ANNUAL REPORT 30 JUNE 2021

DIRECTORS' REPORT

The Directors of Fargo Enterprises Limited (Formerly Flamingo Al Limited) ("the Company") present their report, together with the financial statements of the Company and its controlled entities ("the Group" or "the Consolidated Entity") for the financial year ended 30 June 2021.

Directors

The names and the particulars of the Directors of the Company during or since the end of the financial year are:

Name	Status	Appointment/Resignation date
Dr Catriona Wallace	Non-Executive Director	Appointed 3 November 2016
Mr Zane Lewis	Non-Executive Director	Appointed 21 November 2019
Mr Phillip Coulson	Non-Executive Director	Appointed 29 January 2021
Mr Bryn Hardcastle	Non-Executive Director	Appointed 5 March 2020, Resigned 29 January 2021

Principal activities

The Group is an innovative enterprise Software as a Service (SaaS) company which has developed an Artificial Intelligence (AI) platform (Flamingo Platform) based on Unsupervised Machine Learning technology. The Group provides Al-based products including Cognitive Virtual Assistants and a Knowledge Engine which are used by enterprises to improve their sales, service and internal knowledge processes.

During the period, the Group entered into an exclusive, binding conditional term sheet for sale of all assets of Flamingo Ai Limited relating to the Flamingo Platform (refer to further details below).

Dividends

There were no dividends paid or recommended during the financial year ended 30 June 2021 (2020: Nil).

Review of operations

The Group reported a loss after tax for the year of \$844,950 (2020: loss after tax of \$3,585,675). The net assets of the Group have decreased to \$660,437 at 30 June 2021 (2020: net asset of \$1,319,651).

The Group's cash and cash equivalents decreased from a balance of \$1,522,261 at 30 June 2020 to a balance of \$649,519 at 30 June 2021 and the Group had a net working capital surplus of \$800,700 (2020: net working capital surplus of \$1,302,997).

Significant changes in the state of affairs

During the year the Company announced that it has entered into a binding share purchase agreement ("SPA") with BDNM Investments Pty Ltd ("Purchaser") for the sale of the Company's subsidiaries Flamingo Customer Experience Inc and Flamingo Ventures Pty Ltd (the "Transaction").

The consideration for the Transaction is comprised of a \$500,000 cash payment, of which \$100,000 is to be retained under a warranty security deed for 12 months post-completion. As the Company will not incur further operational costs beyond meeting its obligations to maintain platforms to serve existing clients, the purchase price may be reduced for any prepaid revenue received before completion and also in specific circumstances where the Purchaser provides assistance in the interim period to completion with day to day operations (including engineering support) and transitioning clients.

The remaining condition to the completion of the Transaction is receipt of approval by the Foreign Review Investment Board (FIRB). There is a risk the Transaction may not proceed if FIRB approval is not received. In the event the Transaction does not proceed, the Company will continue to explore all options in respect of the Flamingo AI business operations.

Fargo continues to operate the business with the assistance of the Purchaser, providing services to existing customers such as HSBC Australia. In addition, the Purchaser intends to continue development of the Flamingo AI Smart Hub in line with existing customer requirements and it will promote the Smart Hub product to prospective clients in both Australia and the US.

Total			24,596,867

During the year and up to the date of this report, no options were exercised.

No option holder has any right under the options to participate in any other share issue of the Company or of any associated entity.

Performance rights

At the date of this report, the Company had the following performance rights on issue:

Grant date	Performance right class	Expiration date	Number of rights issued
10 April 2018	Class E	10 October 2021	4,000,000
1 October 2018	Class H	1 October 2021	4,000,000
1 October 2018	Class I	1 October 2021	4,000,000
Total			12,000,000

Class	Performance milestone
Class E	Flamingo achieves \$13,000,000 in Revenue in any 12-months period within 36 months of 4 November 2019
Class H	Upon volume weighted average price (VWAP) for 10 consecutive trading days of shares equals or exceeds 10 cents, within 36 months from date of issue
Class I	Upon volume weighted average price (VWAP) for 10 consecutive trading days of shares equals or exceeds 6 cents, within 36 months from date of issue

At the grant date, the Class E performance rights, with non-market vesting conditions, have been valued by reference to the prevailing share price at the grant date. No expense has been recognised in the current year in respect of these performance rights due to the uncertainty of meeting the performance milestones, which are based on future events.

The fair value of the Class H and I performance rights, with market linked vesting conditions, have been valued at the grant date by reference to the prevailing share price at that date, and adjusted for managements best estimate of achieving the respective performance milestones. The fair value of the Class H and I performance rights is being recognised equally over a 36-month vesting period.

Proceedings on behalf of Company

No person has applied for leave of Court to bring proceedings on behalf of the Company or intervene in any proceedings to which the Company is a party for the purpose of taking responsibility on behalf of the Company for all or any part of those proceedings. The Company was not a party to any such proceedings during the year.

Indemnifying officers

The Company indemnifies each of its directors, officers and company secretary. The Company indemnifies each director or officer to the maximum extent permitted by the Corporations Act 2001 from liability to third parties, except where the liability arises out of conduct involving lack of good faith, and in defending legal and administrative proceedings and applications for such proceedings.

The Company must use its best endeavours to insure a director or officer against any liability, which does not arise out of conduct constituting a wilful breach of duty or a contravention of the Corporations Act 2001. The Company must also use its best endeavours to insure a Director or officer against liability for costs and expenses incurred in defending proceedings whether civil or criminal.

Insurance premiums

During the year, the Company paid insurance premiums to insure directors and officers against certain liabilities arising out of their conduct while acting as an officer of the Group. Under the terms and conditions of the insurance contract, the nature of the liabilities insured against and the premium paid cannot be disclosed.

Environmental regulations

In the normal course of business, there are no environmental regulations or requirements that the Group is subject to.

Likely developments and expected results of operations

During the year the Company announced that it has entered into a binding share purchase agreement ("SPA") with BDNM Investments Pty Ltd ("Purchaser") for the sale of the Company's subsidiaries Flamingo Customer Experience Inc and Flamingo Ventures Pty Ltd (the "Transaction").

The remaining condition to the completion of the Transaction is receipt of approval by the Foreign Review Investment Board (FIRB). There is a risk the Transaction may not proceed if FIRB approval is not received. In the event the Transaction does not proceed, the Company will continue to explore all options in respect of the Flamingo Al business operations.

Fargo continues to operate the business with the assistance of the Purchaser, providing services to existing customers such as HSBC Australia. In addition, the Purchaser intends to continue development of the Flamingo AI Smart Hub in line with existing customer requirements and it will promote the Smart Hub product to prospective clients in both Australia and the US.

Matters subsequent to the end of the financial year

Remuneration Report (Audited)

This remuneration report for the year ended 31 June 2021 outlines the remuneration arrangements of the Group in accordance with the requirements of the *Corporations Act 2001* (Cth), as amended (**Act**) and its regulations. This information has been audited as required by section 308(3C) of the Act.

The remuneration report is presented under the following sections:

- 1. Introduction
- 2. Remuneration governance
- 3. Executive remuneration arrangements
- 4. Director fee arrangements
- 5. Performance conditions linked to remuneration
- 6. Details of remuneration
- 7. Additional disclosures relating to equity instruments
- 8. Loans to key management personnel (KMP) and their related parties
- 9. Other transactions and balances with KMP and their related parties
- 10. Voting of shareholders at least years AGM

1. Introduction

Key Management Personnel (KMP) have authority and responsibility for planning, directing and controlling the major activities of the Group. KMP comprise the directors of the Company and identified key management personnel.

Compensation levels for KMP are competitively set to attract and retain appropriately qualified and experienced directors and executives. The Board may seek independent advice on the appropriateness of compensation packages, given trends in comparable companies both locally and internationally and the objectives of the Group's compensation strategy.

2. Remuneration governance

The Directors believe the Group is not currently of a size nor are its affairs of such complexity as to warrant the establishment of a separate remuneration committee. Accordingly, all matters are considered by the full Board of Directors, in accordance with a remuneration committee charter.

During the financial year, the Group did not engage any remuneration consultants.

3. Executive remuneration arrangements

The compensation structures are designed to attract suitably qualified candidates, reward the achievement of strategic objectives, and achieve the broader outcome of creation of value for shareholders. Compensation packages may include a mix of fixed compensation, equity-based compensation, as well as employer contributions to superannuation funds. Shares and options may only be issued subject to approval by shareholders in a general meeting.

At the date of this report the Group, the executive agreements with both Mr Olivier Cauderlier (CEO from 11 July 2019 until 17 August 2020) and Dr Catriona Wallace (Founder & Head of Business Development until 17 August 2020, after which she retained the role of Non-Executive Director) have ended.

The terms of their Executive Employment Agreements while they were effective during the year are summarised in the following table.

4. Director fee arrangements

The Board policy is to remunerate Directors at a level to comparable companies for time, commitment, and responsibilities. Directors may receive performance related compensation. Directors' fees cover all main Board activities and membership of any committee. The Board has no established retirement or redundancy schemes in relation to Directors.

The maximum aggregate amount of fees that can be paid to Non-Executive Directors is presently limited to an aggregate of \$500,000 per annum and any change is subject to approval by shareholders at the General Meeting. Fees for Directors are not linked to the performance of the Company, however, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company.

Total fees for the Directors for the financial year were \$170,764 (2020: \$340,442) and cover main Board activities only. Directors may receive additional remuneration for other services provided to the Group.

ANNUAL REPORT 30 JUNE 2021

CONSOLIDATED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2021

These consolidated financial statements cover Fargo Enterprises Limited (Formerly Flamingo Al Limited) (the **Company**) and the entities it controlled for all or part of the financial year (also referred to as the **Consolidated Entity** or the **Group**). Fargo Enterprises Limited (Formerly Flamingo Al Limited) is a company limited by shares, incorporated and domiciled in Australia. The Group is a for-profit entity.

The financial statements were issued by the board of directors on 20 September 2021.

The following is a summary of the material accounting policies adopted by the consolidated entity in the preparation and presentation of the financial report. The accounting policies have been consistently applied, unless otherwise stated. Where applicable, comparative figures have been reclassified to conform to the financial statement presentation adopted for the current year.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of preparation of the financial report

a) Statement of compliance

These financial statements are general purpose financial statements which have been prepared in accordance with Australian Accounting Standards (AASBs) (including Australian Interpretations) adopted by the Australian Accounting Standards Board (AASB), International Financial Reporting Standards (IFRSs), and the Corporations Act 2001.

b) Going concern

For the year ended 30 June 2021 the consolidated entity recorded a loss of \$844,950 (30 June 2020: loss \$3,585,675), net cash outflows from operating activities of \$861,907 (30 June 2020: outflows \$3,695,797), and net assets of \$660,437 as at that date (30 June 2020: net assets \$1,319,651). Of the cash outflows from operating activities for the year ended 30 June 2021, \$507,048 related to discontinued operations.

The financial statements have been prepared on the basis that the consolidated entity is a going concern, which contemplates the continuity of normal business activity, realisation of assets and liabilities in the normal course of business for the following reasons:

- As described in Note 24, subsequent to year end the Company has entered into a transaction to acquire Odessa Minerals Limited for ~196m Ordinary Fargo shares and ~98m unquoted options with an exercise price of \$0.04 and a 4-year expiry date. Under the transaction, Fargo will issue a Prospectus to raise a minimum of \$4 million at \$0.02 per share; and
- As described in Note 10, during the year the Company entered into a binding share purchase agreement with BDNM
 Investments Pty Ltd for the sale of the Company's subsidiaries Flamingo Customer Experience Inc and Flamingo
 Ventures Pty Ltd. The consideration for the transaction is comprised of a \$500,000 cash payment, of which \$100,000 is
 to be retained under a warranty security deed for 12 months post-completion.

The ability of the consolidated entity to continue as a going concern is principally dependent on:

- The successful completion of the acquisition of Odessa Minerals Limited, including the associated capital raising of \$4,000,000 at \$0.02 per share;
- The successful disposal of the Company's subsidiaries and associated receipt of consideration described above; and
- The successful ongoing management of the Group's working capital.

Should the Consolidated Entity not achieve the matters set out above, there is uncertainty whether it would continue as a going concern and therefore whether it would realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial statements. The financial statements do not include any adjustment relating to the recoverability or classification of recorded asset amounts or to the amounts or classifications of liabilities that might be necessary should the Entity not be able to continue as a going concern.

ANNUAL REPORT 30 JUNE 2021

CONSOLIDATED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

c) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Fargo Enterprises Limited (Formerly Flamingo Al Limited) ('company' or 'parent entity') as at 30 June 2021 and the results of all subsidiaries for the year then ended. Flamingo and its subsidiaries together are referred to in these financial statements as the 'Group'.

Subsidiaries are all those entities over which the Group has control. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the consolidated entity. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities within the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the consolidated entity. Losses incurred by the consolidated entity are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the Group loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Group recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

d) Income tax

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses. Current and deferred income tax expense (income) is charged or credited directly to equity instead of the profit or loss when the tax relates to items that are credited or charged directly to equity.

Deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

ANNUAL REPORT 30 JUNE 2021

CONSOLIDATED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

e) Income tax (continued)

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

f) Financial instruments

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. Such assets are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on both the business model within which such assets are held and the contractual cash flow characteristics of the financial asset unless, an accounting mismatch is being avoided.

Financial assets are derecognised when the rights to receive cash flows have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership. When there is no reasonable expectation of recovering part or all of a financial asset, it's carrying value is written off.

Financial assets at fair value through profit or loss

Financial assets not measured at amortised cost or at fair value through other comprehensive income are classified as financial assets at fair value through profit or loss. Typically, such financial assets will be either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit, or a derivative; or (ii) designated as such upon initial recognition where permitted. Fair value movements are recognised in profit or loss.

Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income include equity investments which the consolidated entity intends to hold for the foreseeable future and has irrevocably elected to classify them as such upon initial recognition.

Impairment of financial assets

The consolidated entity recognises a loss allowance for expected credit losses on financial assets which are either measured at amortised cost or fair value through other comprehensive income. The measurement of the loss allowance depends upon the consolidated entity's assessment at the end of each reporting period as to whether the financial instrument's credit risk has increased significantly since initial recognition, based on reasonable and supportable information that is available, without undue cost or effort to obtain.

Where there has not been a significant increase in exposure to credit risk since initial recognition, a 12-month expected credit loss allowance is estimated. This represents a portion of the asset's lifetime expected credit losses that is attributable to a default event that is possible within the next 12 months. Where a financial asset has become credit impaired or where it is determined that credit risk has increased significantly, the loss allowance is based on the asset's lifetime expected credit losses. The amount of expected credit loss recognised is measured on the basis of the probability weighted present value of anticipated cash shortfalls over the life of the instrument discounted at the original effective interest rate.

For financial assets measured at fair value through other comprehensive income, the loss allowance is recognised within other comprehensive income. In all other cases, the loss allowance is recognised in profit or loss.

ANNUAL REPORT 30 JUNE 2021

CONSOLIDATED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

g) Impairment of non-financial assets

At the end of each reporting period, the consolidated entity assesses whether there is any indication that an asset may be impaired. The assessment will include the consideration of external and internal sources of information, including dividends received from subsidiaries, associates or jointly controlled entities deemed to be out of pre-acquisition profits.

If any such indication exists, an impairment test is carried out on the asset by comparing the asset's recoverable amount, being the higher of its fair value less costs to sell and its value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss. Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

h) Intangible assets (including development assets)

Acquired intangible assets are measured on initial recognition at cost including directly attributable costs. Intangible assets acquired in a business combination are measured on initial recognition at fair value at the acquisition date.

Internally developed intangible assets (referred to as development assets) are initially recognised at cost, including directly attributable costs.

Intangible assets with indefinite useful lives are not systematically amortised and are tested for impairment annually. The useful life of these assets is reviewed annually to determine whether their indefinite life assessment continued to be supportable. If the events and circumstances do not continue to support the assessment, the change in the useful life assessment from indefinite to finite is accounted for prospectively as a change in accounting estimate and on that date the asset is tested for impairment.

i) Cash and cash equivalents

Cash and cash equivalents include cash on hand, and deposits available on demand with banks with original maturity of three months or less.

j) Leases

The Group as lessee

At inception of a contract, the Group assesses if the contract contains or is a lease. If there is a lease present, a right-of-use asset and a corresponding lease liability are recognised by the Group where the Group is a lessee. However, all contracts that are classified as short-term leases (ie a lease with a remaining lease term of 12 months or less) and leases of low-value assets are recognised as a operating expenses on a straight-line basis over the term of the lease.

Initially the lease liability is measured at the present value of the lease payments still to be paid at the commencement date. The lease payments are discounted at the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses the incremental borrowing rate.

Lease payments included in the measurement of the lease liability are as follows:

- fixed lease payments less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options;
- lease payments under extension options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

ANNUAL REPORT 30 JUNE 2021

CONSOLIDATED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The right-of-use assets comprise the initial measurement of the corresponding lease liability, any lease payments made at or before the commencement date and any initial direct costs. The subsequent measurement of the right-of-use assets is at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shortest.

Where a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group anticipates to exercise a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

Where a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group anticipates exercising a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

Revenue

Revenue recognition

The Group recognises revenue as follows:

Revenue from contracts with customers

Revenue is recognised at an amount that reflects the consideration to which the Group is expected to be entitled in exchange for transferring goods or services to a customer. For each contract with a customer, the Group identifies the contract with a customer; identifies the performance obligations in the contract; determines the transaction price which takes into account estimates of variable consideration and the time value of money; allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Time based and fixed fee consulting

The Group's performance obligations in relation to time based and fixed fee consulting are defined within client contracts. The activities in the consulting contracts are considered to be highly interrelated, with clients being provided integrated services.

Revenue in relation to time-based consulting is recognised over time, as services are delivered, with revenue being calculated based on time incurred and material used.

ABN 99 000 031 292

ANNUAL REPORT 30 JUNE 2021

CONSOLIDATED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue in relation to fixed fee consulting is recognised over time, as the customer simultaneously receive and consume the benefit of financial advice and consulting services.

Interest revenue is recognised using the effective interest method, which for floating rate financial assets is the rate inherent in the instrument.

Revenue relating to government grants and the receipt of R&D tax credits from the Australian Government are recorded on an accrual basis. It is accrued in the period relating to which the relevant authority has a definite legal obligation to provide the grant.

Other revenue is recognised when it is received or when the right to receive payment is established.

All revenue is stated net of the amount of goods and services tax.

m) Goods and Services Tax (GST)

Revenues and expenses, are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of the GST recoverable from, or payable to, the ATO is included with other receivables and payables in the statement of financial position.

Cash flows are presented in the statement of cash flows on a gross basis, except for the GST component of investing and financing activities, which are disclosed as operating cash flows.

n) Employee benefits

Provision is made for the Group's liability for employee benefits arising from services rendered by employees during the reporting period.

Employee benefits that are expected to be settled within 12 months have been measured at the amounts expected to be paid when the liability is settled. Employee benefits payable later than 12 months have been measured at the present value of the estimated future cash outflows to be made for those benefits. No employee benefits payable later than 12 months have been recognised in the current period.

o) Share-based payments

The Group operates an employee share and option plan. Share-based payments to employees are measured at the fair value of the instruments issued and amortised over the vesting periods. The fair value of performance right options is determined using the satisfaction of certain performance criteria ('performance milestones').

The number of share options and performance rights expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognised for services received as consideration for the equity instruments granted is based on the number of equity instruments that eventually vest. The fair value is determined using either a Black Scholes model (options) or by reference to the prevailing share price at the grant date, adjusted for management's best estimate of achieving the performance milestones attached to the issue (performance rights/shares).

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

p) Equity and reserves

Share capital represents the fair value of shares that have been issued. Any direct transaction costs associated with the issuing of shares are deducted from share capital, net of any related income tax benefits.

The share based payment reserve records the value of share-based payments.

q) Foreign currency transactions and balances

Functional and presentation currency

The functional currency of each entity within the Group is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the legal Parent's functional currency.

Transaction and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the profit or loss.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the underlying gain or loss is recognized other comprehensive income; otherwise the exchange difference is recognised in profit or loss.

Group companies

The financial results and position of foreign operations whose functional currency is different from the Group's presentation currency are translated as follows:

- assets and liabilities are translated at year-end exchange rates prevailing at that reporting period;
- income and expenses are translated at average exchange rates for the period; and
- retained earnings are translated at the historical exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations with functional currencies other than Australian dollars are recognised in other comprehensive income and included in the foreign currency translation reserve in the statement of financial position. These differences are recognised in the profit or loss in the period in which the operation is disposed.

r) Segment information

Identification of reportable segments

The consolidated entity has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (the chief operating decision makers) in assessing performance and in determining the allocation of resources. There is currently one reportable segment.

ANNUAL REPORT 30 JUNE 2021

CONSOLIDATED NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2021

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

s) Earnings per share

Basic earnings per share is calculated by dividing:

- the loss attributable to the members of the parent entity, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year (if any).

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after-income tax effect of interest and other financing costs associated with dilutive potential ordinary shares; and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

t) Assets classified as held-for-sale and discontinued operations

A discontinued operation is a component of an entity that either has been disposed of, or that is classified as held-for-sale and:

- represents a separate major line of business or geographical area of operations;
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographical are of operations; or
- is a subsidiary acquired exclusively with a view to resale.

Non-current assets (or disposal groups) are classified as assets held-for-sale and carried at the lower of carrying amount and fair value less costs to sell if their carrying amount is recovered principally through a sale transaction rather than through continuing use. The assets are not depreciated or amortised while they are classified as held-for-sale. Any impairment loss on initial classification and subsequent measurement is recognised as an expense. Any subsequent increase in fair value less costs to sell (not exceeding the accumulated impairment loss that has been previously recognised) is recognised in profit or loss.

Critical accounting estimates and judgements

The directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Impairment

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating unit based on expected future cash flows and uses an interest rate to discount them. The consolidated entity reviews intangible assets for impairment once a year, or more frequently if events or changes in circumstances indicate that there is impairment.

Share-based payments

Share-based payments are measured at the fair value of goods or services received or the fair value of the equity instruments issued, if it is determined the fair value of the goods or services cannot be reliably measured and are recorded at the date the goods or services are received. The fair value of options is determined using the Black-Scholes pricing model. The number of shares and options expected to vest is reviewed and adjusted at the end of each reporting period such that the amount recognised for services received as consideration for the equity instruments granted is based on the number of equity instruments that eventually vest.

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New or amended Accounting Standards and Interpretations adopted

The consolidated entity has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period. None of the adopted Accounting Standards and Interpretations had any material effect on the consolidated entity's accounting treatments. Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Standards and Interpretations in issue not yet adopted

At the date of authorisation of the financial report, a number of Standards and Interpretations including those Standards and Interpretations issued by the IASB/IFRIC, where an Australian equivalent has not been made by the AASB, were in issue but not yet effective for which the Entity has considered it unlikely for there to be a material impact on the financial statements.

As disclosed in Note 10, the Group's subsidiary's Flamingo Customer Experience Inc and Flamingo Ventures Pty Ltd are discontinued operations. There was no tax expense relating to the discontinued operations in the current or previous year, and the Group does not expect to carry forward any tax losses in these entities after the expected disposal.

Carry forward losses

As disclosed in Note 22, the Group has entered into a transaction to acquire Odessa Minerals Limited. Should this transaction be completed, there is uncertainty as to whether tax losses may be carried forward.

Given the above, and because the Directors do not believe the realisation of the future income tax benefits as probable, assessable future income tax benefits attributable to tax losses carried forward have not been brought to account at 30 June 2021.

NOTE 10: DISCONTINUED OPERATIONS

During the year the Company announced that it has entered into a binding share purchase agreement ("SPA") with BDNM Investments Pty Ltd ("Purchaser") for the sale of the Company's subsidiaries Flamingo Customer Experience Inc and Flamingo Ventures Pty Ltd (the "Transaction").

The consideration for the Transaction is comprised of a \$500,000 cash payment, of which \$100,000 is to be retained under a warranty security deed for 12 months post-completion. As the Company will not incur further operational costs beyond meeting its obligations to maintain platforms to serve existing clients, the purchase price may be reduced for any prepaid revenue received before completion and also in specific circumstances where the Purchaser provides assistance in the interim period to completion with day to day operations (including engineering support) and transitioning clients.

The remaining condition to the completion of the Transaction is receipt of approval by the Foreign Review Investment Board (FIRB). There is a risk the Transaction may not proceed if FIRB approval is not received. In the event the Transaction does not proceed, the Company will continue to explore all options in respect of the Flamingo AI business operations.

Fargo continues to operate the business with the assistance of the Purchaser, providing services to existing customers such as HSBC Australia. In addition, the Purchaser intends to continue development of the Flamingo Al Smart Hub in line with existing customer requirements and it will promote the Smart Hub product to prospective clients in both Australia and the US.

As described in Note 22, subsequent to year end the Company has entered into a transaction to acquire Odessa Minerals Limited. A condition precedent to the completion of the transaction is the completion of the disposal of the existing business.

(c) Capital Management

Due to the nature of the Group's activities, the Group does not have ready access to credit facilities, with the primary source of funding being equity raisings. Therefore, the focus of the Group's capital risk management is the current working capital position against the requirements of the Group to meet research and development programs and corporate overheads. The Group's strategy is to ensure appropriate liquidity is maintained to meet anticipated operating requirements, with a view to initiating appropriate capital raisings as required. Any surplus funds are invested with major financial institutions.

NOTE 16: OPERATING SEGMENTS

The Group has identified its operating segment based on internal reports that are reviewed by the Board and management. The company has determined that it has one operating segment. The Board does not identify separate segments for internal management reporting hence no segment information has been reported.

NOTE 17: FINANCIAL INSTRUMENTS

Financial risk management policies

The Group's financial instruments consist mainly of deposits with banks, accounts receivable and accounts payable. The main purpose of non-derivative financial instruments is to raise finance for the Group's operations.

Specific financial risk exposures and management

The main risk the Group is exposed to through its financial instruments are market risk (including fair value and interest rate risk), cash flow interest rate risk, credit risk, foreign currency risk and liquidity risk.

(a) Interest Rate Risk

From time to time the Group has significant interest-bearing assets, but they are as a result of the timing of equity-raising and capital expenditure rather than a reliance on interest income. The interest rate risk arises on the rise and fall of interest rates.

⁽ii) All employee options vest on the following basis; 1/3 vest on one-year anniversary of the grant date of the option with 1/36 vesting each month after the initial vesting date until all options have vested. Employee share options expired during the year have been removed from the table above.

NOTE 17: FINANCIAL INSTRUMENTS (CONTINUED)

The Group's income and operating cash flows are not expected to be materially exposed to changes in market interest rates in the future and the exposure to interest rates is limited to the cash and cash equivalents balances.

The Group's exposure to interest rate risk, which is the risk that a financial instrument's value will fluctuate as a result of changes in market interest rates and the effective weighted average interest rates on classes of financial assets and financial liabilities, is below:

	Floating interest rate	Non- interest bearing	2021 Total	Floating interest rate	Non- interest bearing	2020 Total

Sensitivity analysis

The following table illustrates sensitivities to the consolidated entity's exposures to changes in interest rates. The table indicates the impact on how profit or equity values reported at reporting date would have been affected by changes in the relevant risk variable that management considers to be reasonably possible. These sensitivities assume that the movement in a particular variable is independent of other variables.

NOTE 17: FINANCIAL INSTRUMENTS (CONTINUED)

(b) Credit risk

The maximum exposure to credit risk is limited to the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements.

Credit risk related to balances with banks and other financial institutions is managed by the Group in accordance with approved Board policy. Such policy requires that surplus funds are only invested with counterparties with a Standard and Poor's rating of at least AA-. The following table provides information regarding the credit risk relating to cash and money market securities based on Standard and Poor's counterparty credit ratings.

	Note	30 June 2021 \$	30 June 2020 \$
Cash and cash equivalents - AA Rated	8(a)	649,519	1,522,261

(c) Liquidity risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages liquidity risk by maintaining adequate reserves by continuously monitoring forecast and actual cash flows.

The Group has no access to credit standby facilities or arrangements for further funding or borrowings in place. The financial liabilities of the Group are confined to trade and other payables as disclosed in the statement of financial position. All trade and other payables are non-interest bearing and due within 12 months of the reporting date.

(d) Net fair value of financial assets and liabilities

Fair value estimation

Due to the short-term nature of the receivables and payables of the Group, the carrying value approximates fair value.

(e) Financial arrangements

The consolidated entity had no other financial arrangements in place at 30 June 2021 based on the information available to the current board (30 June 2020: none).

(f) Currency risk

The currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not the consolidated entity's functional currency. The consolidated entity is exposed to foreign exchange risk arising from various currency exposures primarily with respect to the US \$.

The Group's policy is not to enter into any currency hedging transactions.

The Group's foreign currency risk is predominantly associated with the discontinued operations described in Note 11. Following the expected disposal, the risk in relation to foreign currency would be expected to be low.

NOTE 22: EVENTS SUBSEQUENT TO REPORTING DATE

On 23 August 2021, the Company announced that it has entered into a binding Terms Sheet to acquire Odessa Minerals Limited. Odessa has agreed to acquire a 90% interest in the Aries Project, Calwynyardah Project and Aries Extension Project, as well as 11 applications for exploration licences, which are located in the Kimberley region of Western Australia and are highly prospective for diamonds

The acquisition consideration consists of ~196m Ordinary Fargo shares and ~98m unquoted options with an exercise price of \$0.04 and a 4-year expiry date.

As part of the transaction process, the Company intends to:

- consolidate the current shares on issue on a 5 to 1 basis, subject to shareholder approval.
- As part of The Company will issue a Prospectus to raise a minimum of \$4 million at \$0.02 per share.
- The Company will appoint Dr Darren Holden and Ms Lisa Wells as Non-Executive Directors, with Dr Catriona Wallace and Phillip Coulson resigning as Directors, and Mr Zane Lewis remaining as a Director.

The transaction is subject to various conditions precedent, including shareholder approval, the disposal of the Flamingo business (refer Note 10) and re-compliance with Chapters 1 and 2 of the Listing Rules.

Post re-listing, the Company intends to change its name to "Odessa Minerals Limited".

There were no other significant events after the reporting date.

Independent auditor's report to members

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of Fargo Enterprises Limited and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2021, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and the directors' declaration.

In our opinion, the accompanying financial report of the Group, is in accordance with the *Corporations Act 2001*, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2021 and of its financial performance for the year ended on that date; and
- (ii) Complying with Australian Accounting Standards and the *Corporations Regulations* 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material Uncertainty Related to Going Concern

We draw attention to Note 1 in the consolidated financial report, which indicates that the Group recorded a loss after tax expense of \$844,950 (30 June 2020: \$3,585,675), incurred net cash outflows from operating activities of \$861,907 (30 June 2020: 3,695,797), and maintained net assets of \$660,437 as at that date (30 June 2020: \$1,319,651).

As stated in Note 1, these events or conditions, along with matters as set forth in Note 2, indicate material uncertainty exists that may cast significant doubt about the Group's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Discontinued Operations				
Area of focus Refer also to note 1(s) and note 11	How our audit addressed it			
During the year the Group ceased the operations for its subsidiaries viz Flamingo Customer Experience Inc and Flamingo Ventures Pty Ltd. This meets the definition of discontinued operations under AASB 5 "Non-current Assets Held for Sale and Discontinued Operations"	Our audit work included, but was not limited to: — Assessing that the accounting treatment has been applied by the Group is in accordance with AASB5 Non-current Assets Held for Sale and Discontinued Operations";			
During the year ended 30 June 2021 the group incurred a loss after tax from these subsidiaries amounting to \$244,426 (2020: \$2,705,782).	 Performed audit procedures on the residual balances held within the subsidiaries as at 30 June 2021; Assessed the disclosure in the financial statements is appropriate including the restatement of the statement of profit or loss and other comprehensive income. 			

Treatment of share-based payments (including option	ons, performance rights and performance shares)
Refer also to notes 1(n) and note 17	How our audit addressed it
Accounting for share-based payments is a key audit matter due to the significance of the balances involved and the transactions occurring during the year, and the inherent complexities involved in accounting for them correctly, in line with AASB 2 'Share-Based Payments'. Management is required to identify the relevant	Our procedures included, but were not limited to: — Review of the share-based payment expense, cross-referencing material issues to supporting documentation, as well as a review of management's reconciliation of movements in the option reserve during the year; — Testing on a sample basis:
criteria of each specific share-based payment transaction (i.e. market vs. non-market conditions, vesting vs. non-vesting conditions, equity vs. cash settlement), and ensure that it is being accounted for correctly. In addition, the fair value assessment of share-based payments involves a high level of management judgement and estimation.	 Management's valuation techniques to assess the grant date fair value of share-based payments issued, verifying the reasonableness and accuracy of inputs applied; amounts recognised in the current year for issued share-based payments, in-line with the terms and conditions specified by the applicable agreement; other movements in share-based payments (including the exercise, lapsing and conversation of incentives); Ensuring sufficient and adequate disclosure in the remuneration report in regard to share-based payment transactions with key management personnel, and in the consolidated financial report at note 17 and 1(n).

Other Information

The directors are responsible for the other information. The other information comprises the information in the Group's annual report for the year ended 30 June 2021 but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of these financial statements is located at the Auditing and Assurance Standards Board website at:

https://www.auasb.gov.au/admin/file/content102/c3/ar1 2020.pdf

This description forms part of our independent auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in pages 8 to 12 of the directors' report for the year ended 30 June 2021.

In our opinion, the Remuneration Report of Fargo Enterprises Limited, for the year ended 30 June 2021 complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
