bidder's Statement, that:

- the business of Avanco will be conducted in the same manner as at the date of this Bidder's Statement;
- there will be no redeployment of the fixed assets of Avanco; and
- the present employees of Avanco will, for the most part, continue to be employed by Avanco or its Subsidiaries.

9 Effect of the Offer on OZ Minerals and profile of the Combined Group

9.1 Profile of the Combined Group

The acquisition of Avanco will help solidify OZ Minerals' position as a leading Australia ASX listed metals producer, creating a larger, more diversified, growth oriented company with a stronger portfolio of assets across various stages of development.

Following the completion of the Offer, the Combined Group will have the following key attributes:

- a larger Ore Reserve and Mineral Resource base;
 - Combined Ore Reserves of 2.2Mt contained copper and 3.3Moz contained gold;⁴¹ and
 - Combined Mineral Resources of 4.6Mt contained copper and 9.0Moz of contained gold;⁴²
- an expanded portfolio of globally diversified growth opportunities, across various stages of development, including a potential pathway to seven mines in the next six years across two tier 1 mining jurisdictions, Australia and Brazil (Prominent Hill, Carrapateena, West Musgrave, Antas, Pedra Branca, Pantera and CentroGold);
- an enhanced production profile, reducing single operating asset risk;
- a pro-forma market capitalisation of up to \$2,887 million;⁴³
- a consolidated and highly experienced management team with a proven track record in project delivery in both Australia and Brazil, with both open pit and underground capabilities; and
- a strong balance sheet with \$547 million⁴⁴ in cash and no debt, which will help preserve flexibility in relation to the Combined Group's capital management initiatives and growth opportunities.

9.2 Pro forma consolidated financial statements for the Combined Group

This section 9.2 provides an overview of the unaudited pro forma balance sheet of OZ Minerals as at 31 December 2017 to show the effect of 100% ownership of Avanco by OZ Minerals Brazil.

The impact of earnings is not considered material to the Combined Group Income statements and hence is not provided.

⁴¹ See sections 3.5 and 5.4 for further details. Based on Avanco Ore Reserves of 66.3kt contained copper and 47.2koz contained gold, ASX Announcement titled "CentroGold – Scoping Study" released 10 April 2018 and available to view at <https://www.asx.com.au/asxpdf/20180410/pdf/43t2vtcz199rj0.pdf>. These statements have not been independently verified by OZ Minerals Brazil.

⁴² See sections 3.5 and 5.4 for further details. Excludes West Musgrave. Based on Avanco Minerals Resources of 1,011.4kt of contained copper and 2,883.1Moz of contained gold, ASX Announcement titled "CentroGold – Scoping Study" released 10 April 2018 and available to view at <https://www.asx.com.au/asxpdf/20180410/pdf/43t2vtcz199rj0.pdf>. These statements have not been independently verified by OZ Minerals Brazil.

⁴³ Calculated as OZ Minerals share price of \$9.00 per share as at 6 April 2018 multiplied by 320.8 million pro forma OZ Minerals Shares following the Offer. 320.8 million pro forma OZ Minerals Shares assumes 100% acquisition of Avanco Shares as the date of this Bidder's Statement and excludes any potential impact of the Avanco Options.

⁴⁴ Comprised of OZ Minerals' and Avanco's cash and debt as at 31 December 2017, and adjusted for cash payment to Avanco Shareholders under the Offer and any transaction costs borne by OZ Minerals under the Offer and assumes 100% of Avanco Shares as at the date of this Bidder's Statement. Excludes any potential impact of the Avanco Options or transaction costs borne by Avanco under the Offer. Refer to Table 14 for further information.

For the purposes of this statement, the acquisition of the relevant ownership interest in Avanco is assumed to be immediate and not staged.

The fair value of the consideration for Avanco has been calculated using the OZ Minerals' VWAP on the ASX of \$9.45 being the one month VWAP as at 26 March 2018. The offer consideration is subject to change as the price of OZ Minerals Shares changes between the Announcement Date and the expiration of the Offer Period.

The net assets of the OZ Minerals Group increase by \$204 million post acquisition.

10 Risk factors

10.1 Introduction

If the Offer becomes unconditional, Avanco Shareholders who accept the Offer will become OZ Minerals shareholders, and OZ Minerals Brazil will acquire an interest in Avanco. In that event, Avanco Shareholders will continue to be indirectly exposed to the risks associated with having an interest in Avanco's assets and general economic, share market and industry risks. There are also additional risks relating to OZ Minerals and the Combined Group, to which Avanco Shareholders will be exposed through their holding of OZ Minerals Shares.

The value of OZ Minerals Shares is influenced by a range of factors, many of which will be beyond the control of the Combined Group. These risk factors are divided into:

- specific risks relating to the Offer and the creation of the Combined Group;
- the mining and exploration sector; and
- other general risks.

You should carefully consider the following risk factors, as well as the other information provided by OZ Minerals Brazil, and consult your financial and legal advisers before making a decision as to whether to accept the Offer.

The risks and uncertainties described below are not the only ones facing OZ Minerals. Additional risks and uncertainties that OZ Minerals is aware of, or that it currently considers to be immaterial, may also become important factors that adversely affect OZ Minerals' operating and financial performance.

These risk factors do not take into account the investment objectives, financial and tax situation or the particular needs of individual Avanco Shareholders.

10.2 Risks relating to OZ Minerals

The following are specific risk factors relating to OZ Minerals:

- one operating asset;
- continuity of power supply;
- growth strategy;
- project execution;
- contract management;
- geotechnical failure;
- estimates of reserves and resources;
- customer management;
- commodity prices and exchange rates;
- operational safety failures resulting in injury or fatality;
- mine rehabilitation;
- maintenance of community relations and good title; and
- climate change.

For further information regarding these specific risk factors, please refer to OZ Minerals' Annual Report dated 22 February 2018, available to view on <https://www.ozminerals.com/media/OZ-Minerals-2017-annual-and-sustainability-report/>.

10.3 Risks relating to the Offer and the creation of the Combined Group

(a) **Issue of OZ Minerals Shares as consideration**

Avanco Shareholders are being offered consideration under the Offer that consists of a specified number of OZ Minerals Shares, rather than a number of OZ Minerals Shares with a specified market value. As a result, the value of the consideration will fluctuate depending upon the market value of the OZ Minerals Shares.

Furthermore, under the Offer, OZ Minerals will issue a significant number of OZ Minerals Shares. Some Avanco Shareholders may not intend to continue to hold OZ Minerals Shares and may wish to sell them on the ASX. There is a risk that if a significant number of Avanco Shareholders seek to sell their OZ Minerals Shares, this may adversely impact the price of OZ Minerals Shares.

Unless OZ Minerals Brazil acquires at least 80% of the Avanco Shares under the Offer, CGT scrip for scrip rollover relief will not be available in respect of the OZ Mineral Shares received in exchange for the Avanco Shares.

(b) **Integration risks**

There are risks that any integration between the businesses of the OZ Minerals Group and the Avanco Group may take longer than expected and that anticipated efficiencies and benefits of that integration may be less than estimated. These risks include possible differences in the management culture of the two groups, inability to achieve synergy benefits and cost savings, and the potential loss of key personnel.

(c) **Accounting**

OZ Minerals will be required to perform a fair value assessment of all of Avanco's assets and liabilities if the Offer is successful. This assessment may result in increased non-cash depreciation and amortisation charges. There is a risk that these charges may be substantially greater than those that would exist in OZ Minerals and Avanco as separate businesses. This may reduce the future earnings of the Combined Group.

(d) **Change in risk and investment profile**

Avanco Shareholders who accept the Offer will be exposed to risk factors relating to OZ Minerals, and to certain additional risks relating to the Combined Group and the integration of the two companies.

These include risks relating to the operation of a broader suite of assets (both in nature and scale) than Avanco owns and the change in product quality profiles.

(e) **Exchange rate fluctuations**

OZ Minerals currently does not generally hedge currency risk, and there can be no assurance that the company will hedge exchange rate risks moving forward.

Given that OZ Minerals' existing functional currency is the Australian dollar (with US dollars only held to meet US dollar commitments), post-acquisition the Combined Group's Australian dollar earnings may be adversely affected by movements in either the US dollar or Brazilian real.

(f) **Acquisitions**

A key element of OZ Minerals' strategy involves the acquisition of companies or investment in projects to add to its asset portfolio. Whilst it is OZ Minerals' policy to conduct a thorough due diligence process in relation to any such acquisition, these transactions involve inherent risks, including:

- accurately assessing the value, strengths, weaknesses, contingent and other liabilities and potential profitability of acquisition candidates;

- ability to achieve identified and anticipated synergies;
- unanticipated costs and problems or latent liabilities such as the existence of native title or environmental liabilities on the acquired properties;
- diversion of management attention from existing business;
- potential loss of its key employees or the key employees of any business it acquires;
- unanticipated changes in business industry or general economic conditions that affect the assumptions underlying the acquisition; and
- decline in the value of acquired projects, companies or securities.

Any one or more of these factors or other risks could cause OZ Minerals not to realise the benefits anticipated to result from the acquisition of projects, companies or securities and could have a material adverse effect on its ability to grow and on its financial position and financial performance.

(g) Dependence on licences and permits

The projects in which OZ Minerals has invested generally require governmental licences, permits, authorisations, concessions and other approvals in connection with their activities. Obtaining and complying with the necessary governmental permits and regulations can be particularly complex, costly and time-consuming and is therefore not assured.

The duration, cost and success of permit applications are contingent on many factors, including those outside the control of the OZ Minerals Group. Delay in obtaining or renewing, or failure to obtain or renew, a necessary permit could mean that OZ Minerals may be delayed or, in a worst case scenario, unable to proceed with the development or continued operation of a mine or project. The permits that OZ Minerals and its investee entities need may not be issued, maintained or renewed either in a timely fashion or at all, which may constrain the ability of OZ Minerals and its investee entities to conduct their mining operations, which in turn may impact OZ Minerals' financial results.

(h) Joint ventures

OZ Minerals does not control (or solely control) all aspects of the OZ Minerals business. For example OZ Minerals has a farm-in and joint venture agreement with Cassini Resources over the West Musgrave copper-nickel project, under which it can earn 51% of the project by spending at least \$22 million and up to 70% by spending a total of \$36 million. The company also has two international earn-in joint ventures in Mexico and Portugal.

Other OZ Minerals assets may, in the future, also be managed through joint venture partnerships. These non-controlled assets may not comply with OZ Minerals' management and operating standards, controls and procedures, including its health, safety, environment and community standards. Failure to adopt equivalent standards, controls and procedures at these assets could adversely impact OZ Minerals' reputation and financial results.

(i) Risks associated with retention of a minority stake

There are some risks associated with the Offer for Avanco Shareholders who do not accept the Offer and remain Avanco Shareholders.

If, in connection with or following the Takeover Bid, OZ Minerals Brazil acquires between 90% and 100% of the Avanco Shares, OZ Minerals Brazil may be entitled to compulsorily acquire the remaining shares of the Avanco Shareholders.

If, in connection with the Takeover Bid, OZ Minerals Brazil acquires more than 50.1% but less than 90% of the Avanco Shares, OZ Minerals Brazil will hold a

controlling interest in Avanco. The remaining Avanco Shareholders will be in a minority position in a company with a large controlling shareholder whose objectives for the company may differ from their own. They could also encounter a lower level of liquidity in Avanco Shares than exists today, which could result in a lower price for those Avanco Shares should they wish to sell them in future.

If, following the Takeover Bid, OZ Minerals Brazil does not acquire a Relevant Interest of at least 50.1% of the Avanco Shares, it may choose to waive the 50.1% condition of its Offer resulting in OZ Minerals Brazil holding a non-controlling interest of between 18.45% and 50.1% of Avanco. If this occurred, it is possible that OZ Minerals Brazil and another person or persons could each hold large minority interests in Avanco. In such a situation, any commercial misalignment between large minority shareholders could impact on the efficient and effective governance of Avanco and could adversely affect its ongoing performance.

10.4 Risks relating to the mining and exploration sector

(a) Exploration risk

OZ Minerals and Avanco have followed an exploration programme that has resulted in upgrades to resource and reserves. However, exploration activities are speculative by nature and therefore are often unsuccessful. Such activities also require substantial expenditure and can take several years before it is known whether they will result in additional mines being developed.

Accordingly, if the exploration activities undertaken by the Combined Group do not result in additional reserves or identified resources cannot be converted into reserves, there may be an adverse effect on the company's financial performance.

In addition, the exploitation of successful discoveries involves obtaining the necessary licences or clearances from relevant authorities that may require conditions to be satisfied and the exercise of discretions by such authorities. Further, the decision to proceed to further exploitation may require the participation of other companies whose interest and objectives may not be the same as those of the Combined Group.

(b) Development risks

For development projects, estimates of proven and probable ore reserves and cash operating costs are, to a large extent, based upon the interpretation of geologic data obtained from drill holes and other sampling techniques, and feasibility studies that derive estimates of cash operating costs based upon anticipated tonnage and grades of ore to be mined and processed, the configuration of the ore body, expected recovery rates, estimated operating costs, anticipated climatic conditions and other factors. As a result, it is possible that actual cash operating costs and economic returns will differ significantly from those currently estimated for a project prior to production.

The information provided in this Bidder's Statement in relation to OZ Minerals' and Avanco's projects is the current estimate of resources and reserves, capital and operating costs, as determined from geological data obtained from drill holes and other exploration techniques and technical studies conducted to date. These matters may change over time.

(c) Operating risks

The ability of the Combined Group to achieve production targets within anticipated time lines, or at all, or meet operating and capital expenditure estimates cannot be assured.

The Combined Group's assets and mining operations are subject to uncertainty with respect to (among other things): ore tonnes, grade, metallurgical recovery and impurities, ground conditions, operational environment, funding for development, availability of power supply, regulatory changes, accidents, contractual risks and other unforeseen circumstances such as unplanned mechanical failure of plant or equipment, cyclones, storms, floods, bushfires or other natural disasters. If faced by the Combined Group, these circumstances could result in the OZ Minerals not realising its operational or development plans or in such plans costing more than expected or taking longer to realise than expected. Any of these outcomes could have an adverse effect on the Combined Group's financial and operational performance.

(d) **Estimate risk**

The Mineral Resources and Ore Reserves for OZ Minerals' and Avanco's assets are estimates only and no assurance can be given that any particular recovery level of metals will in fact be realised. These estimates are prepared in accordance with the JORC Code (see further sections 12.5 and 12.6 of this Bidder's Statement), but they are expressions of judgement based on knowledge, experience and industry practice, and may require revision based on actual production experience which could in turn affect the Combined Group's mining plans and ultimately its financial performance and value. Estimates that are valid when made may change significantly when new information becomes available. In addition, commodity price fluctuations, as well as increased production costs or reduced throughput and/or recovery rates, may render reserves and resources uneconomic and so may materially affect the estimates.

(e) **Fluctuations in commodity prices and global economic volatility**

The Combined Group will generally be a price-taker in the markets in which it will operate. The prices the Combined Group obtains for its products will be determined by, or linked to, prices in world commodity markets, which have historically been subject to substantial volatility. Commodity prices are affected by underlying global economic and geopolitical factors, industry demand and supply balances, trade wars, product substitution and national tariffs.

OZ Minerals cannot provide any assurances as to the prices the Combined Group will achieve for its products. Changes in commodity prices, including prices for copper concentrate and associated pricing for impurities and treatment charges, may have a positive or negative effect on the Combined Group's project development and production plans and activities, together with its ability to fund those plans and activities.

OZ Minerals' customers may change over time depending on market conditions and market pricing opportunities.

(f) **Brazilian laws, regulations, rules, approvals, licences and permits**

The Combined Group's activities in Brazil will be subject to various laws governing prospecting, mining, development, production, foreign investment, repatriation of profits, corporate policies, taxation policies, labour standards and occupational health, mine safety, environmental policies, land use, water use, land claims of local people and other matters. Although Avanco's activities are currently carried out in accordance with all applicable rules and regulations, no assurance can be given that new rules and regulations will not be enacted or that existing rules and regulations will not be applied in a manner which could limit or curtail production or development.

Many of the mineral rights and interests of the Combined Group and its activities in exploring and developing those rights and interests will be subject to government approvals, licences and permits. These approvals, licences and permits are, as a practical matter, subject to the discretion of the applicable governments or governmental officials. No assurance can be given that the

Combined Group will be successful in obtaining and maintaining any or all of the various approvals, licences and permits it requires to continue to operate in Brazil, in full force and effect without modification or revocation.

To the extent these approvals are required and not obtained, the Combined Group may be curtailed or prohibited from continuing or proceeding with its planned exploration or development of mineral properties. Failure to comply with applicable laws, regulations and permitting requirements may result in enforcement actions, including orders issued by regulatory or judicial authorities causing operations to cease or be curtailed, and may include corrective measures requiring capital expenditures, installation of additional equipment, or remedial actions. Parties engaged in mining operations or in the exploration or development of mineral properties may be required to compensate those suffering loss or damage by reason of the mining activities and may have civil or criminal fines or penalties imposed for violations of applicable laws or regulations. Amendments to current laws and regulations in Brazil could have a material adverse impact on the Combined Group's financial performance and the repatriation of profits, or cause increases in exploration expenses, capital expenditures or production costs or reduction in levels of production at producing properties or require abandonment or delays in the development of new mining properties.

(g) Actions by governments or political events

The Combined Group and its business could be adversely affected by new government regulations, such as controls on imports, exports and/or prices. Increasing requirements relating to regulatory and environmental approvals may affect existing operations or potentially cause delays in and adversely affect the expansion of existing operations.

In addition, the Combined Group and its business could be exposed to the risk of terrorism, civil unrest, nationalisation, renegotiation or nullification of existing contracts, leases, permits or other agreements, changes in laws and policy (including changes in exchange control policies regulating the repatriation of earnings or capital out of the relevant jurisdiction) and governmental reviews and investigations (including historical tax audits), as well as other unforeseeable risks in the jurisdictions in which it operates that could have an adverse impact upon the profitability of an operation.

(h) Employee and union relations

Some of the employees at OZ Minerals' and Avanco's assets are represented by labour unions under various collective labour agreements.

The Combined Group or its relevant joint venture partners may not be able to satisfactorily renegotiate collective labour agreements when they expire and may face higher wages and changes in benefits.

In addition, existing labour agreements may not prevent strikes or work stoppages in the future, and any strike or other work stoppage could have an adverse effect on the operations and financial results of the Combined Group.

(i) Unexpected natural or operational catastrophes

The operations of OZ Minerals and Avanco may both be affected by various factors outside of OZ Minerals' control, including natural disasters, and operational and technical catastrophes.

These include, but are not limited to: flooding or adverse weather conditions, earthquakes, fires, explosions, rock falls, and unusual or unexpected rock formations that affect the exploration, development or mining operations of the business.

(j) Environmental risk

The operations and activities of the Combined Group are subject to the environmental laws and regulations of Australia and the other places it conducts business. As with all mining operations and exploration projects, the Combined Group's operations and activities are expected to have an impact on the environment. OZ Minerals attempts to conduct its operations and activities to the highest standard of environmental obligation, including compliance with all environmental laws and regulations.

OZ Minerals is unable to predict the effect of additional environmental laws and regulations which may be adopted in the future, including whether any such laws or regulations would materially increase the Combined Group's cost of doing business or affect its operations in any area. However, there can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Combined Group to incur significant expenses and undertake significant investments which could have material adverse effect on the Combined Group's business, financial condition and performance.

(k) Bribery and corruption

The Combined Group may suffer a significant loss resulting from historic or future fraud, bribery, corruption, other illegal acts by its employees, inadequate or failed internal processes or systems, or from external events, such as security threats affecting its ability to operate. Both OZ Minerals and Avanco operate in different markets and rely on their employees to follow their policies and processes as well as applicable laws in their activities. Risk of illegal acts or failed systems is managed through OZ Minerals' infrastructure, controls, systems and people, complemented by a focus on enterprise wide management of specific operational risks such as fraud, bribery and corruption, as well as personnel and systems risks. Specific programs, policies, standards and methodologies have been developed to support the management of these risks, however these cannot guarantee that such conduct does not occur and if it does, it can result in direct or indirect financial loss, reputational impact or regulatory consequences.

10.5 General risks**(a) Economic conditions**

The operating and financial performance of the Combined Group is influenced by a variety of general economic and business conditions, including levels of consumer spending, copper prices, inflation, interest rates and exchange rates, supply and demand, industrial disruption, access to debt and capital markets, and government fiscal, monetary and regulatory policies. Changes in general economic conditions may result from many factors including government policy, international economic conditions, significant acts of terrorism, hostilities or war, or natural disasters. A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have an adverse impact on the Combined Group's operating and financial performance and financial position.

The Combined Group's future possible revenues and share prices can be affected by these factors, which are beyond OZ Minerals' control.

(b) Share market conditions

The price at which OZ Minerals Shares are quoted on the ASX may increase or decrease due to a number of factors. These factors may cause the OZ Minerals Shares to trade at prices below the price at the date of the Offer. There is no assurance that the price of the OZ Minerals Shares will increase following the Offer, even if OZ Minerals' earnings increase.

Some of the factors which may adversely impact the price of the OZ Minerals Shares include fluctuations in the domestic and international market for listed securities, general economic conditions including interest rates, inflation rates, exchange rates, commodity and oil prices, changes to government fiscal, monetary or regulatory policies and settings, country trade and importation policies, changes in legislation or regulation, inclusion in or removal from market indices, the nature of the markets in which OZ Minerals operates and general operational and business risks.

(c) **Shareholder dilution**

In the future, OZ Minerals may elect to issue OZ Minerals Shares or engage in capital raisings to facilitate employee share plans, fund acquisitions, undertake other strategic initiatives, or for working capital purposes. While OZ Minerals will be subject to the constraints of the ASX Listing Rules regarding the percentage of capital that it is able to issue within a 12 month period (other than where exceptions apply), OZ Minerals shareholders at the time may be diluted as a result of such issues of OZ Minerals Shares and capital raisings.

(d) **Changes in taxation rules or their interpretation**

Changes in tax law (including value added taxes and stamp duties), or changes in the way taxation laws are interpreted may impact OZ Minerals' tax liabilities or the tax treatment of an OZ Minerals shareholder's investment. In particular, both the level and basis of taxation may change. In addition, an investment in OZ Minerals Shares involves tax considerations which may differ for each OZ Minerals shareholder. Each Avanco Shareholder is encouraged to seek professional tax advice in connection with the Offer and how they may be discretely impacted.

(e) **Force majeure events**

Events may occur within or outside Australia that could impact upon the Australian economy, OZ Minerals' operations and the price of OZ Minerals Shares. These events include but are not limited to acts of terrorism, an outbreak of international hostilities, fires, floods, earthquakes, labour strikes, civil wars, natural disasters, outbreaks of disease, uranium concentrate risk or other natural or man-made events or occurrences that can have an adverse effect on the demand for OZ Minerals' products and its ability to operate its assets. OZ Minerals has only a limited ability to insure against some of these risks.

11 Tax considerations

11.1 Introduction

The following is a general description of the Australian tax consequences for Avanco Shareholders who accept the Offer. The comments set out below are relevant only to those Avanco Shareholders who hold their Avanco Shares on capital account.

Avanco Shareholders who:

- hold their Avanco Shares for the purpose of speculation or a business of dealing in securities (e.g. as trading stock);
- acquired their Avanco Shares pursuant to an employee share, option or rights plan;
- are financial institutions, insurance companies, partnerships, tax exempt organisations, trusts, superannuation funds or temporary residents;
- are subject to the taxation of financial arrangement rules in Division 230 of the *Income Tax Assessment Act 1997* in relation to gains and losses on their Avanco Shares;
- are non-residents of Australia who hold their Avanco Shares in carrying on a business through a permanent establishment in Australia; or
- have changed their tax residence while holding Avanco Shares,

should seek their own advice.

Avanco Shareholders who are tax residents of a country other than Australia (whether or not they are also residents, or are temporary residents, of Australia for tax purposes) should take into account the tax consequences under the laws of their country of residence, as well as under Australian law, of acceptance of the Offer.

The following description is based upon the Australian law and administrative practice in effect at the date of this Bidder's Statement, but it is general in nature and is not intended to be an authoritative or complete statement of the laws applicable to the particular circumstances of every Avanco Shareholder. Avanco Shareholders should seek independent professional advice in relation to their own particular circumstances.

11.2 Australian resident shareholders

(a) Shareholders who accept the Offer

If the Offer becomes unconditional, acceptance of the Offer will involve the disposal by Avanco Shareholders of their Avanco Shares by way of transfer to OZ Minerals Brazil. This will constitute a capital gains tax (**CGT**) event for Australian tax purposes.

The date of disposal for CGT purposes will be the date the contract to dispose of the Avanco Shares is formed. If the Offer is accepted before the conditions in clause 13.8 are fulfilled, the date of disposal will be the date that those conditions are fulfilled. If the Offer is accepted after the conditions in clause 13.8 are fulfilled, the date of disposal will be the date that the Offer is accepted.

(b) Compulsory acquisition

If an Avanco Shareholder does not dispose of their Avanco Shares under the Offer and their Avanco Shares are compulsorily acquired in accordance with Part 6A.1 of the Corporations Act, those Avanco Shareholders will also be treated as having disposed of their Avanco Shares for CGT purposes.

In that case, the date of disposal for CGT purposes will be the date when OZ Minerals Brazil becomes the owner of the Avanco Shares.

(c) **CGT**(1) **Calculation of capital gain or capital loss (apart from scrip for scrip rollover relief)**

Avanco Shareholders who are Australian residents may make a capital gain or capital loss on the disposal of Avanco Shares. Avanco Shareholders will make a capital gain to the extent that their capital proceeds from the disposal of the Avanco Shares are more than their cost base. Conversely, Avanco Shareholders will make a capital loss to the extent that the capital proceeds are less than their reduced cost base of those Avanco Shares.

The cost base of the Avanco Shares generally includes the cost of acquisition and any incidental costs of acquisition and disposal that are not deductible to the shareholder.

The capital proceeds will be the total of the cash consideration of \$0.085 per Avanco Share (**Cash Consideration**) and the market value of the 0.009 OZ Minerals Shares received per Avanco Share (**Share Consideration**), calculated at the date of CGT disposal.

Individuals, complying superannuation entities or trustees that have held Avanco Shares for at least 12 months should be entitled to discount the amount of the capital gain (after application of capital losses) from the disposal of Avanco Shares. The discount is 50% in the case of individuals and trusts or 33% for complying superannuation entities. For trusts the ultimate access to the discount may depend on a beneficiary's entitlement to the discount. Shareholders should seek specific advice on the availability of the CGT discount in their own circumstances.

Capital gains and capital losses of a taxpayer in a year of income are aggregated to determine whether there is a net capital gain. Any net capital gain (after discount) is included in assessable income and is subject to income tax at the taxpayer's marginal tax rate. Capital losses may not be deducted against other income for income tax purposes, but may be carried forward to offset against future capital gains.

(2) **Scrip for scrip roll-over relief**

Partial scrip for scrip roll-over relief will be available if members of the OZ Minerals tax consolidated group (including OZ Minerals Brazil) attain at least an 80% shareholding in Avanco through the Offer, including any Avanco Shares already held. In this case, Australian resident Avanco Shareholders who have a capital gain on their Avanco Shares can choose to apply rollover to the portion of their gain representing the Share Consideration.

In order to choose scrip for scrip roll-over relief, Avanco Shareholders must make an election prior to lodging their income tax return for the income year in which the CGT event occurs. OZ Minerals Brazil will not make a choice under section 124-795(4) of the *Income Tax Assessment Act 1997* to deny scrip for scrip roll-over relief.

Where an Avanco Shareholder chooses scrip for scrip roll-over relief the Avanco Shareholder will make a capital gain to the extent that the Cash Consideration the Avanco Shareholder receives exceeds a proportionate part of the cost base for the shareholder's Avanco Shares. The capital gain will be calculated as follows:

Capital gain (loss) on exchanging Avanco Shares	=	Cash Consideration	-	$\left(\frac{\text{Cash Consideration}}{\text{Cash Consideration} + \text{market value of OZ Minerals Shares at the date of CGT disposal}} \times \text{Cost base of Avanco Shares} \right)$
---	---	-----------------------	---	---

Roll-over is not available if a capital loss arises on the exchange of the Avanco Shares.

(d) **Implications of holding OZ Minerals Shares**

As a consequence of accepting the Offer, an Avanco Shareholder will cease to be a shareholder of Avanco and will become a shareholder of OZ Minerals.

Dividends received by an Australian resident shareholder of OZ Minerals would generally be included in the assessable income of such a shareholder.

(e) **CGT on subsequent disposal of OZ Minerals Shares**

A subsequent disposal of OZ Minerals Shares will generally result in Australian CGT implications as described above. These will differ depending upon whether or not, and the extent to which, scrip for scrip rollover relief was claimed in relation to the disposal of Avanco Shares pursuant to the Offer.

Where the shareholder is a resident taxpayer, and to the extent future OZ Minerals dividends are franked, any franking credits attached to OZ Minerals dividends are also included in assessable income, and then claimed as a credit against tax payable. Shareholders are generally required to have held their shares "at risk" for 45 days in order to be eligible for franking benefits. Taxpayers should obtain their own advice on the application of these rules to their circumstances.

(1) **Where scrip for scrip rollover relief was not claimed or available**

Where scrip for scrip rollover relief was not claimed or was not available in relation to the disposal of the Avanco Shares, the cost base of the OZ Minerals Shares (spread equally over those OZ Minerals Shares) would include the market value of the Avanco Shares disposed of under the Offer at the time the Offer is accepted less the Cash Consideration.

The acquisition date of the OZ Minerals Shares will be when the contract for disposal of the Avanco Shares was formed (as set out in section 11.2(a) above) or the date the OZ Minerals Shares are issued if the Avanco Shares were compulsorily acquired. CGT discount may be available for certain shareholders if the OZ Minerals Shares are held for more than 12 months.

(2) **Where scrip for scrip rollover available**

Where an Avanco Shareholder chooses scrip for scrip rollover relief the cost base for the OZ Minerals Shares will be calculated as follows:

Cost base of OZ Minerals Shares	=	Cost base of Avanco Shares	x	$\frac{\text{Market value of OZ Minerals Shares}}{\text{Cash Consideration} + \text{market value of OZ Minerals Shares}}$
--	---	-------------------------------	---	---

Other amounts may be included in the cost base of the OZ Minerals Shares, such as any incidental costs to sell the OZ Minerals Shares.

A shareholder will be taken to have acquired the OZ Minerals Shares at the time the Avanco Shares were originally acquired for CGT purposes.

11.3 Non-resident shareholders

For an Avanco Shareholder who:

- (a) is not a resident of Australia for Australian tax purposes;
- (b) holds their Avanco Shares on capital account; and
- (c) does not hold their Avanco Shares in carrying on a business through a permanent establishment in Australia,

the disposal of Avanco Shares will generally only result in Australian CGT implications if:

- (d) that shareholder together with its associates held 10% or more of the Avanco Shares at the time of disposal or for any continuous 12 month period within two years preceding the disposal; and
- (e) more than 50% of Avanco's value is due to direct or indirect interests in Australian real property, which is defined to include Australian mining and exploration leases and licences,

(collectively referred to here as the **TARP Test**).

OZ Minerals Brazil is entitled to withhold 12.5% of the consideration payable to Avanco Shareholders if several conditions are satisfied, including the TARP Test. OZ Minerals Brazil is currently of the view that the TARP Test should not be satisfied and therefore does not expect to withhold any amount in respect of tax from the consideration. This should apply to both the Cash Consideration and the proceeds distributed to non-resident Avanco Shareholders in accordance with the process referred to in section 13.6.

A non-resident Avanco Shareholder who has previously been a resident of Australia and chose to disregard a capital gain or loss on ceasing to be a resident will be subject to Australian CGT consequences on disposal of the shares as set out in section 11.2. However, scrip for scrip roll-over relief may not be available and such shareholders should seek independent advice in relation to their individual circumstances.

11.4 Goods and services tax

Holders of Avanco Shares should not be liable to pay any GST in respect of a disposal of those Avanco Shares or acquisition of OZ Minerals Shares.

The disposal and acquisition of shares are 'financial supplies' for GST purposes. If Avanco Shareholders incur any costs which include GST (such as advisor fees) relating to their participation in the Offer, they may only be entitled to input tax credits for such costs in certain circumstances and should seek specific advice.

11.5 Stamp duty

The transfer of shares in Avanco or the issue of replacement OZ Minerals Shares is not expected to give rise to any stamp duty liabilities for existing Avanco Shareholders.

12 Additional information

12.1 Bid Implementation Deed

On 27 March 2018, Avanco and OZ Minerals entered into the Bid Implementation Deed which sets out the rights and obligations of Avanco and OZ Minerals in connection with the implementation of the Takeover Bid. A copy of the Bid Implementation Deed was provided to the ASX on 27 March 2018 and is publicly available on the ASX company announcements platform.

A summary of the Bid Implementation Deed follows:

(a) **Conditions**

The Offer is subject to a number of conditions which must be satisfied or waived before an unconditional contract can arise from acceptance of the Offer. These conditions are set out in Schedule 1 of the Bid Implementation Deed and in section 13.8.

Each of Avanco and OZ Minerals:

- (1) must use its reasonable endeavours to satisfy the conditions as soon as practicable after the date of the Bid Implementation Deed; and
- (2) agrees not to do, or omit to do, anything which will, or is likely to, result in any of the bid conditions being breached.

This requirement is subject to a “fiduciary out”, so that Avanco and the Avanco Board are not prevented from taking, or failing to take action where:

- (3) to do otherwise would, in the opinion of the Avanco Board (determined in good faith and acting reasonably after receiving written legal advice from external lawyers), constitute a breach of the Avanco Directors’ fiduciary or statutory duties; or
- (4) required to reasonably and prudently respond to an emergency or disaster (including a situation giving rise to a risk of personal injury or damage to property).

As at the date of this Bidder’s Statement, neither OZ Minerals Brazil nor the OZ Minerals directors are aware of any circumstances which would cause outstanding conditions not to be satisfied or (where applicable) waived.

(b) **Conduct of business and access to information**

Clauses 4.1 and 5.1 of the Bid Implementation Deed set out the obligations of Avanco applying from the date of the Bid Implementation Deed up to and including the end of the Offer Period with respect to conduct of its business and OZ Minerals’ access to information. Without limiting any other obligations of Avanco under the Bid Implementation Deed, Avanco must:

- (1) conduct its businesses and operations, and must cause each Avanco Group Member to conduct its respective business and operations, in the ordinary and usual course generally consistent with the manner in which each such business and operations have been conducted in the 12 month period prior to the date of the Bid Implementation Deed;
- (2) keep OZ Minerals informed of any material developments concerning the conduct of business;
- (3) not enter into any line of business or other activities in which the Avanco Group is not engaged as of the date of the Bid Implementation Deed;

- (4) provide regular reports on the financial affairs of the Avanco Group, including the provision of the Avanco Group's monthly management accounts, in a timely manner to OZ Minerals;
- (5) ensure that:
 - (A) there is no breach of the no prescribed occurrences bid condition; and
 - (B) there is no occurrence within its control or the control of any other member of the Avanco Group that would constitute or would be likely to constitute a breach of the no material adverse change bid condition;
- (6) make all reasonable efforts, and procure that each other Avanco Group Member makes all reasonable efforts, to:
 - (A) preserve and maintain the value of the businesses and assets of the Avanco Group;
 - (B) keep available the services of the directors, officers and employees of each member of the Avanco Group;
 - (C) maintain and preserve each member of the Avanco Group's relationships with Government Agencies, customers, suppliers, joint venturers, licensors, licensees and others having business dealings with any member of the Avanco Group;
- (7) until the end of the Offer Period, promptly notify OZ Minerals orally and in writing of anything of which it becomes aware that:
 - (A) makes any material information publicly filed by Avanco (either on its own account or in respect of any other Avanco Group Member) to be, or reasonably likely to be, incomplete, incorrect, untrue or misleading in any material respect;
 - (B) makes any of the Avanco representations and warranties given in the Bid Implementation Deed false, inaccurate, misleading or deceptive in any material respect;
 - (C) makes any information provided in the Disclosure Materials incomplete, incorrect, untrue or misleading in any material respect; or
 - (D) would constitute or be likely to constitute a breach of the no prescribed occurrences bid condition, breach of the no adverse change bid condition or breach of any of the above; and
- (8) until the end of the Offer Period, make available to OZ Minerals and its Related Persons:
 - (A) all information as reasonably requested by OZ Minerals;
 - (B) such senior executives of Avanco as reasonably requested by OZ Minerals at mutually convenient times; and
 - (C) reasonable co-operation,
 for the purpose of:
 - (D) OZ Minerals understanding the operations of the Avanco Group's business, financial position, prospects and affairs in order to facilitate the integration of the Avanco and OZ Minerals' businesses; or

- (E) keeping OZ Minerals informed of material developments relating to the Avanco Group; or
- (F) any other purpose agreed between Avanco and OZ Minerals.

(c) **Exclusivity**

Clause 11 of the Bid Implementation Deed sets out the exclusivity obligations of Avanco in connection with the implementation of the Takeover Bid. A summary of the key exclusivity obligations of Avanco during the Exclusivity Period is set out below:

- (1) **(no talk and no shop):** Avanco must not, and must ensure that each of its Related Persons does not, directly or indirectly:
 - (A) **(no shop):** solicit, invite, encourage or initiate (including by the provision of any non-public information to any Third Party) any inquiry, expression of interest, offer, proposal or discussion by any person in relation to, or which would reasonably be expected to encourage or lead to the making of, an actual, proposed or potential Competing Proposal or communicate to any person an intention to do any of the above; or
 - (B) **(no talk and no due diligence):**
 - participate in or continue any negotiations or discussions with respect to any inquiry, expression of interest, offer, proposal or discussion by any person to make, or which would reasonably be expected to encourage or lead to the making of, an actual, proposed or potential Competing Proposal;
 - negotiate, accept or enter into, or offer or agree to negotiate, accept or enter into any agreement, arrangement or understanding regarding an actual, proposed or potential Competing Proposal;
 - disclose or otherwise provide any non-public information about the business or affairs of the Avanco Group to a Third Party (other than a Government Agency) with a view to obtaining, or which would reasonably be expected to encourage or lead to receipt of, an actual, proposed or potential Competing Proposal; or
 - communicate to any person an intention to do anything referred to above.

The no talk and no due diligence obligation is subject to a “fiduciary out” where the Board acting in good faith determines, having regard to written advice from its external legal and Financial Advisers, an actual, proposed or potential Competing Proposal is a Superior Proposal (or which may reasonably be expected to result in the Competing Proposal becoming a Superior Proposal) and the failure to take or not take such action would constitute, or would be likely to constitute, a breach of the fiduciary or statutory duties of the directors of Avanco, provided that the actual, proposed or potential Competing Proposal was not directly or indirectly brought about by, or facilitated by, a breach of the no shop obligations and Avanco provides OZ Minerals with all material supporting the Board’s determination that the fiduciary out applies.

- (2) **(Notification of approaches)** Avanco must as soon as possible notify (and in any event within 24 hours) OZ Minerals in writing if it, or any of its Related Persons, becomes aware of any:

- (A) negotiations or discussions or attempt to initiate any discussions in relation to an actual or potential Competing Proposal or intention to make such an approach or initiate any negotiations or discussions;
- (B) proposal made to Avanco or any of its Related Persons, in connection with, or in respect of any exploration or completion of, an actual, proposed or potential Competing Proposal; or
- (C) provision by Avanco or any of its Related Persons of any non-public information concerning the business or operations of Avanco or a member of the Avanco Group to any Third Party (other than a Government Agency) in connection with an actual, proposed or potential Competing Proposal.

A notification must include the identity of the relevant person making or proposing the relevant, actual, proposed or potential Competing Proposal, together with all terms and conditions of the actual, proposed or potential Competing Proposal.

Commencing upon the provision of any notice referred to above, Avanco must as soon as possible advise OZ Minerals of any material developments in relation to an actual, proposed or potential Competing Proposal, including material amendments or proposed amendments to the terms of such actual, proposed or potential Competing Proposal, and advise OZ Minerals of the timing of any meeting of the Avanco Board to consider that proposal.

- (3) **(Matching right)** Avanco must not enter into any legally binding agreement, arrangement or understanding pursuant to which a Third Party, Avanco or both proposes or propose to undertake or give effect to an actual, proposed or potential Competing Proposal and must procure that none of the Avanco Directors change their recommendation of the Takeover Bid or publicly recommend an actual, proposed or potential Competing Proposal or recommend against the Takeover Bid unless:

- (A) the Avanco Board acting in good faith and in order to satisfy what the members of the Avanco Board consider to be their statutory or fiduciary duties (having received written advice from its external financial and legal advisers) determines that the Competing Proposal would be or would be likely to be an actual, proposed or potential Superior Proposal;
- (B) Avanco has complied with its obligation to notify OZ Minerals of the approach as summarised above;
- (C) Avanco has given OZ Minerals at least five Business Days after the notification of the approach to provide a matching or superior proposal to the terms of the actual, proposed or potential Competing Proposal; and
- (D) OZ Minerals has not announced or otherwise formally proposed to Avanco a matching or superior proposal to the terms of the actual, proposed or potential Competing Proposal by the expiry of the five Business Day period.

If OZ Minerals proposes to Avanco, or announces, a counterproposal by the expiry of the five Business Days and the Avanco Board, acting

reasonably and in good faith, determines such counterproposal would provide an equivalent or superior outcome for Avanco Shareholders as a whole compared with the Competing Proposal (taking into account the terms and conditions), Avanco and OZ Minerals must use their best endeavours to implement OZ Minerals' counterproposal as soon as reasonably practicable, and Avanco must procure that each of the Avanco Directors continues to recommend the Takeover Bid (as modified by the counterproposal).

(d) **Reimbursement fee arrangements**

Clause 12 of the Bid Implementation Deed sets out the circumstances in which Avanco has agreed to pay a reimbursement fee of \$4.4 million to OZ Minerals. The reimbursement fee will be payable if any one of the following events occurs:

- (1) during the Exclusivity Period, one or more members of the Avanco Board withdraws, adversely revises or adversely qualifies his or her support of the Takeover Bid or his or her recommendation that Avanco Shareholders accept the Offer or fails to recommend that Avanco Shareholders accept the Takeover Bid or, having made such a recommendation, withdraws, adversely revises or adversely qualifies that recommendation for any reason;
- (2) during the Exclusivity Period, one or more members of the Avanco Board recommends that Avanco Shareholders accept or vote in favour of, or otherwise supports or endorses (including support by way of accepting or voting, or by way of stating an intention to accept or vote, in respect of any Avanco Shares held or controlled by them or held on their behalf), a Competing Proposal of any kind that is announced (whether or not such proposal is stated to be subject to any pre-conditions) during the Exclusivity Period;
- (3) a Competing Proposal of any kind is announced during the Exclusivity Period (whether or not such proposal is stated to be subject to any pre-conditions) and, within 12 months of the date of such announcement, a Third Party completes a Competing Proposal of the kind referred to in paragraphs 1 (but only where the acquisition is through an issue of new Avanco Shares equal to more than 20% of Avanco's share capital), 2, 3, and 4 of the definition of Competing Proposal; or
- (4) OZ Minerals terminates the Bid Implementation Deed for material breach by Avanco or for material breach of an Avanco representation and warranty in the Bid Implementation Deed.

Except in relation to a wilful or intentional breach of or non-compliance with any provision of the Bid Implementation Deed by Avanco, Avanco's total liability under the Bid Implementation Deed is capped at the amount of the reimbursement fee and the reimbursement fee will not be payable to OZ Minerals (and Avanco will be entitled to a refund to the extent that it has already paid) if OZ Minerals becomes the holder of more than 50% of the Avanco Shares as a result of the Takeover Bid, notwithstanding the occurrence of any of the trigger events set out above.

(e) **Representations and warranties**

OZ Minerals, in Schedule 2 to the Bid Implementation Deed, and Avanco, in Schedule 3 to the Bid Implementation Deed, have each given representations and warranties to the other, customary for a transaction of this nature.

(f) **Termination rights**

Clause 13 of the Bid Implementation Deed sets out the termination rights of each party. These are summarised below.

(1) Termination by either party

Either party may terminate the Bid Implementation Deed if at any time before the end of the Offer Period:

- (A) the other party has materially breached and failed to remedy the breach within five Business Days after the date on which the party entitled to terminate gave written notice of the breach to the party in breach, other than in respect of a breach of a representation and warranty of either party;
- (B) a court or Government Agency has taken any action permanently restraining or prohibiting the Takeover Bid, and the action is final and cannot be appealed or reviewed; or
- (C) the other party is in material breach of a representation and warranty and the relevant breach continues to exist five Business Days (or any shorter period ending at the end of the Offer Period) after the date on which written notice is given of the breach.

(2) Termination by OZ Minerals

OZ Minerals may terminate the Bid Implementation Deed at any time before the end of the Offer Period if any Avanco Director

- (A) withdraws, adversely revises or adversely modifies his or her recommendation that Avanco Shareholders accept the Takeover Bid; or
- (B) makes a public statement indicating that he or she no longer recommends the Takeover Bid or recommends, supports or endorses another transaction (including any Competing Proposal but excluding a statement that no action should be taken by Avanco Shareholders pending the assessment of a Competing Proposal by the Avanco Board).

(3) Termination by Avanco

Avanco may terminate the Bid Implementation Deed at any time before the end of the Offer Period if the Avanco Board or a majority of the Avanco Board has changed, withdrawn or modified its recommendation as permitted under clause 2.3 of the Bid Implementation Deed.

12.2 Status of defeating conditions

The Offer is subject to a number of conditions set out in section 13.8. OZ Minerals Brazil will provide updates on any material developments relating to the status of these conditions through announcements to the ASX.

OZ Minerals Brazil is not aware of any events or circumstances which would result in the non-fulfilment of any of the defeating conditions.

12.3 Date for determining holders of Avanco Shares

For the purposes of section 633 of the Corporations Act, the date for determining the people to whom information is to be sent under items 6 and 12 of section 633(1) is the Register Date.

12.4 Consents

This Bidder's Statement contains statements made by, or statements said to be based on statements made by, OZ Minerals. OZ Minerals has consented to the inclusion of:

- each statement it has made; and

12.7 Ineligible Foreign Shareholders and Small Parcel Shareholders

Avanco Shareholders who are Ineligible Foreign Shareholders or Small Parcel Shareholders will not be entitled to receive OZ Minerals Shares as consideration for their Avanco Shares pursuant to the Offer, unless OZ Minerals Brazil otherwise determines.

An Avanco Shareholder is an Ineligible Foreign Shareholder for the purposes of the Offer if their address as shown in the register of members of Avanco is in a jurisdiction other than Australia or its external territories or New Zealand. However, such a person will not be an Ineligible Foreign Shareholder if OZ Minerals Brazil is satisfied that it is not legally or practically constrained from making the Offer to a Avanco Shareholder in the relevant jurisdiction and to issue OZ Minerals Shares to such a shareholder on acceptance of the Offer, and that it is lawful for the shareholder to accept the Offer in such circumstances in the relevant jurisdiction. Notwithstanding anything else in this Bidder's Statement, OZ Minerals Brazil is not under any obligation to spend any money, or undertake any action, in order to satisfy itself concerning any of these matters.

An Avanco Shareholder is a Small Parcel Shareholder if the total number of shares held by it is less than a Small Parcel.

The OZ Minerals Shares which would otherwise have been issued to Ineligible Foreign Shareholders and Small Parcel Shareholders will instead be issued to a nominee approved by ASIC, who will sell these shares. The net proceeds of the sale of such shares will then be remitted to the relevant Ineligible Foreign Shareholders and Small Parcel Shareholders. See section 13.7 for further details.

then you will not be entitled to receive any consideration for Your Shares until all requisite authorities, clearances or approvals have been received by OZ Minerals Brazil.

13.7 Ineligible Foreign Shareholders and Small Parcel Shareholders

- (a) If you are an Ineligible Foreign Shareholder or a Small Parcel Shareholder, you will not be entitled to receive OZ Minerals Shares as the consideration for Your Shares as a result of accepting this Offer, and OZ Minerals Brazil will:

- (1) arrange for the issue to a nominee approved by ASIC (the **Nominee**) of the number of OZ Minerals Shares to which you and all other Ineligible Foreign Shareholders and Small Parcel Shareholders would have been entitled but for section 13.1(c) and the equivalent provision in each other offer under the Offer;
- (2) cause the OZ Minerals Shares so issued to be offered for sale by the Nominee on the ASX as soon as reasonably practicable and otherwise in the manner, at the price and on such other terms and conditions as are determined by the Nominee (at the risk of the Ineligible Foreign Shareholders and Small Parcel Shareholders); and
- (3) pay to you the amount ascertained in accordance with the formula:

$$\frac{N \times YS}{TS}$$

where:

'N' is the amount which is received by the Nominee upon the sale of all OZ Minerals Shares under this section 13.7 less any fees, taxes and sale expenses;

'YS' is the number of OZ Minerals Shares which would, but for section 13.1(c), otherwise have been issued to you; and

'TS' is the total number of OZ Minerals Shares allotted to the Nominee under this section 13.7.

- (b) You will receive your share of the net proceeds of the sale of OZ Minerals Shares calculated in accordance with section 13.7(a) in Australian currency.
- (c) Payment will be made by cheque posted to you at your risk by ordinary mail (or in the case of overseas shareholders, by airmail) at the address provided on your Acceptance Form within the period required by the Corporations Act.

- (d) Under no circumstances will interest be paid on your share of the net proceeds of the sale of OZ Minerals Shares by the Nominee, regardless of any delay in remitting these proceeds to you.
- (e) The Nominee may sell the OZ Minerals Shares in such manner, at such price or prices and on such terms as the Nominee determines, and at the risk of the Ineligible Foreign Shareholders and Small Parcel Shareholders. The Nominee will sell the OZ Minerals Shares on ASX following the issue of those shares to it.
- (f) As the market price of OZ Minerals Shares will be subject to change from time to time, the sale price of the OZ Minerals Shares sold by the Nominee and the proceeds of those sales cannot be guaranteed. Neither OZ Minerals Brazil nor the Nominee gives any assurance as to the price that will be achieved for the sale of the OZ Minerals Shares by the Nominee
- (g) The Nominee will be appointed by, and will provide the Nominee services to, OZ Minerals. In acting as Nominee, the Nominee will not be acting as agent or sub-agent of any Ineligible Foreign Shareholder or Small Parcel Shareholder, does not have duties or obligations (fiduciary or otherwise) to any Ineligible Foreign Shareholder or Small Parcel Shareholder and does not underwrite the sale of the OZ Minerals Shares.
- (h) If OZ Minerals determines, acting reasonably and in good faith, that it must pay an amount to the Commissioner of Taxation pursuant to Subdivision 14-D of Schedule 1 of the *Taxation Administration Act 1953* (Cth) (**TAA**) with respect to the acquisition of the Avanco Shares from an Avanco Shareholder, OZ Minerals Brazil will, for any such Avanco Shareholder:

 - (2) procure that OZ Minerals Brazil remits the Payment Amount to the Commissioner within the time required under the TAA; and
 - (3) reduce the amount of consideration payable by OZ Minerals Brazil to that Avanco Shareholder by the Payment Amount for the purposes of this Offer.

For the avoidance of doubt, where the conditions in this section 13.7(h) are satisfied, OZ Minerals Brazil will, for the purposes of this Offer, be deemed to have satisfied its obligations to pay the consideration to an Avanco Shareholder if the amount paid to the Avanco Shareholder is the amount of the consideration that would have otherwise been payable to the Avanco Shareholder pursuant to the offer, less the Payment Amount for that Avanco Shareholder.

- (c) Pursuant to the Corporations Act, this Offer and any contract that results from your acceptance of it are subject to a condition that permission for admission to official quotation by the ASX of the OZ Minerals Shares to be issued pursuant to the Offer is granted no later than seven days following the end of the Offer Period. If this condition is not fulfilled, all contracts resulting from the acceptance of the Offers will be automatically void.

- (c) If, at the time this Offer is withdrawn, the Offer remains subject to one or more of the conditions in section 13.8, all contracts arising from its acceptance will become void (whether or not the events referred to in the relevant conditions have occurred).
- (d) A withdrawal pursuant to section 13.13 will be deemed to take effect:
 - (1) if the withdrawal is not subject to conditions imposed by ASIC, on the date after the date on which that consent in writing is given by ASIC; or
