

NON-EXECUTIVE DIRECTOR APPOINTMENT

The Board of AML3D Limited (ASX:AL3) (“AML3D” or “Company”), a global provider of large-scale metal additive manufacturing technology and solutions, is pleased to announce the appointment of Mr Peter Siebels as a Non-Executive Director and Chair of the Audit & Risk Committee, with immediate effect.

Mr Siebels is a chartered accountant and former partner at KPMG. He has extensive local and international experience including property and construction, mergers and acquisitions, and is the Director of specialist advisory firm 4D Advisory Pty Ltd.

Mr Siebels said, *“I am delighted to have been appointed a Director of AML 3D at such an exciting time. The opportunity to work with the Board and executive to take this world class manufacturing technology to a global customer base is one I very much look forward to.”*

In announcing the new appointment, AML3D Chairman Noel Cornish said *“We are delighted to have Peter join our board. Peter brings a wealth of board experience and capabilities across a diverse range of industries which will add great value to the Board.”*

This announcement has been authorised for release by the Board of AML3D.

About AML3D Limited

AML3D Limited, a publicly listed technology company founded in 2014, is disrupting metal part supply chains using the Company’s patented Wire Additive Manufacturing (WAM®) process. WAM® combines state-of-the-art welding science, robotics automation, materials engineering and proprietary software to lead metal additive manufacturing globally. AML3D is the OEM of the ARCEMY® industrial metal 3D printing systems. ARCEMY® uses WAM® to provide advanced, automated, on-demand, point-of-need 3D manufacturing solutions that are more efficient, cost-effective and have better ESG outcomes compared to traditional casting, forging and billet machining processes. ARCEMY® is IIoT and Industry 4.0 enabled to allow manufacturers across Aerospace, Defence, Maritime, Manufacturing, Mining and Oil & Gas to become globally competitive. AML3D also provides metal 3D printing design engineering services, software licencing, technical support, consumable sales and contract manufacturing services.
