## Anticipated revenue for December 2005 quarter

SYDNEY, Australia – December 29, 2005 – Altium Limited (ASX: ALU), a leading developer of Windows-based electronics design software, under its continuous disclosure obligations, today advises the market that it anticipates the reported Australian dollar revenue in the December 2005 quarter to be in the order of 10%-13% greater than the reported December 2004 quarter revenue, as announced to the market on January 19, 2005.

The company will provide further details to the market on the quarterly revenue results in January 2006 once the December quarter revenue has been finalised.

## About Altium Limited

Altium Limited (ASX: ALU) is a global developer and supplier of electronics design software for the Microsoft Windows environment. Founded in 1985, Altium released the world's first Microsoft Windows-based printed circuit board design tool in 1991, and continues to provide advanced, easy-to-use and affordable software design tools for complete electronic product development to electronics engineers, designers, and developers worldwide. Altium is headquartered in Sydney, Australia, with sales and support offices in Australia, the United States, Japan, China and Europe – and maintains a large reseller network in all other major markets.
