This presentation should not be considered as an offer or invitation to subscribe for or purchase any securities in Mineral Resources Limited and its subsidiaries (“MinRes” or “Company”) or as an inducement to make an offer or invitation with respect to those securities. No agreement to subscribe for securities in the Company will be entered into on the basis of this presentation. The information in this document should be read in conjunction with MinRes’ other periodic and continuous disclosure announcements lodged on the ASX.

The results of MinRes are recorded under Australian Accounting Standards (“AAS”). This presentation may contain certain financial data that are “Non IFRS” financial measures. Such measures include EBITDA and Underlying EBITDA. The Company believes that such “non IFRS financial measures” provide a useful means through which to examine the underlying performance of the business. These measures, however, should not be considered to be an indication of, or alternative to, corresponding measures of net profit determined in accordance with AAS. In addition, such measures may not be comparable to similar measures presented by other companies. Please see “Appendix” in FY23 presentation released on 28 August 2023 for the reconciliation of Non-IFRS Financial Information.

Recipients should note that the reporting of mineral resources and ore reserves in Australia in compliance with the Australasian Joint Ore Reserves Committee Code for Reporting of Mineral Resources and Ore Reserves (“JORC Code”), and ASX Listing Rules Chapter 5. Mining companies in other countries may be required to report their mineral resources and/or ore reserves in accordance with other guidelines (for example, SEC regulations in the United States). You should not assume that resources will be converted to reserves under the JORC Code or any other reporting regime or that the Company will be able to extract them legally and economically.

This presentation contains forecasts and forward-looking information including statements about growth opportunities and targets; management plans and objectives; resources and reserves and production forecasts; commodity prices; demand for commodities; the expected timing for commencing new projects; the anticipated life of projects; operating costs; capital costs; and exchange rates.
