Company commentary

- Positive contributors to performance during December included copper miners Teck Resources and Grupo Mexico, as well as Bank of America and Siemens AG.
- Detractors to monthly performance Bank of Ireland and Caixa Bank, as well as Chinese oil producer CNOOC.
- Following strong performance the Fund reduced a handful of positions – Apollo Global Management, Siemens AG, JP Morgan, Wells Fargo, and Bank of America. We also wrote options on each of Apollo and Charles Schwab which would see us reduce the positions should the stocks continue to rise.
- Mid-month the Fund initiated a short position in Commonwealth Bank as a written call option expired in the money. We increased our position in gold miner Newmont, oil & gas producer Woodside Energy, and media company Walt Disney.
- Our Australian dollar position was also a positive contributor as the US dollar weakened.
- The gross equity position at month's end closed at 113%, with a net equity position of 101%.
