News Release

21 June 2006

EGP Contract with TRUenergy Unconditional

As stated in AIH's ASX announcement of 30 May 2006 regarding the new EGP contracts with TRUenergy Pty Ltd (**TRUenergy**), the Tallawarra Memorandum of Understanding was conditional on the power station receiving final approval by TRUenergy. TRUenergy has today given final approval to construct the power station and the MOU is now unconditional.

Under the Tallawarra MOU, AIH will supply firm forward and as available gas transportation services to an intermediate load gas fired power station that TRUenergy will build at Tallawarra, NSW. The Tallawarra MOU will secure minimum firm forward revenue of \$97 million¹ to 2017, estimated to commence during summer 2008-09.
