OPERATING AND FINANCIAL REVIEW

for the six months ended 30 September 2022

The difficult macro-economic environment and challenging market conditions in FY2022/2023 have significantly impacted the results for 8VI Holdings ("8VI" or "Group") in year 2022. Despite the diminished financial performance in the first half of FY2023 ("HY2023"), we continue to expect a difficult 12 to 24 months ahead as the markets reel from the cross-current of interrelated issues including economic uncertainty, persistent inflation, Federal Reserve monetary policy and strife in Ukraine.

Review of HY2023

The Group recorded revenue of S\$10.2 million in HY2023 as compared to S\$17.6 million in the corresponding period in the previous period ("HY2022"). Of that, 44.7% of our revenue is recurring.

We recorded a cash and cash equivalent of S\$20.4 million as well as short term liquid assets totalling S\$21.5 million for HY2023.

Cash flow used in operations is recorded at S\$1.7 million while free cash flow stands at negative S\$2.5 million. This result was not unexpected given the record industry growth rates last year in Financial Education and FinTech segments, coupled with the near perfect storm of

convergent events which contributed to an unstable environment for 8VI's operations which revolved primarily around investor education and investment assets. We expect continued short-term impact on our earnings as 8VI undergoes a functional shift in its organisation and operations.

Following updates from our previous annual report, 8VI has had several targeted refinements in its tactical and strategic approach in response to the overall market condition and feedback. As part of our objective to operate more efficiently in the current conditions, the Group has made a conscious decision to redirect a majority our focus and effort in growing new revenue verticals.

OPERATING AND FINANCIAL REVIEW

for the six months ended 30 September 2022

App's preliminary user experience before opting for flexible subscription products like VI Smart and VI Pro which offers enhanced features for investors. Product differentiation coupled with dedicated marketing efforts and potential licensing in other regions is expected to play a part in driving VI App's organic customer acquisition in creating a platform that caters to the holistic investing needs for the discerning investor and that of our community.

In the interest of restructuring VI App's offerings for larger scale adoption, 8BIT Global Pte. Ltd. ("8BIT") has refined its marketing and pricing strategy in July 2022 in line with VI App's Blue Ocean plans as highlighted in the previous annual report. As our transformation plans took off with the onset of the pandemic, the significant growth in our user base and community has allowed us to delve into extensive backend user data and launched refined product offerings based on the differing needs of users.

The Freemium model currently available on <https://vi.app> provides free-to-view information to the public looking for insights into VI

On a separate front, we are also seeing significant progress in 8VI's new business vertical for financial and insurance advisory in this financial year. As we approach the final stages of our licensing applications with regulatory bodies in both Singapore and Malaysia, we believe that we are at a tipping point in our plans to transform into a one-stop wealth management platform where we no longer provide just education and information, but also a growing range of complementary services in our clientele's overall wealth management journey.

In exploring and leading the conversation on the democratization of today's online world and economy,

OPERATING AND FINANCIAL REVIEW

for the six months ended 30 September 2022

VI College's focal point in the past year has been on educating the public and investing community on the emerging Web 3.0 economy, the Metaverse, Non-Fungible Tokens ("NFT") and other forms of digital assets, on top of its core investment-related programmes.

Keeping in mind the refined focus that took place in HY2023, the Group will continue to strategically invest resources into diversifying our human capital to engage and groom the right talent in strengthening our position in innovation and technology. As we make headway in our effort to offer more products in the regulated space, we have also

begun reinforcing our procedures and systems to ensure the continued compliance with the appropriate regulatory and governance standards.

The Board deeply regrets the losses incurred and is committed to work closely with the Management and stakeholders in turning the situation around expeditiously. With the team's collective effort and support from our shareholders, 8VI perseveres on its mission to empower everyone towards sustainable wealth and forges ahead while staying adaptive and innovative in the post-pandemic period.

Directors' Statement

In the opinion of the directors,

- (a) to the best of our knowledge, nothing has come to the attention of the Board of Directors of 8VI Holdings Limited (the "Company") which may render the accompanying condensed interim consolidated financial information for the six months ended 30 September 2022 to be false or misleading; and
- (b) at the date of this statement, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they fall due.

Report on Review of Condensed Interim Consolidated Financial Information to the Members of 8VI Holdings Limited

Introduction

We have reviewed the accompanying condensed interim consolidated statement of financial position of 8VI Holdings Limited and its subsidiaries (the “Group”) as of 30 September 2022 and the related condensed interim consolidated statements of comprehensive income, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes. Management is responsible for the preparation and fair presentation of this interim financial information in accordance with Financial Reporting Standards in Singapore, Interim Financial Reporting (“FRSs 34”). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Singapore Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Singapore Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim consolidated financial statements does not give a true and fair view of the consolidated financial position of the Group as at 30 September 2022, and of its consolidated financial performance, its consolidated changes in equity and its consolidated cash flows for the six-month period then ended in accordance with FRSs 34.

1. General (continued)

- (a) There are capital and financial requirements imposed on the subsidiary by the Monetary Authority of Singapore (MAS) as a licensed financial adviser.
- (i) The subsidiary is required to meet a minimum base capital of S\$250,000, by the sum of:
- 1) paid-up ordinary share capital;
 - 2) paid-up irredeemable and non-cumulative preference share capital; and
 - 3) any unappropriated profit or loss in the latest audited accounts of the Company, less any interim loss in the latest accounts and any dividend that has been declared since the latest audited accounts.
- (ii) The subsidiary is also required to maintain minimum financial requirements at the higher of S\$150,000 paid-up capital or one quarter of relevant annual expenditure of the immediately preceding financing year.
- (iii) The subsidiary is also required to maintain continuing financial requirements, net asset value of not less than:
- 1) One-quarter of its relevant annual expenditure of the immediately preceding financial year; or
 - 2) Three-quarters of the minimum paid-up capital required;
- whichever is higher.

As at 30 September 2022 and as at the date of these condensed interim consolidated financial statements, the subsidiary has met the capital and financial requirements stated above.

2. Basis of preparation and changes in accounting policies

The condensed interim consolidated financial statements of the Group have been prepared in accordance with Singapore Financial Reporting Standards 34 (FRS 34), Interim Financial Reporting.

The condensed interim consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 March 2022 and any public announcements made by 8VI Holdings Limited during the interim reporting period.

The financial statements have been prepared on the historical cost basis. The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, except for the adoption of new and amended standards as set out in Note 2.1.

The condensed interim consolidated financial statements are presented in Singapore Dollar (S\$).

2.1 Adoption of new and amended standards

A number of amendments to standards have become applicable for the current reporting period. The Group did not have to change its accounting policies or make retrospective adjustments as a result of adopting these standards.

3. Significant accounting judgements and estimates

The preparation of the Group's condensed interim consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

3.1 Judgements made in applying accounting policies

The management is of the opinion that there are no significant judgments made in applying accounting estimates and policies that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

7. Income tax expense

Income tax expense is recognised based on management's estimate of the weighted average effective annual income tax rate expected for the full financial year.

8. Earnings per share

(a) Basic earnings per share

The basic and diluted earnings per share are calculated by dividing profit net of tax by the weighted average number of ordinary shares during the financial period.

The following table reflect the profit and share data used in the computation of basic and diluted earnings per share for the periods ended 30 September 2022 and 2021:

	30.09.2022	30.09.2021
Net (loss)/profit attributable to owners of the Company (S\$)	(3,392,473)	3,841,149
Weighted average number of ordinary shares outstanding for basic earnings per share	42,367,273	42,022,049
Basic earnings per share (S\$ cents per share)	(8.01)	9.14

(b) Diluted earnings per share

For the purpose of calculating diluted earnings per share, profit attributable to owners of the Company and the weighted average number of ordinary shares outstanding are adjusted for the effects of all dilutive potential ordinary shares. The Company has two categories of dilutive potential ordinary shares: share options and performance rights.

The weighted average number of shares on issue has been adjusted as if the dilutive share options and performance rights were exercised. The number of shares that could have been issued upon the exercise of the dilutive share options and performance rights less the number of shares that could have been issued at fair value (determined as the Company's average share price for the financial period) for the same total proceeds is added to the denominator as the number of shares issued for no consideration. No adjustment is made to the net profit.

Employee share plan	36,458	990,221
	691,350	2,138,331

16. Fair value of assets and liabilities

(a) Fair value hierarchy

The Group categorises fair value measurements using a fair value hierarchy that is dependent on the valuation inputs used as follows:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date,
- Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly, and
- Level 3 – Unobservable inputs for the asset or liability.

Fair value measurements that use inputs of different hierarchy levels are categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

16. Fair value of assets and liabilities (continued)

(b) Assets measured at fair value

The following table shows an analysis of financial instruments carried at fair value by level of fair value hierarchy:

	Fair value measurements at the reporting date using		
	Quoted prices in active markets for identical instruments (Level 1)	Significant other observables inputs (Level 2)	Significant unobservable inputs (Level 3)
	S\$	S\$	S\$
As at 30 September 2022			
Financial assets:			
Financial assets, at FVPL (quoted)	975,192	-	-
Financial assets, at FVOCI (quoted)	6,746	-	-
Financial assets, at FVOCI (unquoted)	-	-	605,420
As at 31 March 2022			
Financial assets:			
Financial assets, at FVPL (quoted)	9,288,608	-	-
Financial assets, at FVOCI (quoted)	6,976	-	-
Financial assets, at FVOCI (unquoted)	-	-	34,190

There were no transfers between levels during the period.

The fair value of financial instruments traded in active markets (such as fair value through profit and loss and financial assets through other comprehensive income) is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Group is the current bid price. These instruments are included in Level 1.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The Group uses a variety of methods and makes assumptions that are based on market conditions existing at each balance sheet date. Where a valuation technique for these instruments is based on significant unobservable inputs, such instruments are classified as Level 3. Level 3 instruments include unquoted equity securities which are measured based on recent transacted prices and net asset value of the investments.

The carrying amount less impairment provision of trade receivables and payables are assumed to approximate their fair values.

17. Segment information

For management purposes, the Group is organised into geographical business units based on the management reporting structure and organisational set-up, in line with the main business divisions driving the growth of the Group. Geographically, management manages and monitors the business in two primary geographic areas namely Singapore and Malaysia, where the Company and certain subsidiaries operate. Based on the management reporting structure, management reviews the business segments' performance and to make strategic decisions.

The segment under the reporting model are as follows:

- i. **Financial Education:** involved in providing financial education in the discipline of value investing and supporting a community of value investors globally under the "VI" brand.
- ii. **Others:** included fintech business and subsidiaries that provide financial education and training in Taiwan and China.

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which in certain respects, as explained in the table below, is measured differently from operating profit or loss in the consolidated financial statements.

Transfer prices between operating segments are on arm's length basis in a manner similar to transactions with third parties.
