CHAIRMAN'S REPORT

Dear Shareholders,

I am delighted to address you today following a remarkable year of accomplishments for our Company.

As Chairman, I am immensely proud to share that we have achieved record-breaking results driven by strong sales and rising recurring revenues across Beam's key businesses. Our collective efforts have not only propelled us to new financial heights but have also solidified our leadership position in the global Mobile Satellite Services (MSS) industry, thereby putting us at the forefront of a rapidly growing market. The investment in our sector and priorities being demonstrated by large global players is testament to the opportunities that continue to exist in satellite communications.

One of the driving forces behind our remarkable performance has been the furtherance of an already impressive reputation for innovation. We have relentlessly invested in research and development to create products and services that not only meet, but exceed, the expectations of our customers. Our ability to anticipate market trends and evolving needs has allowed us to stay ahead of the curve, resulting in products and technologies that are truly cutting-edge.

Pleasingly, our success to date is not confined to a single market or offering. We have expanded our global footprint and product range, tapping into new markets and regions. This strategy has not only contributed to our strong financial performance but has also enhanced our brand presence and reputation on a global scale.

The full Directors' Report contains more extensive information on the Group's performance in the financial year, but I would like to present the following highlights.

PROFIT PERFORMANCE AND MAJOR IMPACTS

Group revenue increased a significant 67.1% year-on-year (YoY) in FY23 to \$39.6 million, while earnings before interest, tax, depreciation and amortisation (EBITDA) increased to \$4.3 million (FY22: \$1.5 million) and net profit after tax (NPAT) improved to \$2.1 million (FY22: loss of \$177 thousand). Beam's revenue, EBITDA and NPAT are at their highest levels in the Company's history. On any measure, this has been a remarkable year.

One of the key contributors to these objectively impressive results is the successful launch of the next-generation portable satellite hotspot device, Iridium GO! exec®, with orders running well ahead of schedule. Beam secured a US\$12 million five-year contract with **Iridium Communications Inc** (NASDAQ: IRDM) to design, build and supply this world-first innovation, which is sold globally to the enterprise, government and consumer markets.

Sales of Beam's other equipment also contributed to the record results. This includes docking units, satellite terminals, accessories and the original Iridium GO!® hotspot, which was launched in 2014 and continues to enjoy strong market demand.

Importantly, Beam's recurring revenues have increased 39.6% to \$1.6 million in FY23. This increase is driven by growth in ZOLEO subscriptions in Australia and New Zealand with the total number of net subscribers increasing by two-thirds compared to over 6,200 as of 30 June 2023. Beam receives a royalty payment for each ANZ subscriber. Recurring revenues are also being bolstered by the recently awarded Telstra subsidiary deal with MTDData.

Another contributor to Beam's strong financial performance is the growth of SatPhone Shop, a wholly owned subsidiary of Beam and the largest Telstra satellite equipment provider. The business recorded a 6.7% increase in sales in FY23 compared to the previous year to just over \$2.5 million due to strong demand for satellite equipment as Beam benefited from continued strong growth in the mobile satellite services market.

20+ YEARS

• Experience • Expertise • Excellence

OUTLOOK AND PROJECTS

The momentum from FY23 is anticipated to carry over into the new financial year as Beam is well positioned to benefit from the significant uptick in the MSS market and from associated demand for its range of world-first innovative offerings.

In keeping with our tradition of innovation, Beam is developing a further Iridium Certus® offering following the successful launch of the Iridium GO! exec®, and the development of a new Beam branded device that will also generate recurring subscription revenues in addition to hardware sales.

Market awareness about the importance and utility of satellite services has recently been bolstered by high-profile brands like Apple and Starlink, which are transforming what was regarded as a niche application into more of a mainstream offering. Beam's products and services do not compete directly with these companies and will benefit from the expected expansion in the MSS market, which is driven by the increasing demand for reliable and secure connectivity, particularly for data, in remote and hard-to-reach areas where access to terrestrial networks is limited.

The sales performance of Iridium GO! exec® and other Beam innovations are symptomatic of this uptrend, which also bodes well for the continued growth of our recurring revenues from ZOLEO subscriptions and satellite airtime sales.

Another positive driver for FY24 is the SatPhone Shop business, which is leveraged to the organic growth in the MSS sector and from rising demand for Beam's solutions. Moreover, the business is strategically important to Beam as it gives it a direct channel to market.

STAFF AND BOARD

The devotion and tenacity of our staff is a major reason behind our success, and I cannot express enough my personal and professional admiration and appreciation to everyone at Beam. The fact that a small company like ours can develop so many world-first innovations over the years from our humble offices at Mulgrave, Victoria, is a testament to the quality of talent and dedication in the team.

Even as we hand down record levels of revenue and earnings from the commercial success of our products and services portfolio, our dedicated team is already gearing up to launch new innovations that will provide an important additional tailwind for growth.

Beam did not issue new shares during the year but did issue 200,000 sign-on options to director Mark Chartres with an exercisable price of \$0.53 and expiring on 1 February 2025.

Finally, I would like to end by congratulating everyone in the Beam family for achieving an outstanding full year result and for playing an invaluable part in building a successful and innovative company that punches above its weight in so many respects. I have confidence the value of the company will transition to reflect the recent and forecast performance of the company, providing growth to shareholders and the capital position of the company.

DIRECTOR'S REPORT

The Directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'Group' or 'Beam') consisting of Beam Communications or Beam Communications Holdings Limited (referred to hereafter as the 'Company' or 'Parent Entity') and the entities it controlled at the end of, or during, the year ended 30 June 2023.

DIRECTORS

The following persons were directors of Beam Communications Holdings Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Mr Simon Lister Wallace
(Non-executive chairman)

Mr Michael Ian Capocchi
(Managing director)

Mr David Paul James Stewart
(Non-executive director,
resigned 30 September 2022)

Mr Mark Allan Chartres
(Non-executive director)

COMPANY SECRETARY

Mr Dennis Frank Payne

SIMON LISTER WALLACE
Non Executive Chairman

Age: 49

Simon Wallace is a corporate lawyer and, based in Melbourne, having previously been an equity partner of the largest law firm in the world, he is now the founder & Managing Partner of his own boutique legal practice.

With extensive legal and commercial proficiency, and particular expertise in the areas of project finance, fundraising and corporate governance, Simon has substantial professional experience in the areas of investment banking, structured and direct equity investments, product formulation and sales.

Simon is admitted to practice as a barrister and solicitor of the Supreme Court of Victoria, the Federal Court of Australia and the High Court of Australia, and he holds degrees from the Australian National University in both Law and Commerce.

Since its inception in August 2018, Simon has been a Director of Zoleo Inc. the joint venture entity of which the Group is a 50% partner with Roadpost Inc of Canada.

Simon Wallace has been a Director of Beam Communications Holdings Limited since 5 February 2015 and was elected Chairman on 22 December 2016.

LEADING

• Innovation • Communication • Connection

MICHAEL IAN CAPOCCHI

Managing Director

Age: 52

Michael Capocchi has over 25 years' experience in the ICT industry and has held several senior management positions. Michael is based in Chicago, USA, which places him closer to the important centres for satellite communications in the USA and UK/Europe.

Michael joined Beam Communications Holdings Limited as the General Manager of the subsidiary, Beam Communications Pty Ltd, in 2003 and was appointed as Managing Director of Beam Communications Holdings Limited in March 2008.

Prior to joining the Group, Michael was the Regional Sales Director for Iridium Satellite LLC, directly managing the sales, distribution and channel management strategies for the Asia-Pacific region. Michael has held senior management positions as the Sales and Marketing Director of Pacific Internet responsible for establishing the Australian operations of the company and with Optus Communications.

Since its inception in August 2018, Michael has been a Director of Zoleo Inc. the joint venture entity of which the Group is a 50% partner with Roadpost Inc of Canada.

Michael Capocchi is an integral part of the Group's business, including managing the day to day operations of the group which occasions extensive domestic and international travel when possible.

MARK ALLAN CHARTRES

Non Executive Director

Age: 44

Mark Chartres was appointed to the Board of Directors as an Independent Non-Executive Director, commencing on 1 February 2022. Mark has spent nearly two decades professionally engaged in financial markets, including with Macquarie Group and presently Shaw and Partners. Mark's knowledge of our business, financial acumen and investment experience will materially augment the Board's skills matrix.

DIRECTORSHIPS OF OTHER LISTED COMPANIES

No Director of Beam Communications Holdings Limited has been a director of a listed company in the three years immediately before the end of the financial year.

PRINCIPAL ACTIVITIES

The activities of the Group and its controlled entities during year were the development and marketing of a range of communication products and services, mainly satellite based.

DIVIDENDS

There were no dividends paid, recommended or declared during the current financial year.

REVIEW OF OPERATIONS

The profit for the Group after providing for income tax amounted to \$2,075,148 (30 June 2022: loss of \$176,805).

A summary of the result for the year is as follows:

	2023 (\$000)	2022 (\$000)
Revenue	39,552	23,663
Other income	541	665
Deduct:		
Cost of goods sold, research & development, administrative marketing and corporate expenses	(35,829)	(22,851)
Operating profit before amortisation, depreciation, interest and tax	4,264	1,477
Deduct:		
Amortisation	(1,987)	(1,006)
Depreciation	(200)	(199)
Interest	(152)	(151)
Operating profit	1,925	121
Net tax credit/(expense)	150	(297)
Net profit/(loss) for year	2,075	(176)
Total comprehensive income/(loss) for year	2,075	(176)

PROFIT AND PERFORMANCE

The company achieved its third consecutive year of record revenue in the financial year ended 30 June 2023 (FY23) driven by the launch of the Iridium GO! exec® device and growing global demand for its range of mobile satellite solutions.

Group operating revenue increased 67.1% in FY23 to \$39.6 million, while earnings before interest, tax, depreciation and amortisation (EBITDA) increased to \$4.3 million (FY22: \$1.5 million) and net profit after tax (NPAT) improved by \$2.3 million to \$2.1 million (FY22: loss of \$177 thousand). Beam's revenue, EBITDA and NPAT are at their highest levels in the Company's history.

One of the key contributors to the solid results is the successful launch of the next-generation portable satellite hotspot device, Iridium GO! exec, with orders running well ahead of schedule. Beam secured a US\$12 million five-year contract with Iridium Communications Inc (NASDAQ: IRDM) to design, build and supply this world-first innovation, which is sold globally to the enterprise, government and consumer markets.

Sales of Beam's other equipment also contributed to the record results. This includes docking units, satellite terminals, accessories and the original Iridium GO!® hotspot, which was launched in 2014 and continues to enjoy strong market demand.

Importantly, Beam's recurring revenues have increased 39.6% to \$1.6 million in FY23. This increase is driven by growth in ZOLEO subscriptions in Australia and New Zealand with the total number of net subscribers increasing by two-thirds compared to over 6,200 as of 30 June 2023. Beam receives a royalty payment for each ANZ subscriber.

Group recurring revenue was also bolstered by the uplift in airtime sales, particularly after Beam secured a contract to provide airtime services to Telstra Group Limited's (ASX: TLS) subsidiary, Mobile Tracking and Data Pty Ltd, which is worth in excess of \$1.2 million over two years (the contract rolls over yearly, unless otherwise ended, after the two-year minimum term).

Additionally, the launch of ZOLEO into the European region gained further traction in FY23 as the seamless satellite messaging solution was made available across all 30 countries in the European Economic Area (EEA) compared with just five countries in the region at its initial launch in May last year.

Another contributor to Beam's pleasing financial performance is the growth of SatPhone Shop, a wholly owned subsidiary of Beam and the largest Telstra satellite equipment provider. The business recorded a 6.7% increase in sales in FY23 to just over \$2.5 million due to strong demand for satellite equipment as Beam benefited from continued strong growth in the mobile satellite services market.

CASH AND FUNDING

Beam's cash holdings at 30 June, 2023, were \$5 million and it had a further \$1.2 million in available but undrawn debt facilities.

The Company posted a positive operating cash flow of \$2.4 million in FY23, which was driven by the further unwinding of trade working capital following the successful launch of the Iridium GO! exec® device.

Beam capitalised \$3.3 million in development costs primarily relating to ZOLEO and Iridium GO! exec®, and received the federal government's R&D tax credit of \$884,437 in the last financial year.

OUTLOOK AND PROJECTS

The momentum from FY23 is expected to carry over into the new financial year as Beam is well positioned to benefit from the ongoing growth of the Mobile Satellite Services (MSS) market and from associated demand for its range of world-first innovative offerings.

The Company is forecasting CAPEX of circa \$3 million in FY24, which relates to two new projects that Beam is undertaking – a further Iridium Certus® offering following the successful launch of the Iridium GO! exec®, and the development of a new Beam branded device that will also generate recurring subscription revenues in addition to hardware sales.

Market awareness about the importance and utility of satellite services has recently been bolstered by high-profile brands like Apple and Starlink, which are transforming what was regarded as a niche application into more of a mainstream offering. Beam's products and services do not compete directly with these companies and will benefit from the expected expansion in the MSS market.

The global MSS industry is forecast to expand at around 7% compound annual growth rate (CAGR) from 2023 to 2030 to hit US\$9.7 billion, according to Grand View Research¹. This growth is driven by the increasing demand for reliable and secure connectivity, particularly for data, in remote and hard-to-reach areas where access to terrestrial networks is limited.

The sales performance of Iridium GO! exec is symptomatic of this uptrend. Beam completed delivery of the first year's minimum commitment against its five-year contract in the first six months of the launch of the device. Beam believes that the US\$12 million minimum order for the hotspot device will be exceeded before the end of the contract and further anticipates that it will have fulfilled circa 80% of the contract by end of the current financial year.

Meanwhile, there are few signs of a slowdown in global demand for the original Iridium GO!® device, even though it was launched nine years ago. This device is aimed at a different user demographic to the Iridium GO! exec®, and the long lifecycle of satellite equipment bolsters our confidence about the sustained growth of these innovations.

Additionally, sales and subscriptions of the seamless satellite communicator, ZOLEO, continues to grow. Beam believes that royalty payments to the Company will continue to increase year-on-year over the medium-term, if not longer-term. The Company's positive outlook for ZOLEO stems in part from the recent introduction of the ZOLEO Track service, which will open new opportunities to sell the solution to the global B2B market and increase Average Revenue per User (ARPU). The feature allows organisations to monitor, manage and locate staff in real-time to improve safety and operational efficiency of their staff.

Further, ZOLEO Track is likely to increase enterprise and government subscriptions to the Location Share+ value-added service, which is in addition to the monthly ZOLEO subscription plan. This is because when both services are active, customers can also receive automatic location updates, check-ins, SOS events and detailed breadcrumb track points.

Meanwhile, Beam is expecting sales and subscriptions of ZOLEO in Europe to rise materially in FY24 as several key retailers in the region have started carrying and promoting the product. The recent availability of German language support will also help ZOLEO gain stronger traction in countries like Germany, Austria and Switzerland.

Another positive driver for FY24 is the SatPhone Shop business, which is perfectly placed to benefit from organic growth in the MSS sector and from rising demand for Beam's solutions. Moreover, the business is strategically important to Beam as it gives it a direct channel to market. With the launch of a new website and a variety of new products, we anticipate further opportunities in the B2B space.

¹ <https://www.grandviewresearch.com/press-release/global-mobile-satellite-services-market>

MATERIAL BUSINESS RISKS TO STRATEGY AND FINANCIAL PERFORMANCE

Beam has identified a number of material risks that may affect the success of the business over the coming periods, including some that are not directly within its control. The Company's risk management approach involves the ongoing assessment, monitoring and reporting of risks that could impede its progress in delivering its strategic priorities. The key risks are outlined below (not ranked in any order), although it is important to note that as Beam's business continues to grow and evolve, these risks and the Company's risk profile may change.

FOREIGN EXCHANGE RISK

Beam's equipment and services are sold around the world and most of its revenue is derived in US dollars. This exposes the Company to fluctuations in exchange rates, which are driven by market forces outside its control. A change in the exchange rate to the Australian dollar may have a positive or negative effect on the business.

LOSS OF KEY PERSONNEL

The Company's ability to be productive, profitable and competitive, and to implement its growth strategy, depends on the continued employment and performance of senior executives and management. Beam runs a globally complex operation and its performance also depends on its ability to attract and retain skilled workers with the relevant industry and technical experience. The loss of key personnel or the inability to attract additional personnel may have an adverse impact on its financial and operating performance. To mitigate some of this risk, Beam has insurance cover for its Managing Director and Chief Executive Officer, Michael Capocchi.

PARTNERSHIP RISKS

Beam has established partnerships with most of the world's largest satellite operators, particularly Iridium Communications. A breakdown of such partnerships is likely to impede on the Company's ability to offer hardware and services to Beam's clients and such an outcome may have a material and negative impact on its financial performance.

TECHNOLOGICAL CHANGES AND COMPETITION

The industry that Beam operates in is subject to constant technological change. These changes often bring new opportunities and competitive threats. To ensure the continual growth and profitability of the business, Beam must constantly be vigilant of these changes and invest in improving its existing offering and developing new innovations.

CHANNEL PARTNER SUPPORT

As Beam's products and services are sold in Australia and globally, it relies on its network of channel partners. Beam's ability to acquire and retain these partners will have a material impact on the continued growth in revenue and profitability of the Company. Beam protects its channel network by ensuring these partners can make a reasonable margin and carefully manages sales of its products and services on third-party online marketplaces.

ACCESS TO CAPITAL AND DEBT

Beam's ability to fund future growth and profitability may be affected by its ability to access funding from equity investors, credit markets and other financial institutions. This access is dependent on several factors, such as the Company's financial performance, but may also include factors that are outside its control, such as general economic and market conditions. There is a risk that the Company may be unable to access debt or equity funding when required on favourable terms, or at all.

REGULATORY AND COMPLIANCE RISKS

The telecom and satcom industries are highly regulated in each country. These rules and regulations allowing access to services may change with little warning and can have a positive or negative impact on Beam's financial performance. Further, Beam has to ensure it receives the necessary approvals and meet required industry standards in all countries before it can sell its hardware in those markets.

CYBER SECURITY RISKS

Beam's IT systems contain sensitive information on its products and technology, along with customer and third-party information. While Beam exercises due care in protecting its data, it is possible that these measures will not be enough to prevent unauthorised access to its systems and technologies. Such a breach may expose the Company to financial loss, reputational damage and legal consequences, including claims for compensation by customers or penalties by telecommunications regulators or other authorities.

DIRECTORS AND INVESTORS

There were no changes in the issued capital of the Group during the year.

Mr Simon Wallace, a shareholder in the Group, has been a Director for eight years and is currently the Non-Executive Chairman of the Board. Simon has lengthy and detailed expertise in legal and commercial matters and leads the Board and the Group in fund raising activities, strategic and corporate governance advice.

Mr David Stewart retired from the Board effective 30 September 2022, after spending nearly five years on the Group's board.

Mr Michael Capocchi is an Executive Director and holds the positions of Managing Director and Chief Executive Officer for all companies in the Group. His base in the USA enables him to easily visit the Middle East and UK/Europe, where many core clients are based, as well as domestically within the US. Michael travels frequently to Australia and retains direct and daily contact with management. Michael is also a significant shareholder in the Group.

Mr Mark Chartres, has been a Director for over 12 months and he has spent nearly two decades professionally engaged in financial markets, including with Macquarie Group and Shaw and Partners (presently). He is very familiar with the Group's operations, aspirations and investment profile, and has in the past assisted in furthering the Group's funding requirements as well as providing counsel on key investor expectations and priorities.

The Directors believe the Group is well placed to continue to deliver strong result in FY24 due to the Group's strong balance sheet and many growth options, including the continued success of the new Iridium GO! exec® device, ongoing geographical expansion of ZOLEO and the strong build in ZOLEO royalty payments.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

Other than those noted above there were no significant changes in the state of affairs of the Group during the financial year.

MATTERS SUBSEQUENT TO THE END OF THE FINANCIAL YEAR

No matter or circumstance has arisen since 30 June 2023 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS

The Company will continue the development and marketing of a range of communications devices, mainly satellite based. Further information on likely developments in the operations of the Group and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the Group.

ENVIRONMENTAL REGULATION

The Group is not subject to any significant environmental regulation under Australian Commonwealth or State law.

MEETINGS OF DIRECTORS

The number of meetings of the Group's Board of Directors ('the Board') and of each Board committee held during the year ended 30 June 2023, and the number of meetings attended by each Director were:

	Directors Meetings Attended	Directors Meetings Maximum Attendable	Committees Attended	Committees Maximum Attendable
M Capocchi	18	18	-	-
D Stewart (resigned 30 September 2022)	5	5	1	1
S Wallace	18	18	2	2
M Chartres	17	18	1	1

Maximum Attendable: represents the number of meetings applicable to the director during the time the director held office.

REMUNERATION REPORT (AUDITED)

The remuneration report details the key management personnel remuneration arrangements for the Group, in accordance with the requirements of the *Corporations Act 2001* and its Regulations.

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all Directors.

The remuneration report is set out under the following main headings:

- Principles used to determine the nature and amount of remuneration
- Details of remuneration
- Share-based compensation

PRINCIPLES USED TO DETERMINE THE NATURE AND AMOUNT OF REMUNERATION

This report details the nature and amount of remuneration for each Director and KMP of Beam Communications Holdings Limited.

REMUNERATION POLICY

The Group is committed to remunerating its Executive Directors and senior executives in a manner that is market-competitive, consistent with best practice and which supports the interests of shareholders. The Group aims to align the interests of Executive Directors and senior executives with those of shareholders by remunerating through performance and long-term incentive plans in addition to fixed remuneration.

The remuneration of Non-executive Directors is determined by the Board having regard to the level of fees paid to non-executive directors by other companies of similar size and stature and in aggregate must not exceed the maximum annual amount approved by the Group's shareholders, currently \$500,000, as determined at the General Meeting held on 3 August 2007.

Senior executives' remuneration consists of the following elements:

- fixed salary;
- short-term incentive bonus where applicable based on performance;
- long-term incentive share option scheme; and;
- other benefits including superannuation.

Fixed salary

The salary of senior executives is determined from a review of the market and reflects core performance requirements and expectations. In addition, the Company considers the following:

- The scope of the individual's role;
- The individual's level of skill and experience;
- Legal and industrial obligations;
- Labour market conditions; and
- The complexity of the Company's business.

The purpose of a performance bonus is to reward an individual's actual achievement of performance objectives and for materially improved Group performance. Consequently, performance-based remuneration is paid where a clear contribution to successful outcomes for the Group is demonstrated and the individual attains and excels against pre-agreed key performance indicators during a performance cycle.

In assessing the relative performance of the senior executives and the Group as a whole measured against the primary objective of enhancing shareholder value over time, the Board has regard to key financial indicators. In accordance with Section 300A of the *Corporations Act 2001* the following table summarises the Group's performance over the last 5 years.

	2023	2022	2021	2020	2019
Net profit/(loss) before tax (\$'000)	1,925	121	780	(1,518)	722
EBITDA (\$'000)	4,264	1,477	1,991	3,276	2,104
Basic earnings per share (cents)	2.40	(0.22)	0.76	(0.31)	0.64
Share price at 30 June (\$)	0.18	0.20	0.24	0.17	0.27
Market Capitalisation at 30 June (\$m)	15.6	17.28	17.64	8.99	14.28
Dividends per share	Nil	Nil	Nil	Nil	Nil

The Board believes the above table goes some way to illustrate the positive direction the Group has taken over the past 5 years and is reflective of much, but not all, of the performance of senior executives during that period. Due to the nature of the Groups business, there are often major influences on a particular financial year's profit result.

Confidence in the strategy and growth agenda was clearly demonstrated in FY23 by the increase in revenue, EBITDA and NPAT for the Group.

Long-term Incentives

The Group's Share Options Incentive Plan, in which Directors and senior executives may participate, was approved by shareholders on 27 October 2017 and authorises the Directors to issue options in respect of up to 10% of the shares on issue at a given time.

The Group ensures that the payment of equity-based executive remuneration is made in accordance with thresholds set in plans approved by shareholders.

As noted in this report, options were issued to a Director during the 2023 financial year, reflecting sign on obligations and achieved incentives.

Other benefits

Senior executives are entitled to statutory superannuation and other bonus payments subject to the discretion of the Managing Director and the Board.

Details of remuneration

The key management personnel of the Group consisted of the following directors of Beam Communications Holdings Limited:

- Mr S Wallace - Non-Executive Chairman
- Mr M Capocchi - Executive Managing Director
- Mr D Stewart - Non-Executive Director (resigned 30 September 2022)
- Mr M Chartres - Non-Executive Director

And the following persons:

- Mr W Christie - Chief Technical Officer
- Mr D Sleigh - Chief Financial Officer

Employment Contracts

KMP	Notice	Termination Payment	Non-Compete	Term
S Wallace	None	None	None post-employment	No fixed term
M Capocchi	9 months (after minimum term of 27 months)	Notice paid in leu	None post-employment	36 months from 1 July 2022
M Chartres	None	None	None post-employment	No fixed term
W Christie	1 month	Notice paid in leu	12 months	No fixed term
D Sleigh	3 months	Notice paid in leu	None post-employment	No fixed term

The remuneration for each director and each of the other key management personnel of the Group receiving the highest remuneration during the year was as follows:

	Short-term benefits			Post-employment benefits	Long-term benefits	Share-based payments	
	Cash salary and fees	Cash bonus and commission	Employee benefits payable (b)	Superannuation	Employee benefits payable	Options (a)	Total

	998,303	89,635	23,549	103,636	15,410	45,928	1,276,461

(a) Option based compensation relates to the value of options issued to date and brought to account pro-rata to the time period from the date of granting to the date of vesting, except where Accounting Standard AASB 2 required expensing to begin from the commencement of service related to those options, notwithstanding that the issue of those options, in the case of Directors was subject to shareholder approval, and in the case of key management employees, subject to performance review.

(b) Employee benefits payable represents net increase in benefits payable charged to the consolidated statement of profit or loss and other comprehensive income in the current year.

(c) The majority of Mr Capocchi's remuneration is in US dollars. For 2023 his remuneration has been converted into AU dollars at the exchange rate on 30 June 2023 of 0.6630 (2020: 0.6889)

The proportion of remuneration linked to performance and the fixed proportion are as follows:

SHARES ISSUED ON EXERCISE OF REMUNERATION OPTIONS

No shares were issued on exercise of remuneration options during the current period.

VOTING AND COMMENTS MADE AT THE COMPANY'S 2022 ANNUAL GENERAL MEETING (AGM)

At the Company's most recent AGM, held on 30 November 2022, a resolution to adopt the prior year (2022) remuneration report was put to the vote and more than 25% of votes cast were against the adoption of that report. This constituted a "first strike" under the executive remuneration related provisions of the *Corporations Act*.

This concludes the remuneration report, which has been audited.

SHARES UNDER OPTION

Unissued ordinary shares of Beam Communications Holdings Limited under option at the date of this report are as follows:

Grant date	Expiry date	Exercise price	Number under option
30 November 2021	31 December 2023	\$1.00	3,340,905
23 December 2021	31 August 2026	\$0.35	530,798
23 December 2021	23 December 2026	\$0.35	400,000
1 February 2022	1 February 2025	\$0.53	200,000
2 December 2022	2 December 2024	\$0.30	1,100,000
			5,571,703

SHARES ISSUED ON THE EXERCISE OF OPTIONS

No ordinary shares of Beam Communications Holdings Limited were issued during the year ended 30 June 2023 and up to the date of this report on the exercise of options granted.

INDEMNITY AND INSURANCE OF DIRECTORS AND OFFICERS

During the year, the Group has paid premiums in respect of an insurance contract to indemnify its Directors and officers against liabilities that may arise from their positions. Directors and officers indemnified include the Company Secretary, all directors and all executive officers participating in the management of the Group.

Further disclosure required under section 300(9) of the *Corporations Act* is prohibited under the terms of the insurance contract.

INDEMNITY AND INSURANCE OF AUDITOR

The Company has not, during or since the end of the financial year, indemnified or agreed to indemnify the auditor of the Company or any related entity against a liability incurred by the auditor.

During the financial year, the Company has not paid a premium in respect of a contract to insure the auditor of the Company or any related entity.

PROCEEDINGS ON BEHALF OF THE COMPANY

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

NON-AUDIT SERVICES

There were no non-audit services provided during the financial year by the auditor.

AUDITOR'S INDEPENDENCE DECLARATION

A copy of the auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out immediately after this directors' report.

AUDITOR

RSM Australia Partners continues in office in accordance with section 327 of the *Corporations Act 2001*.

ROUNDING OF AMOUNTS

The company is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar

This report is made in accordance with a resolution of directors, pursuant to section 298(2)(a) of the *Corporations Act 2001*.

On behalf of the directors

Mr Simon Wallace
Chairman

30 August 2023

GENERAL INFORMATION

The financial statements cover Beam Communications Holdings Limited (the 'Company') as a Group consisting of Beam Communications Holdings Limited and the entities it controlled at the end of, or during, the year. The financial statements are presented in Australian dollars, which is Beam Communications Holdings Limited's functional and presentation currency.

Beam Communications Holdings Limited is a listed public company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Unit 5 / 8 Anzed Court
Mulgrave, VIC, 3170
Australia

A description of the nature of the Group's operations and its principal activities are included in the directors' report, which is not part of the financial statements.

The financial statements were authorised for issue, in accordance with a resolution of directors, on 30 August 2023. The directors have the power to amend and reissue the financial statements.

Cash and cash equivalents at the end of the financial year	8	4,951	5,775

The above statement of cash flows should be read in conjunction with the accompanying notes

Note 1. Significant accounting policies

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. The impact of these standards did not have a material impact on the Group.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") and the Corporations Act 2001 and comply with International Financial Reporting Standards as issued by the International Accounting Standards Board. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of financial assets and liabilities at fair value through profit or loss, financial assets at fair value through other comprehensive income.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in Note 2.

Accounting policies

The following is a summary of the material accounting policies adopted by the Group in the preparation of the financial report. The accounting policies have been consistently applied to all years presented, unless otherwise stated. When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(a) Principles of consolidation

The consolidated financial statements incorporate all of the assets, liabilities and results of the parent (Beam Communications Holdings Limited) and all of the subsidiaries which are entities the parent controls. A list of the subsidiaries is provided in Note 30.

Note 1. Significant accounting policies (continued)

(b) Income tax

Income tax expense (benefit) for the year comprises current income tax expense (credit) and deferred income tax expense (benefit).

A net deferred tax asset has been recognised in the current year reflecting the movements in deferred tax assets and liabilities for the period.

Non-cash refundable R&D tax incentives that can be used to offset income tax payable are recognised as deferred tax assets where the carry forward criteria is satisfied. In such cases there will be a reduction in tax expense otherwise charged to the profit and loss.

Deferred tax is accounted for using the liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the statement of profit or loss and other comprehensive income except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised. At each reporting date, the Group re-assesses unrecognised deferred tax assets as to the extent that it has become probable that future tax profit will enable recognition.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where: (a) a legally enforceable right of set-off exists; and (b) the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

Beam Communications Holdings Limited and its wholly owned Australian subsidiaries have formed a tax consolidated group under the tax consolidation regime. The current tax liability of each group entity and deferred tax assets arising from tax losses are immediately assumed by the parent entity.

(c) Trade and other receivables

Other receivables are recognised at amortised cost, less any allowance for expected credit losses.

(d) Plant and equipment

Plant and equipment is carried at cost less any accumulated depreciation and impairment losses, where applicable.

The carrying amount of plant and equipment is reviewed at each reporting date by directors to ensure it is not in excess of the recoverable amount from these assets.

Repairs and maintenance to plant and equipment is charged to the statement of profit or loss and other comprehensive income during the financial period in which it is incurred.

The depreciable amount of plant and equipment is depreciated on a straight line basis over their useful lives to the Group commencing from the time the asset is held ready for use.

The straight line depreciation rates for plant and equipment were:

Office furniture and equipment	5-10 years
Computer and test equipment	3 years
Rental equipment	3 years

Note 1. Significant accounting policies (continued)

The asset's residual values and useful lives are reviewed, and adjusted if appropriate, at each balance date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the statement of profit or loss and other comprehensive income.

(e) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of manufactured products includes direct materials and direct labour.

(f) Development costs

Development costs are capitalised only when it is probable that the expected future economic benefits would flow to the company and can be measured reliably. Development costs have a finite life and are amortised on a systematic basis matched to future production. Expenditure not related to the creation of a new product is recognised as an expense when incurred.

The amortisation rate for capitalised development costs is dependent on an assessment of the minimum useful life of each project. Recent projects/products have been assessed at 4 years or 5 years giving a 25% or a 20% amortisation rate during 2023.

(g) Employee benefits

Short-term employee benefits

Provision is made for the Group's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the undiscounted amounts expected to be paid when the obligation is settled.

The Group's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the statement of financial position. The Group's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Other long-term employee benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any re-measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

Option based compensation relates to the value of options issued to date and brought to account pro-rata to the time period from the date of issue to the date of vesting, except in the case of Director's where Accounting Standard AASB 2 requires expensing to begin from the commencement of service related to those options, notwithstanding that the issue of those options is subject to shareholder approval.

The Group's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Group does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

Note 1. Significant accounting policies (continued)

(h) Financial instruments

Financial instruments in the form of trade receivables, trade payables and other financial assets and liabilities are initially measured at fair value adjusted by transactions costs on trade date when the related contractual rights or obligations arise. Realised and unrealised gains or losses arising from changes in the fair value of these assets or liabilities are included in the statement of profit or loss and other comprehensive income in the period in which they arise. At each reporting date, the group assesses whether there is objective evidence that a financial instrument has been impaired. Impairment losses are recognised in the statement of profit or loss and other comprehensive income. Refer Note 21 for a detailed review of the group's financial instruments.

The Group does not designate any interests in subsidiaries as being subject to the requirements of Financial Instruments accounting standards.

(i) Impairment of assets

At each reporting date, the group reviews the carrying values of its assets to determine whether there is an indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the assets carrying value over its recoverable amount is expensed to the statement of profit or loss and other comprehensive income. Where it is not possible to estimate the recoverable amount of an individual asset, the group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

The group uses an Expected Credit Loss model in assessing impairment of trade and other receivables or loans and other instruments that fall within the scope AASB 9 impairment requirements. The model includes a simplified approach in accounting for trade and other receivables as well as contract assets, and records the loss allowance at the amount equal to the expected lifetime credit losses. Under this simplified approach, the Group uses its historical experience, external indicators and forward-looking information to calculate the expected credit losses.

(j) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Where applicable, bank overdrafts are disclosed within other financial liabilities in current liabilities on the statement of financial position.

(k) Leases

The Group assesses whether a contract is or contains a lease, at inception of the contract. The entity recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

When measuring lease liabilities for leases that had been classified as operating leases, the Group discounted lease payments using its incremental borrowing rate at 1 July 2019. The weighted average rate applied was 7.3% to 8%.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the entity uses its incremental borrowing rate. The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received, any initial direct costs and an estimate of any costs to dismantle and remove the asset at the end of the lease. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated over the shorter period of lease term and useful life of the underlying asset. They are subject to impairment or adjusted for remeasurement.

Note 1. Significant accounting policies (continued)

(l) Revenue recognition

Revenue from the sale of goods or services is brought to account upon fulfilment of the relevant performance obligations of the contract with the customer. Performance obligations are fulfilled upon delivery of the goods or services to the customer at which point the transaction price is brought to account as revenue. The transaction price is the amount of consideration to which the group expects to be entitled in exchange for transferring promised goods or services to a customer.

Interest revenue and rental income are recognised when they become receivable. Other revenue is recognised when the right to receive the revenue has been established.

(m) Government grants

Government grants in the form of refundable Research and Development Tax Offsets received in respect of capitalised Development Costs are initially recognised as deferred income upon receipt, and brought to account as income on a systematic basis over the useful life of the related Development Cost assets. Non-refundable Research and Development tax incentives are considered offsets to income tax expenses, subject to meeting the carry-forward recognition criteria.

There are no unfulfilled conditions or other contingencies attaching to government grants recognised in the financial statements.

(n) Interest in joint venture

A joint venture represents the contractual sharing of control between parties in a business venture where unanimous decisions about relevant activities are required.

Where the Group is a party to a joint venture, the Group recognises its interests in the joint venture using the equity method whereby the investment in the joint venture is carried in the statement of financial position at cost plus post acquisition changes in the Group's share of net assets of the joint venture.

The statement of profit or loss and other comprehensive income reflects the Group's share of the results of operations of the joint venture. Unrealised gains and losses resulting from transactions between the Group and the joint venture are eliminated to the extent of the interest in the joint venture.

(o) Foreign currency transactions and balances

Functional and presentation currency

The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency. The functional currency of each of the group's entities is measured using the currency of the primary economic environment in which that entity operates.

Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the statement of profit or loss and other comprehensive income.

(p) Goods and Services Tax (GST)

Revenue, expenses and assets are recognised net of the amount of GST, except where the amount of GST is not recoverable from the Australian Taxation Office. In these circumstances the GST is recognised as part of the asset or expense cost. Receivables and Payables are shown in the statement of financial position as inclusive of GST.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities which are disclosed as operating cash flows.

Note 1. Significant accounting policies (continued)

(q) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

(r) Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(s) Rounding of amounts

The company is of a kind referred to in Corporations Instrument 2016/191, issued by the Australian Securities and Investments Commission, relating to 'rounding-off'. Amounts in this report have been rounded off in accordance with that Corporations Instrument to the nearest thousand dollars, or in certain cases, the nearest dollar.

(t) New Accounting Standards and Interpretations not yet mandatory or early adopted

The below are Accounting Standards and Interpretations issued by the AASB that are not yet mandatorily applicable to the Group, with an assessment of the potential impact of such pronouncements on the Group when adopted in future periods:

Accounting Standards and Interpretations	Applicable to annual reporting periods beginning on or after
AASB 2020-1 Amendments to AASs - Classification of Liabilities as Current or Non-current liabilities as Current or Non-current	1 Jan 2023
AASB 2021-2 Amendments to AASs - Disclosure of Accounting Policies and Definition of Accounting Estimates	1 Jan 2023
AASB 2021-5 Amendments to AASs - Deferred Tax related to Assets and Liabilities arising from a Single Transaction	1 Jan 2023
AASB 2014-10 Sale or contribution of Assets between an Investor and its Associate or Joint Venture	1 Jan 2025

Note 2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact profit or loss and equity.

Allowance for expected credit losses

The allowance for expected credit losses assessment requires a degree of estimation and judgement. It is based on the lifetime expected credit loss, grouped based on days overdue, and makes assumptions to allocate an overall expected credit loss rate for each group. These assumptions include recent sales experience and historical collection rates.

Note 2. Critical accounting judgements, estimates and assumptions (continued)

Provision for impairment of inventories

The provision for impairment of inventories assessment requires a degree of estimation and judgement. The level of the provision is assessed by taking into account the recent sales experience, the ageing of inventories and other factors that affect inventory obsolescence.

Estimation of useful lives of assets

The consolidated group determines the estimated useful lives and related amortisation charges for its finite life intangible assets. The useful lives could change significantly as a result of technical innovations or some other event. The amortisation charge will increase where the useful lives are less than previously estimated lives, or technically obsolete or non-strategic assets that have been abandoned or sold will be written off or written down.

Lease liabilities

The incremental borrowing rate applied to various lease liabilities recognised under AASB 16 ranges between 7.3% - 8%.

Income tax

The Group is subject to income taxes in the jurisdictions in which it operates. Significant judgement is required in determining the provision for income tax. There are many transactions and calculations undertaken during the ordinary course of business for which the ultimate tax determination is uncertain. The Group recognises liabilities for anticipated tax audit issues based on the Group's current understanding of the tax law, if appropriate. Where the final tax outcome of these matters is different from the carrying amounts, such differences will impact the current and deferred tax provisions in the period in which such determination is made.

Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences only if the Group considers it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The deferred tax expense reflects the movements in the deferred assets and liabilities. The directors have recognised 100% (2022: 60%) of the deferred tax assets and liabilities relating to carried forward tax losses. The directors have recognised 100% (2022: not applicable) of non-refundable R&D tax credits.

The directors expect sufficient future profitability and taxable income to enable the full value of all deferred tax assets to be realised.

The amount of unused net deferred tax assets relating to tax losses which have not been brought to account is nil (2022: \$762,526) and capital tax losses of \$1,681,896 (2022: \$1,681,896). The amount of non-refundable R&D investment credits brought to account is \$704,970 (2022: nil).

The amount of net deferred tax assets which may be realised in the future is dependent on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the Group will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

Employee benefits provision

As discussed in Note 1, the liability for employee benefits expected to be settled more than 12 months from the reporting date are recognised and measured at the present value of the estimated future cash flows to be made in respect of all employees at the reporting date. In determining the present value of the liability, estimates of attrition rates and pay increases through promotion and inflation have been taken into account.

Warranty provision

In determining the level of provision required for warranties the Group has made judgements in respect of the expected performance of the products, the number of customers who will actually claim under the warranty and how often, and the costs of fulfilling the conditions of the warranty. The provision is based on estimates made from historical warranty data associated with similar products and services.

Note 3. Operating segments

Identification of reportable operating segments

The Group has identified operating segments based upon internal reports that are reviewed and used by the Directors in assessing performance and determining the allocation of resources in respect of its satellite communications products services and online sales. As the online sales segment operated by SatPhone Shop Pty Ltd, a wholly owned subsidiary company, does not meet the quantitative threshold for separate disclosure, the company considers its aggregate segment as its sole segment. Accordingly, revenue and results are fully disclosed in the consolidated statement of profit or loss and other comprehensive income for this aggregated sole operating segment.

The consolidated statement of financial position discloses the sole operating segment assets and liabilities which are held within Australia.

Major customers

The Group has a number of customers to whom it provides products and services. The Group supplied a single customer in the U.S. accounting for 39% of revenue (2022: 34%) and the second largest customer, located in Canada, accounted for 21% of revenue (2022: 15%). The next most significant customer accounts for 6% of revenue (2022: 10%).

Geographical information

The geographical disaggregation of sales has been presented in Note 4.

Note 4. Revenue

	Consolidated	
	30 June 2023	30 June 2022
	\$'000	\$'000
Equipment sales	37,888	22,423
Airtime	845	700
Other	819	540
	<hr/>	<hr/>
Revenue	<u>39,552</u>	<u>23,663</u>

Disaggregation of revenue

The disaggregation of revenue from contracts with customers is as follows:

	Consolidated	
	30 June 2023	30 June 2022
	\$'000	\$'000
<i>Geographical regions</i>		
Australia	6,093	5,114
United States of America	15,774	4,521
United Arab Emirates	893	575
United Kingdom	1,466	1,329
China	744	133
Canada	8,861	9,153
Japan	268	363
Other foreign countries	5,453	2,475
	<hr/>	<hr/>
	<u>39,552</u>	<u>23,663</u>

Timing of revenue recognition

Goods and services transferred at a point in time	37,995	22,550
Goods and services transferred over time	1,557	1,113
	<hr/>	<hr/>
	<u>39,552</u>	<u>23,663</u>

Note 5. Other income

	Consolidated 30 June 2023 \$'000	30 June 2022 \$'000

Interest	12	1
Foreign exchange	63	194
	<hr/>	<hr/>
Other income	541	665
	<hr/>	<hr/>

Note 6. Expenses

Profit before income tax includes the following specific expenses:

	Consolidated 2023 \$'000	Consolidated 2022 \$'000
<i>Cost of sales</i>		
Opening inventories	4,335	3,071
Add: Purchases and other stock adjustments	31,599	18,501
	<hr/>	<hr/>
	35,934	21,572
	<hr/>	<hr/>
Less: Closing inventories (note 10)	(7,462)	(4,335)
	<hr/>	<hr/>
	28,472	17,237
	<hr/>	<hr/>
<i>Finance costs expense</i>		
Interest expense on lease liabilities	17	32
Other financial costs	149	119
	<hr/>	<hr/>
	166	151
	<hr/>	<hr/>
<i>Other expenses</i>		
Product development costs expensed	236	249
Operating lease payment	25	36
Travel expense	333	125

Note 7. Income tax expense/(benefit)

	Consolidated	
	30 June 2023	30 June 2022
	\$'000	\$'000
<i>Income tax expense/(benefit)</i>		
US tax expense benefit/(credit)	(10)	19
Current movement of temporary difference in net deferred tax assets	489	274
Movement in deferred tax asset associated with carry forward tax losses	76	4
R&D tax offset	(705)	-
	<u>(150)</u>	<u>297</u>
Aggregate income tax expense/(benefit)		
	<u>(150)</u>	<u>297</u>
<i>Numerical reconciliation of income tax expense/(benefit) and tax at the statutory rate</i>		
Profit before income tax (expense)/benefit	1,925	121
Tax at the statutory tax rate of 25%	481	30
Tax reconciling items	(481)	(30)
US tax loss/(credit)	(10)	19
Deferred tax assets loss	(140)	278
	<u>(150)</u>	<u>297</u>
Income tax expense/(benefit)		
	<u>(150)</u>	<u>297</u>

Income tax expense includes a tax expense of \$10,058 (2022: \$18,770), incurred by the Group's USA subsidiary, which is unable to be combined with Australian tax losses.

There are no franking credits available to equity holders.

Note 8. Cash and cash equivalents

	Consolidated	
	30 June 2023	30 June 2022
	\$'000	\$'000
<i>Current assets</i>		
Cash at bank and on hand	4,951	5,775
	<u>4,951</u>	<u>5,775</u>

Note 9. Trade and other receivables

	Consolidated	
	30 June 2023	30 June 2022
	\$'000	\$'000
<i>Current assets</i>

Less: Accumulated depreciation	(1,264)	(1,112)
	<u>96</u>	<u>218</u>

Note 11. Right-of-use assets (continued)

Reconciliations

Reconciliations of the written down values at the beginning and end of the current and previous financial year are set out below:

Consolidated	Balance \$'000
Balance at 1 July 2021	360
Additions	18
Depreciation expense	<u>(160)</u>
Balance at 30 June 2022	218
Additions	30
Depreciation expense	<u>(152)</u>
Balance at 30 June 2023	<u><u>96</u></u>

The Group leases several assets, which includes buildings and two forklifts with original lease terms of 9, 5 and 3 years respectively. There are no variable lease payment terms in any lease contracts.

There are no extension or termination options on the leases.

	2023 \$'000s	2022 \$'000s
Amount recognised in profit or loss		
Depreciation expense on right-of-use assets	152	160
Interest expense on lease liabilities	17	32
Expense relating to short-term leases	29	19

Note 12. Interest in joint venture

	Consolidated 30 June 2023 \$'000	30 June 2022 \$'000
<i>Non-current assets</i>		
Investment in joint venture	-	1,099
Group's accumulated share of loss from Zoleo Inc joint venture for the year ended	<u>-</u>	<u>(1,099)</u>
	<u><u>-</u></u>	<u><u>-</u></u>

The Group has a 50% share in a joint venture company, Zoleo Inc, which was incorporated in Canada in August, 2018.

Zoleo Inc had no contingent liabilities or capital commitments as at 30 June 2023.

The Group's accumulated contribution US\$775,100 had been previously recognised as an increase in investment as per the equity accounting method and was written down to nil during the prior financial year as the Group's share of the accumulated losses exceeds the investment total.

Note 12. Interest in joint venture (continued)

Summarised financial information:

	Zoleo Inc 2023 \$'000	Zoleo Inc 2022 \$'000
Summarised statement of financial position:

	<u><u>8,915</u></u>	<u><u>7,569</u></u>

Note 14. Development costs (continued)

Reconciliations

Reconciliations of the written down values at the beginning and end of the current and previous financial year are set out below:

Movement in carrying amount of development costs

Consolidated	\$'000
Balance at 1 July 2021	5,500
Additions	3,886
Amortisation expense	(1,817)
Balance at 30 June 2022	7,569
Additions	3,333
Amortisation expense	(1,987)
Balance at 30 June 2023	8,915

The Group has assessed the minimum useful life of products from recent development projects at 4 or 5 years during 2023.

In line with the accounting policy detailed in Note 1(i), the carrying value of assets is reviewed to determine whether there is an indication that those assets have been impaired. None of the intangible assets was written off during the financial year.

Note 15. Deferred tax

	Consolidated	
	30 June 2023	30 June 2022
	\$'000	\$'000
<i>Non-current assets</i>		
Deferred tax asset	457	318
	Balance at	Charged to
	1 July 2022	income
	\$'000	\$'000

Note 16. Trade and other payables

	Consolidated	
	30 June 2023	30 June 2022
	\$'000	\$'000
<i>Current liabilities</i>		
Trade payables and accruals	5,725	4,428
Deferred R&D income	1,245	826
Other deferred income	304	793
	<u>7,274</u>	<u>6,047</u>

The Group initially recognises refundable R&D investment grants as deferred income upon receipt and brings to account the income over the same period as the amortisation of the related completed project cost. \$466,183 of R&D grant income was recognised in the statement of profit & loss for the year as shown in Note 5.

Refer to Note 21 for further information on financial instruments.

Note 17. Borrowings

	Consolidated	
	30 June 2023	30 June 2022
	\$'000	\$'000
<i>Non-current liabilities</i>		
Secured loan	-	486

The Group had a secured loan facility with Roadpost Inc. of up to US\$600,000. Roadpost is a Canadian company and a joint venture partner with Beam Communications Pty Ltd to develop, market and distribute the Zoleo product, a satellite based messaging device, including associated airtime contracts. The interest-free Assistance Loan was to assist Beam to establish the business and was repayable at Beam's sole discretion.

The loan balance \$485,756 from the preceding period was fully repaid during the financial year.

Refer to Note 21 for further information on financial instruments.

Banking facilities

All bank facilities are secured by first ranking Registered Mortgage Debenture over the Group's assets including uncalled capital and called but unpaid capital. At 30 June 2023, the company had the following unused bank facilities:

- An Australian dollar overdraft with a limit of \$300,000 (2022: \$300,000). The overdraft was not utilised at 30 June 2023 or 30 June 2022.
- A US dollar overdraft with a limit of US\$320,000 (2022: US\$320,000). The US dollar overdraft was not utilised at 30 June 2023 or 30 June 2022.
- The Group had a bank guarantee facility of \$50,000 at 30 June 2023 (2022: \$150,000). It was fully utilised at both 30 June 2023 and 30 June 2022.

On 1 July 2020 the NAB granted Beam a 3 year, low interest term loan of \$500,000 and a further \$500,000 on 10 May 2021 part secured by the Australian government under their Covid19 relief program to assist with funding of Beam's product development program. The principal outstanding of \$972,970 was repaid on 19 May 2021 and, after allowing for amortisation, \$400,849 was available to be redrawn at 30 June 2023.

Note 18. Lease liabilities

Balance	30 June 2023	<u>86,421,921</u>		<u>17,375</u>

(a) Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the company does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

(b) Share buy-back

There is no current on-market share buy-back.

(c) Capital risk management

When managing capital, management's objective is to ensure the Group continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders.

No dividends have been paid or declared in respect of ordinary shares for the 2023 financial year.

The Group effectively manages its capital by assessing the financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders, share issues, or convertible note issues.

The capital risk management policy remains unchanged from the 30 June 2022 Annual Report.

Note 21. Financial instruments

Financial risk management objectives

The Group undertakes transactions in a range of financial instruments including:

- cash assets;
- receivables;
- payables;
- deposits

Activities undertaken by entities within the Group result in exposure to a number of financial risks, including market risk (including interest rate risk, foreign currency risk, and price risk), credit risk, and liquidity risk.

Due to the size of operation conducted by the Group, risk management is monitored directly by the Board of Directors of the parent company with the aim of mitigation of the above risks and reduction of the volatility on the financial performance of the Group.

The risks associated with material financial instruments and the Group's policies for minimising these risks are detailed below.

Market risk management

Interest rate risk

Interest rate risk refers to the risk that the value of a financial instrument or cash flows associated with the instrument will fluctuate due to changes in market interest rates.

Interest rate risk for the Group primarily arises from bank funding.

Facilities are provided by the Group's bankers and if, drawn upon, are at variable interest rates based upon Business Overdraft Prime Indicator rates plus a risk margin. The group diligently manages the facilities and its accompanying rate risk in its daily operations by keeping the net debt portfolio at a minimum level or in an in-funds position.

These risk exposures related to the financial instruments are not considered material and therefore no sensitivity analysis has been provided.

Financial Instrument Composition and Maturity

The Group's exposure to interest rate risk, and the effective weighted average interest rates on classes of financial assets and financial liabilities, is as follows:

2023	Floating interest \$'000	Fixed interest \$'000	Weighted average interest rate %	Non-interest bearing \$'000	Total \$'000
<i>Financial asset</i>					
Cash assets	4,951	-	0.00%	-	4,951
Receivables	-	-	0.00%	5,321	5,321
	<u>4,951</u>	<u>-</u>		<u>5,321</u>	<u>10,272</u>
<i>Financial liability</i>					
Payables (excluding deferred income)	-	-	0.00%	5,725	5,725
Lease liabilities	-	131	7.36%	-	131
	<u>-</u>	<u>131</u>		<u>5,725</u>	<u>5,856</u>

Note 21. Financial instruments (continued)

2022	Floating interest \$'000	Fixed interest \$'000	Weighted average interest rate %	Non-interest bearing \$'000	Total \$'000
Cash assets	5,775	-	0.00%	-	5,775
Receivables	-	-	0.00%	6,036	6,036
	<u>5,775</u>	<u>-</u>		<u>6,036</u>	<u>11,811</u>
Payables (excluding deferred income)	-	-	0.00%	4,914	4,914
Lease liabilities	-	327	7.36%	-	327
	<u>-</u>	<u>327</u>		<u>4,914</u>	<u>5,241</u>

Foreign currency risk

Foreign currency risk refers to the risk that the value of a financial commitment, recognised asset or liability will fluctuate due to changes in foreign currency rates. The Group conducts the majority of its receivable and payable transactions in foreign currency, primarily in US Dollars. The Group's foreign currency exchange risk arises from the holding of foreign currency deposits and transactions in normal trading operations resulting in trade receivables and payables being held at balance date.

Foreign currency risk sensitivity:

If foreign exchange rates were to increase/decrease by 10% from rates used to determine values as at reporting date then the impacts on profit and equity due to unrealised foreign currency exchange gains or losses on foreign currency deposits and trade receivables and payables are as follows:

	Foreign currency movement	Year ended 30 June 2023 \$'000	Year ended 30 June 2022 \$'000
Impact on profit after tax	+/- 10%	+/-300	+/- 23
Impact on equity	+/- 10%	+/-300	+/- 23

The above sensitivity reflects the net holding of foreign currency financial instruments at balance date. Whilst foreign currency payables and receivables are largely offsetting during the year, the Group monitors and manages the associated currency risks in order to reduce the impact of market risk volatility, therefore no further sensitivity analysis has been provided.

Price risk

Price risk encompasses the potential for adverse effects on an entity's financial performance due to fluctuations in the prices of purchased goods and services, influenced by varying market conditions. To counter the risk, the Group consistently evaluates purchase prices as a routine operation, strategically determining the best timing and quantity for each acquisition.

Credit risk management

Credit risk is the risk that a contracting entity will not complete its obligations under a financial instrument and cause a financial loss to the Group.

The credit risk on financial assets of the Group that have been recognised in the statement of financial position is the carrying amount, net of any provision for doubtful debts. The Group minimises credit risk by performing credit assessments on all new customers, and continuing major customers, and where necessary, obtaining advance payments.

Ongoing credit evaluation is performed on the financial condition of customers and, where appropriate, an allowance for doubtful debts is raised.

Note 21. Financial instruments (continued)

The Group does not have any credit risk arising from money market instruments, foreign currency contracts, cross currency and interest rate swaps.

Liquidity risk management

Liquidity risk includes the risk that, as a result of the Group's operational liquidity requirements, the Group:

- will not have sufficient funds to settle a transaction on the due date;
- will be forced to sell financial assets at a value which is less than what they are worth;
- may be unable to settle or recover a financial asset at all.

To help reduce these risks the Group:

- has a liquidity policy which targets a minimum and average level of cash and cash equivalents to be maintained; and
- monitors forecast cash flows and endeavours to ensure that adequate borrowing facilities are maintained and/or maturity dates are managed appropriately.

The Group's exposure to liquidity risk on classes of financial assets and financial liabilities, is as follows:

	1 year \$'000	1 - 5 years \$'000	Total contractual cash flows \$'000
2023			
<i>Asset/Liability class</i>			
Cash and cash equivalents	4,951	-	4,951

Increase in trade and other payables	318	2,813
Increase in employee benefits	235	2
Increase/(decrease) in provision for warranty costs	106	(16)
Increase in provision for stock obsolescence	1,103	120
Net cash from operating activities	<u>2,415</u>	<u>326</u>

Note 24. Key management personnel disclosures

Compensation

The aggregate compensation made to directors and other members of key management personnel of the Group is set out below:

	Consolidated	
	30 June 2023	30 June 2022
	\$'000	\$'000
Short-term employee benefits	1,260	1,111
Post-employment benefits	106	104
Long-term benefits	24	15
Termination benefits	-	-
Share-based payments	110	46
	<u>1,500</u>	<u>1,276</u>

Note 25. Share-based payments

Share Option Incentive Plan

Share options under the Share Option Incentive Plan are granted at the discretion of the directors based on terms and conditions set out in the Company's Share Option Incentive Plan. The directors may at any time and from time to time determine eligible persons for the purposes of the option plan and select amongst those eligible persons participants who will be invited to participate in the option plan.

Options issued to directors pursuant to the option plan will be subject to approval of shareholders in general meeting, in compliance with the Listing Rules.

Note 25. Share-based payments (continued)

The following table illustrates the number (No.) and weighted average exercise prices (WAEP) and movements in share options issued under the Share Option Incentive Plan during the year for the Company:

	30 June 2023	WAEP	30 June 2022	WAEP
	No.	\$	No.	\$
Outstanding at the beginning of the financial year	1,130,798	-	-	-
Granted during the financial year	1,100,000	0.3000	1,130,798	0.3818
Lapsed during the financial year	-	-	-	-
Exercised during the financial year	-	-	-	-
Outstanding at the end of the financial year	<u>2,230,798</u>		<u>1,130,798</u>	
Outstanding at the date of this report	<u>2,230,798</u>		<u>1,130,798</u>	

The fair value of the options granted to Non-executive Director Mr. Mark Chartres had been determined using the Black-Scholes option value model as detailed below.

Grant date	2 December 2022
Number of options	1,100,000
Expiry date	2 December 2024
Share price at grant date	0.2282
Exercise price	0.3000
Expected volatility	50%
Risk-free interest rate	2.85%
Dividend yield	0%
Fair value of option at grant date	0.0462

Other share-based payments

On 31 December 2022, 1,500,000 share options granted to Peak Asset Management Pty Ltd on 30 November 2020 expired.

Note 26. Remuneration of auditors

During the financial year the following fees were paid or payable for services provided by RSM Australia Partners, the auditor of the company:

	Consolidated	
	30 June 2023	30 June 2022
	\$'000	\$'000
<i>Audit services</i>		
Audit or review of the financial statements	<u>110</u>	<u>80</u>

Note 27. Related party transactions

Parent entity

Beam Communications Holdings Limited is the parent entity.

Subsidiaries

Interests in subsidiaries are set out in Note 30.

Note 27. Related party transactions (continued)

Note 31. Events after the reporting period

No matter or circumstance has arisen since 30 June 2023 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Beam Communications Holdings Limited
DIRECTORS' DECLARATION
30 June 2023

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in Note 1 to the financial statements;
- the attached financial statements and notes give a true and fair view of the Group's financial position as at 30 June 2023 and of its performance for the financial year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the directors

Mr Simon Wallace

INDEPENDENT AUDITOR'S REPORT

To the Members of Beam Communications Holdings Limited

Opinion

We have audited the financial report of Beam Communications Holdings Limited ('the Company') and its subsidiaries (together 'the Group'), which comprises the consolidated statement of financial position as at 30 June 2023, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (i) giving a true and fair view of the Group's financial position as at 30 June 2023 and of its financial performance for the year then ended; and
- (ii) complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed this matter
Impairment of Intangible Assets Refer to Note 14 in the financial statements	
<p>The Group has intangible assets of \$8.9m, being capitalised development costs relating to multiple projects.</p> <p>Management have performed an impairment assessment for material project assets based on a value in use calculation, which determined that no impairment had occurred.</p> <p>We identified this area as a Key Audit Matter due to the size of the intangible assets balance, the management judgement required to assess whether any indicators of impairment exist, and where any indicators of impairment existed, management judgement involved in determining the value in use of the relevant assets based on the estimated future cash flows generated.</p>	<p>Our audit procedures in relation to intangible assets included:</p> <ul style="list-style-type: none"> Assessing management's review for any indicators of impairment; Where indicators existed, assessing management's impairment test by checking the mathematical accuracy of the cash flow model, and reconciling input data to supporting evidence, such as approved budgets and considering the reasonableness of these budgets; Challenging the reasonableness of key assumptions, including the cash flow and revenue projections, exchange rates, discount rates, and any sensitivities used; Confirming our understanding of the nature of the intangible assets, the strategic purpose of the projects and its ability to generate future revenues through reviewing contracts in place and discussions with management; and Reviewing the adequacy of disclosures against the requirements of AASB 136.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2023, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: www.auasb.gov.au/auditors_responsibilities/ar2.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2023.

In our opinion, the Remuneration Report of Beam Communications Holdings Limited., for the year ended 30 June 2023, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
