OPERATING AND FINANCIAL REVIEW

1. Financial and operating performance

References to '2016' and '2017' relate to the six months ended 31 December 2016 and 31 December 2017, respectively, unless otherwise stated. The 'Group' or the 'Company' refers to the consolidated entity, consisting of Aconex and its subsidiaries.

1.1 Group summary financial results from core operations

A summary of financial results from core operations for the six months ended 31 December 2017 is set out below. As a growth business, the Group views revenue, EBITDA and cash as its primary measures of financial performance.

This report refers to non-IFRS financial information. Refer to section 1.2 for a reconciliation of non-IFRS financial measures to the results reported in the reviewed financial statements.

Revenue

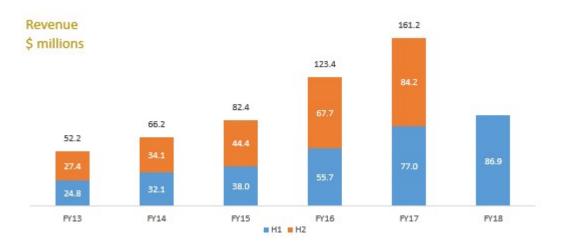

Total revenue for the six months ended 31December 2017, rose 13% to \$86.9m from \$77.0m in 2016. Revenue was \$87.8m in 2017 on a constant currency basis¹, an increase of 14% when compared to the prior corresponding period, reflecting a currency impact of \$0.9m.

The increase in revenue was primarily a result of strong international growth, particularly in the high-growth markets of Asia and the Americas, as well as the ongoing transition of project customers to enterprise agreements.

International revenue increased 14% to \$59.1m (16% on a constant currency basis) and now accounts for 68% of the Group's revenue base. Growth was particularly strong in the US, up 26% on the prior corresponding period (31% on a constant currency basis).

Revenue from enterprise agreements grew 3% from 44% in 2016 to 47% in 2017. Enterprise agreements now account for 69% of ANZ revenue, a 4% uplift on the six months to 31 December 2016.

¹Constant currency growth based on weighted average exchange rates for the six months ended 31 December 2016.

Graph 1: Aconex Group revenue

EBITDA from core operations

The Group delivered EBITDA from core operations of \$9.1m for the six months ended 31 December 2017, a \$1.7m uplift on the prior corresponding period. EBITDA margins increased 0.9% to 10.5% in 2017. The pickup in profitability was primarily driven by solid revenue growth and improved client service delivery.

Gross margins

Excluding depreciation and amortisation expenses, the Group's cost of revenues increased 3% from \$20.6m in 2016 to \$21.3m in the six months to 31 December 2017. Gross margins lifted 3% from 73% in 2016 to 76% in 2017 as a result of improved operating leverage in offshore markets and sales growth.

Direct expenses (sales and marketing)

The Group continued to invest in sales and marketing, particularly in the high growth markets of Asia and the Americas. Investment increased to \$33.9m in the six months to 31 December 2017, an 18% uplift on the prior corresponding period.

Operating expenses

Operating expenses were \$22.6m for the six months ended 31 December 2017, up \$2.2m from \$20.4m in the prior corresponding period.

To drive yield and extend its competitive advantage, the Group continued to reinvest its profits and free cash into engineering and product development. Cash investment in R&D (including capitalised development costs) increased to \$18.7m, up 13% from \$16.5m in 2016. As a percentage of revenue, R&D cash spend was 21.5%, consistent with the prior corresponding period. Capitalised costs fell 3% from 44% in 2016 to 41% in the six months to 31 December 2017,

Performance by region

Table 1 provides a summary of the Group's revenue and operating contributions by region. In the six months to 31 December 2017, Aconex continued to invest profits earned in the more mature regions of ANZ and the Middle East, into those with high-growth potential, particularly the Americas and Asia. During the period all regions delivered positive operating contributions.

Region	Revenue \$ millions	Revenue growth YoY (%)	Revenue growth YoY (%) (Constant currency)	Contribution \$ millions	Contribution margin %

Total	86.9	12.8%	13.9%	39.2	45%

Table 1: Regional performance summary for six months ended 31 December 2017

ANZ

Revenue increased 10% due to new business as well as the ongoing transition of project customers to enterprise agreements. In ANZ, enterprise agreements now represent 69% of the region's revenue base. Operating contributions increased slightly in the six months to 31 December 2017, up 1% to 72%.

Americas

In the six months to 31 December 2017, strong performance in the US drove a 26% uplift in revenue or 31% on a constant currency basis. Operating leverage improved, and led to a 6% uplift in the region's contribution margin which increased from 12% in 2016 to 18% in 2017.

Asia

In Asia, revenue increased 19% (22% on a constant currency basis) up from \$7.3m in 2016 to \$8.7m in 2017. Solid growth in China led by key customer wins in the government and infrastructure sectors contributed to the uplift.

Europe & Africa (EA)

Revenue in Europe increased 15% (12% on a constant currency basis) from \$20.6m in 2016 to \$23.7m in 2017. Performance was strong in the UK primarily due to key account wins in the infrastructure sector. Contribution margins reduced slightly as a result of increased investment in sales and marketing in the region.

Middle East (ME)

Revenue in the Middle East was \$12.0m in the six months to 31 December 2017, marginally lower than the \$12.2m achieved in the prior corresponding period. Performance in the UAE was strong, offset by lower than expected revenue in Saudi Arabia and Qatar, due to a delay in the timing of contracts and ongoing volatility in the oil sector which impacted investment in the region.

Cash and financial position

Cash

The cash balance was \$26.9m as at 31 December 2017, including restricted cash of \$2.6m, down \$7.0m from 30 June 2017. Net cash flows from core operations were \$0.1m in the six months to 31 December 2017 compared to \$5.4m in the prior corresponding period. The reduction in net operating cash flows was largely due to working capital movements of \$10.5m. Trade receivables increased \$6.8m due to the timing of customer invoicing and payments, and current trade payables fell \$3.7m due to the payment of annual bonuses. Adjusting for seasonality of annual bonus payments and increased trade receivables, the Group was cash flow positive.

Gross cash receipts increased 5% from \$83.8m in 2016 to \$87.7m in 2017. Cash receipts in 2017 grew less than revenue as a result of the timing of invoicing and customer receipts which increased the Group's trade receivables balance.

Deferred revenue

In the six months to 31 December 2017, deferred revenue balance increased to \$85.2m, up \$2.2m from \$83.0m as at 30 June 2017. The uplift reflects increased sales growth, offset by the ongoing unwind of the Group's 100% upfront contracts which were used to fund growth in prior years.

1.2 Non-IFRS financial information

Aconex results are reported under Australian Accounting Standards (AAS). Compliance with AAS also results in compliance with International Financial Reporting Standards (IFRS). This report also includes certain non-IFRS financial information, including the following:

- Constant currency revenue growth.
- EBITDA from core operations (earnings before interest, tax, depreciation and amortisation and significant items).
- EBIT from core operations (earnings before interest, tax and significant items).
- Net profit after tax from core operations (net profit after tax before significant items).
- Net operating cash flows from core operations (net operating cash flows adjusted for significant items)

These measures are used internally by Management to assess the performance of the business and make decisions on the allocation of resources, and are included in this report to provide greater understanding of the underlying financial performance of the Group's operations. When reviewing business performance, this non-IFRS information should be used in addition to, and not as a replacement of, measures prepared in accordance with IFRS. The non-IFRS information has not been subject to audit or review by Aconex's external auditor. The non-IFRS measures do not have any standard definition under IFRS and may be calculated differently by other companies. A reconciliation of these measures with the results reported in the financial statements is set out in table 2 below.

Significant items

Aconex reported a statutory net loss after tax of \$2.9m for the six months ended 31 December 2017 compared with a net loss after tax of \$3.5m for the six months ended 31 December 2016. The statutory results were impacted by a number of significant items, which included:

- In the six months to 31 December 2017, Aconex incurred \$0.8m of costs related to the Oracle acquisition (announced to the ASX on 18 December 2017). These costs have been accrued and expensed in the reporting period however only \$0.2m of costs were paid in the six months to 31 December 2017.
- One-off integration expenses of \$3.5m related to the Conject acquisition were incurred in the six months ended 31 December 2016. There were no further integration expenses in the six months ended 31 December 2017 in relation to this acquisition.
- Amortisation expenses of \$3.9m (2016: \$3.4m) related to acquired intangible assets were incurred in the six months to 31 December 2017. This is a non-cash expense and includes amortisation of acquired customer relationships, brands and software.
- Foreign currency losses totalling \$0.2m were incurred in 2017 from intra-group loans (2016: nil).

DIRECTORS' REPORT

Your directors submit their report for the half-year ended 31 December 2017.

Directors

The name of directors in the office during the year and up to the date of this report, unless stated otherwise, are as follows:

- Adam Lewis Chairman
- Leigh Jasper Executive director
- Rob Phillpot Executive director
- Paul Unruh
- Simon Yencken
- Keith Toh
- Rosemary Hartnett

Principal activities

The Group's principal activities during the year were the provision of cloud collaboration software services for the global construction industry.

Aconex provides a leading cloud collaboration platform for digital project delivery. This platform connects owners, contractors and their project teams in the construction, infrastructure, and energy and resources sectors, providing project-wide visibility and control between the many different organisations collaborating across their projects. With more than 80,000 user organisations in 80 countries, Aconex is the construction industry's most widely adopted and trusted collaboration platform. Founded in 2000 and headquartered in Melbourne, Aconex has 48 offices in 29 countries around the world.

The Company's ordinary shares are traded on the Australian Securities Exchange (ASX) under the ticker code (ACX) and are included in the S&P / ASX 200 Index.

Significant changes in the state of affairs

On 18 December 2017, Aconex entered into a binding Scheme Implementation Deed with Oracle (NYSE: ORCL) under which it is proposed that Oracle will acquire 100% of the shares in Aconex by way of a Scheme of Arrangement (the Scheme) for A\$7.80 in cash per share.

Significant events after reporting period

On 12 February 2018, Aconex issued the Scheme Booklet which contains information relating to the Scheme, including the rationale for the Directors' unanimous recommendation as well as details of the Scheme Meeting. The Scheme Booklet includes the Independent Expert's Report. The Independent Expert, Deloitte Corporate Finance Pty Ltd, has concluded that the Scheme is fair and reasonable and therefore, is in the best interests of Aconex shareholders, in the absence of a superior proposal.

Shareholders will be given the opportunity to vote on the Scheme at a Scheme Meeting to be held on 14 March 2018. Subject to the conditions of the Scheme being satisfied, the Scheme is expected to be implemented by April 2018.

In the Directors' opinion, there have been no other significant events since 31 December 2017.

Dividends

No dividends were paid or declared since the start of the financial year. No recommendation for the payment of dividends has been made.

Rounding

The amounts contained in this report and in the financial report have been rounded to the nearest \$1,000 (unless otherwise stated) under the option available to the Company under ASIC Corporations Instrument 2016/191. The Company is an entity to which the class order applies.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the half-year ended 31 December 2017

SECTION 1: BASIS OF PREPARATION

Note 1: Basis of preparation

The half-year consolidated financial statements for the six months ended 31 December 2017 have been prepared in accordance with AASB 134 Interim Financial Reporting.

The half-year consolidated financial statements do not include all of the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements for the year ended 30 June 2017.

The half-year financial report is presented in Australian dollars, and all values are rounded to the nearest thousand dollars (\$000) unless otherwise stated.

Financial Instruments

The Group's principal financial liabilities comprise loans, contingent consideration and trade and other payables. The group's principal financial assets include trade and other receivables, and cash and short-term deposits. These financial instruments approximate to fair value. Fair value of the contingent consideration is based on level 3 inputs.

Comparative figures

Where required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial period. The comparative figures in the sales and marketing and general administrative have been amended.

For the six months ended 31 December 2016, \$0.3m of the general administrative costs were reclassified to sales and marketing in the EA region to align with the current policy on occupancy cost recharge.

Changes in accounting policies, accounting standards and interpretations

The accounting policies adopted in the preparation of the half-year consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 30 June 2017. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Events occurring after the reporting period

On 18 December 2017, Aconex entered into a binding Scheme Implementation Deed with Oracle (NYSE: ORCL) under which it is proposed that Oracle will acquire 100% of the shares in Aconex by way of a Scheme of Arrangement (the Scheme) for A\$7.80 in cash per share. On 12 February 2018, a Scheme Booklet outlining the Scheme was sent to shareholders to vote on the proposal.

There have been no other events occurring after the reporting period which would have material effect on the Group's financial statements at 31 December 2017.

Independent Auditor's Review Report to the Members of Aconex Limited

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Aconex Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 31 December 2017, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half-year financial report of the Group is not in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the consolidated financial position of the Group as at 31 December 2017 and of its consolidated financial performance for the half-year ended on that date; and
- b) Complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001.

Directors' Responsibility for the Half-Year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, anything has come to our attention that causes us to believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the Group's consolidated financial position as at 31 December 2017 and its consolidated financial performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of the Group, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act* 2001.
