12 January, 2006

## Profit Forecast for the Half Year to 31 December 2005

Wridgways Australia Limited is pleased to announce an estimated 20-25% increase in profit after tax for the half year to 31 December 2005. Revenue is estimated to increase by 10% above the corresponding previous year.

Continued strong growth in import and export business combined with a high demand for domestic services during the month of December contributed to the forecast increase in revenue and profit.

Wridgways is due to formally announce its actual half year result on 9 February 2006. Further details will be released at that time.
