

## ASX & Media Release

### Outage at Loy Yang A Power Station on 13 February 2024

#### 14 February 2024

AGL Energy Limited (AGL) advises that due to transmission lines being damaged by significant storm activity, all four units at the Loy Yang A power station in Victoria were tripped and offline yesterday for a period. Two units have returned to service. It is currently expected that the remaining units will be progressively and safely returned to service over the next 24 hours.

If there is any change to AGL's earnings guidance for the financial year ending 30 June 2024, which was updated as part of AGL's 1H24 results announcement on 8 February 2024, an update will be provided in accordance with AGL's continuous disclosure obligations.

Authorised for release by AGL's Market Disclosure Committee.

#### About AGL Energy

At AGL, we believe energy makes life better and are passionate about powering the way Australians live, work and move. Proudly Australian for more than 185 years, AGL supplies around 4.3 million<sup>[1]</sup> energy and telecommunications customer services. We're committed to becoming a leading multi-product retailer, making energy and other essential services simple, fair and transparent. AGL operates Australia's largest private electricity generation portfolio within the National Electricity Market, comprising coal and gas-fired generation, renewable energy sources such as wind, hydro and solar, batteries and other firming technology, and gas production and storage assets. We are building on our history as one of Australia's leading private investors in renewable energy to now lead the business of transition to a low emissions, affordable and smart energy future in line with the goals of our Climate Transition Action Plan. We'll continue to innovate in energy and other essential services to enhance the way Australians live, and to help preserve the world around us for future generations.
