**Announcement: Dexion to fulfil \$20m Coles Myer contract**

We enclose the following announcement for immediate release to the market.

Yours faithfully

**T. Clayton**  
**Company Secretary**

7<sup>th</sup> November 2005

**Announcement:**  
**Dexion to fulfil \$20m Coles Myer contract**

Dexion Limited (DEX), Australia's leading storage solutions and equipment supplier, today announced the signing of a contract with Coles Myer Limited (CML) to provide storage equipment for the retailer's new nationwide distribution centres.

The contract is to provide pallet racking for up to eight new distribution centres and is worth in excess of \$20m over two years. Work will commence in the first half of 2006 and continue throughout 2007.

Dexion Managing Director, Brent Fuller, said that he was looking forward to working with Coles Myer on their food and liquor Supply Chain distribution centre network transformation. "We understand that this is a significant undertaking by Coles Myer and we are pleased to be part of it. We believe that our ability to service and maintain equipment on a national, on-going basis; the company's 55 year reputation for providing safe, quality products; and the project management focus of our Logistics Division will be of great benefit to Coles Myer's transformation".
