

MONTHLY NTA AND PORTFOLIO REPORT – 30 July 2021

Before tax ¹ After tax¹

NTA per share \$5.53 \$4.71

(Before provision for final dividend declared of 8.0cps)

¹As Milton is a long-term investor and does not intend disposing of its equity investment portfolio the NTA before tax excludes a provision for tax on unrealised capital gains that may arise should the equity investment portfolio be disposed.

MILTON is predominantly a long term investor in companies and trusts that are listed on the Australian Securities Exchange (ASX).

The composition of the equity portfolio is not aligned with any stock exchange index. It reflects the emphasis Milton has always placed on investing in well managed companies that have a profitable history and are expected to grow dividends over time.

Milton has a long track record of paying fully franked dividends, which are predominantly funded by the dividends received from its equity investment portfolio.

Milton's efficient internal management structure aligns interests with shareholders and results in an MER of 14 basis points.

Key facts at 30 July 2021

ASX listing code: MLT
Listed since 1958
Share price: \$6.12

Market cap \$4.13 billion Total assets \$3.73 billion

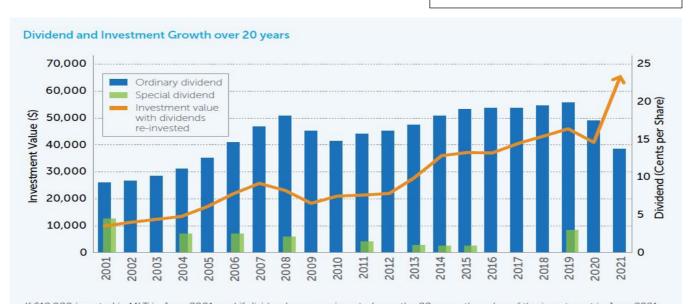

MER (at 30 June 2021) 0.14%

TOTAL RETURNS TO 30 JULY 2021

Commonly used indicators of LIC performance are Total Portfolio Return (TPR) and Total Shareholder Return (TSR). TPR combines the change in value of the NTA per share with the dividends paid in the period. TSR combines the change in share price with the dividends paid in the period and captures the impact of any premium or discount to NTA. The below TPR & TSR calculations do not take into account franking credits which may be of benefit to certain shareholders.
