Dear Ms Peck,

I refer your Price Query dated 22 August 2005.

In response to your first question, Sirtex is not aware of any information concerning it that has not been announced, which, if known, could be an explanation of recent trading in its securities. Your second question is not applicable in light of our answer to your first question.

In response to your third question, the draft financial statements of Sirtex for the year ended 30 June 2005 are in the course of preparation but they have neither been considered by the Directors and nor have they been audited. For the year ended 30 June 2004 Sirtex suffered an operating loss before abnormal items and tax. Based on the draft financial statements this loss will be greater by more than 15% for the year ended 30 June 2005.

In response to your fourth question, there is no reason to believe that Sirtex will record any material abnormal or extraordinary profit for the financial year ended 30 June 2005.

Yours sincerely,

Angela Talbot
Company Secretary
Sirtex Medical Ltd

Dear Ms Talbot

RE: PRICE QUERY Sirtex Medical Limited (the "Company")

We have noted a change in the price of the Company's securities from \$1.90 on 15 August 2005 to \$2.45 today.

In light of the price change, please respond to each of the following questions.

1. Is the Company aware of any information concerning it that has not been announced which, if known, could be an explanation for recent trading in the securities of the Company?
2. If the answer to question 1 is yes, can an announcement be made immediately? If not, why not and when is it expected that an announcement will be made?

Please note, if the answer to question 1 is yes and an announcement cannot be made immediately, you need to contact us to discuss this and you need to consider a trading halt (see below).

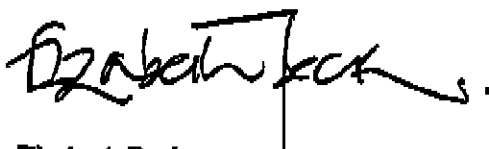

3. Is there any reason to think that there may be a change in the operating profit before abnormal items and income tax so that the figure for the financial year ended June 2005 would vary from the previous year by more than 15%? If so, please provide details as to the extent of the likely variation.
4. Is there any reason to think that the Company may record any material abnormal or extraordinary profit for the financial year ended June 2005? If so, please provide details.

- Any other information necessary to inform the market about the trading halt, or that we ask for.

The trading halt cannot extend past the commencement of normal trading on the second day after the day on which it is granted. If a trading halt is requested and granted and you are still unable to reply to this letter before the commencement of trading, suspension from quotation would normally be imposed by us from the commencement of trading if not previously requested by you. The same applies if you have requested a trading halt because you are unable to release information to the market, and are still unable to do so before the commencement of trading.

If you have any queries regarding any of the above, please let me know.

Yours sincerely,

Elizabeth Peck

Senior Companies Adviser
