For immediate release

Altium confirms return to profitability and declares a dividend of 4 cents per share

Strong results driven by improved sales performance in US and China

SYDNEY, Australia – August 22, 2006 – Altium Limited (ASX: ALU), the industry's leading developer of electronic product development solutions dedicated to unifying electronics design, today confirms its results for the 2005/06 financial year ending June 30, 2006.

In line with the guidance released in a statement to the ASX on July 11, 2006, Altium's annual revenues for the full 2005/06 financial year are reported at AU\$45.6m, up 14% from AU\$40.1m as reported for the previous financial year. This improved performance is a direct result of strong annual sales growth in the US (up 32%), SE Asia (up 25%) and Europe (up 14%) and represents an overall increase in sales of 20%. As a consequence of this growth, the company reports EBITDA of AU\$7.0m and profit after tax of AU\$1.4m for the 2005/06 financial year. Altium's solid improvement in operating performance is also reflected by an increase in its cash position to AU\$6.4m, up 77% on the previous year.

As a result of this positive performance, Altium's Board of Directors has declared a final unfranked dividend of 4 cents per share for the year ended June 30, 2006. The record date for entitlements has been set as September 11, 2006 with a payment date of September 25, 2006.

Carl J Rooke, Chairman of Altium's Board of Directors commented: "Our decision to declare a dividend is an acknowledgement of the support, patience, and vision of our shareholders as we continue to develop our organisation and capitalise on the significant opportunities created by our leading-edge electronics design technology."

"It's great to see the effects of our long-term strategy beginning to flow through to our financial results," said Nick Martin, Altium CEO and Founder. "As long as we continue to follow through on the execution of our strategic plan, then this should represent the start of a long-term trend."

About Altium

Altium Limited (ASX:ALU) is the industry's leading developer of electronic product development solutions dedicated to unifying the different design disciplines involved in electronics product development. Altium products ensure all electronic engineers, designers, developers, and their organizations, take maximum advantage of emerging design technologies to bring smarter products to market faster and easier. Founded in 1985, Altium is headquartered in Sydney, Australia with sales offices in the United States, Europe, Japan, China, and resellers in all other major markets. Review of operations and activities

Overview of financial performance and position:

	2006 '000	2005 '000	Percentage Change
Revenue and other income from continuing operations	45,555	40,111	14%
Earnings before interest, tax, depreciation and amortisation	6,954	1,672	316%
Profit before tax	1,029	(3,968)	126%
Profit attributable to members	1,415	(1,604)	188%
Earnings per share	1.6	(1.8)	189%
Operating cash flows	3,620	1,412	156%
Cash position as at 30 June 2006	6,352	3,590	77%

Altium's improved revenue and return to profitability was stimulated by the successful execution of the group's new sales and marketing strategy, following on from several years of strategic investment in research and development. The success of the sales and marketing strategy is evidenced by the sales in the USA, as per the table below, where the implementation is most advanced.

Sales in local currencies:

Region	2006 '000	2005 '000	Percentage Change
Product Sales			
USA (US dollars)	15,249	11,514	32%
Europe (Euro)	9,791	8,554	14%
Japan (Japanese yen)	204,114	236,999	(14%)
South East Asia (US dollars)	3,290	2,636	25%
Australia (Australian dollars)	1,596	1,518	5%
Consulting Services			
Consulting (Euro)	624	1,582	(61%)

The significant improvement in the group's cash position has been a direct result of the sales performance over the last six months. This increase allows Altium to continue investment in growth opportunities in order to accelerate market penetration of its ground breaking technology and to provide returns to shareholders.

Regulatory environment

For details regarding the impact of regulatory changes in accounting standards refer to note 33 in the notes to the financial statements section of this report.

Legal

At the date of this report there are no significant legal issues affecting the company.

Health and safety

*** David M Warren replaced Dr Steven G Duvall as member of the audit and risk management and remuneration committees on 15 July 2005

Remuneration report (audited)

Director' and senior executives

The remuneration committee is responsible for advising the board on remuneration policies and packages for board members and senior executives. Members of the remuneration committee are Carl J Rooke, William A Bartee and David M Warren.

Remuneration of directors and senior executives is determined so as to ensure that the package properly reflects the relevant person's duties and responsibilities and that the package is competitive to attract and retain services of high quality management. Remuneration packages include a base salary, superannuation and other benefits. Directors and executives are also eligible to participate in the company's option plans. Options offered to directors and senior executives are not dependant on performance criteria. Please refer to note 24 for director and other key management personnel disclosures.

Remuneration and other terms of employment for each board member are formalised in service agreements.

Remuneration of non-executive directors is determined by the board within the maximum amount of cash salary (\$350,000 p.a.) approved by the shareholders from time to time and is formalised in service agreements.

Details of remuneration

Amounts of remuneration

Details of the remuneration of the directors and each of the five officers of the company and the consolidated entity receiving the highest emoluments, which includes key management personnel as defined by *AASB124 Related Party Disclosures*, are set out in the following tables:

The key management personnel of the group include the directors as per pages 5 to 7 and the following executive officers:

Darren Charles*	Chief Financial Officer
Emma Lo Russo	Chief Operating Officer
Michael Stipe	Vice President, Sales Americas
Peter Murman	Managing Director, Amersfoort Technology Centre
Frank Hoschar	Managing Director, Sales and Support Europe

* Darren Charles resigned as Executive Director on 15 July 2005. Darren Charles continues in his capacity as Chief Financial Officer at the date of this report.

In addition to the above service agreements, the directors and senior executives are entitled to participate in Altium's option plans. These plans provide a mix of short-term and long-term performance incentives as discussed in note 24.

Share-based compensation

Unissued ordinary shares of Altium Limited under option at the date of this report are as follows:

Name of option plan	Number of options	Issue price of shares (\$)	Value per option at grant date	Grant date	Expiry date
Altium Option Plan	1,081,000	4.20	2.22	12 Oct 2001	12 Oct 2006
Altium Option Plan	417,000	4.20	2.24	7 Nov 2001	7 Nov 2006
Altium Option Plan	400,000	1.17	0.69	10 Jul 2002	10 Jul 2007
Altium Option Plan	2,169,150	1.34	0.74	23 Oct 2002	23 Oct 2007
Altium Option Plan	7,400	1.34	0.74	30 Oct 2002	30 Oct 2007
Altium Option Plan	48,940	1.34	0.72	11 Nov 2002	11 Nov 2007
Altium Option Plan	168,950	1.34	0.64	19 Nov 2002	19 Nov 2007
Altium Option Plan	51,000	1.34	0.55	27 Nov 2002	27 Nov 2007
Altium Employee Share Option Plan	6,751,160	0.86	0.23	5 Dec 2003	5 Dec 2008
Altium Director Share Option Plan	1,790,000	0.86	0.23	5 Dec 2003	5 Dec 2008
Altium Employee Share Option Plan	200,000	0.86	0.06	7 May 2005	7 May 2009
Altium Employee Share Option Plan	1,583,700	1.00	0.09	21 Feb 2006	21 Feb 2011
Altium Employee Share Option Plan	578,950	1.00	0.11	14 Mar 2006	14 Mar 2011
Altium Employee Share Option Plan	9,750	1.00	0.10	21 Mar 2006	21 Mar 2011
Total unissued ordinary shares of Altium Limited under option	15,257,000				

The options granted under the Altium Option Plan and the Directors' Plan vest in equal amounts over a four-year period from the first anniversary date of issue. The options granted under the Altium Employee Share Option Plan and the Altium Director Share Option Plan vest over a three-year period from the first anniversary date of issue, 40% vest in year one, with 30% vesting for the two subsequent years thereafter. These options are exercisable at any time once vested through to expiry date. When exercisable, each option is convertible into one ordinary share. No option holder has any right under the options to participate in any other share issue of the company or of any other entity within the consolidated entity.

The 200,000 options granted in May 2005 under the Altium Employee Share Option Plan are supplementary to the options issued on 5 December 2003. As a result these options vest over a two-year period from date of issue, 40% vest at issue date, with 30% vesting for the two subsequent years thereafter, in line with the vesting periods of the original options granted on 5 December 2003.

The value of options included as remuneration for directors and executives, is valued at the date they are granted and apportioned over the vesting period. Fair values at grant date have been assessed using a derivative of the Black-Scholes option-pricing model including the following factors; the exercise price, stock price, expected life, volatility, risk-free rate, dividend yield and vesting period. Key assumptions adopted as at the date of issue for valuing the options in the current year include risk-free rate of interest between 5.18% and 5.41% and volatility of share price 66%. Further information on the options is set out in note 27 to the financial statements.

Other key management personnel are officers who are involved in, concerned with or who take part in, the management of the affairs of Altium Limited and/or the consolidated entity. Options over unissued ordinary shares in Altium Limited provided as remuneration to each director of the company and each of the key personnel of the consolidated entity as set out below:

Directors of Altium Limited

2006	Balance at 1 July 2005	Granted during the year	Expired during the year	Balance at 30 June 2006	Vested and exercisable at 30 June 2006
Carl J Rooke	320,000	-	160,000	160,000	112,000
Kayvan Oboudiyat	2,400,000	-	1,200,000	1,200,000	840,000
William A Bartee	160,000	-	80,000	80,000	56,000

Michael Stipe	16,722	-	-	16,722

There were no options granted to directors during the financial year.

Significant changes in the state of affairs

There have been no significant changes in the state of affairs during the financial year.

Events subsequent to balance date

Except for the matters discussed above, no other matter or circumstance has arisen since 30 June 2006 that has significantly affected, or may significantly affect:

- (a) the consolidated entity's operations in future financial years, or
- (b) the results of those operations in future financial years, or
- (c) the consolidated entity's state of affairs in future financial years.

Environmental regulation

The company has assessed whether there are any particular environmental regulations that apply to it and has determined that there is none of significance.

Likely developments and expected results of operations

Information on likely developments in the operations of the consolidated entity and the expected results of operations have not been included in this report because the directors believe it would be likely to result in unreasonable prejudice to the consolidated entity.

Insurance of officers

During the year the company paid a premium of \$67,026 to insure the directors and officers of Altium Limited and its subsidiaries. The liabilities insured are costs and expenses that may be incurred in defending any civil or criminal proceedings that may be brought against them in their capacity as directors or officers of the consolidated entity.

Non-audit services

The company may decide to employ the auditor on assignments additional to their audit duties where the auditor's expertise and experience with the company and/or the consolidated entity are important.

Details of the amounts paid or payable to PricewaterhouseCoopers for non-audit services provided during the year are set out below.

The board of directors has considered the position and, in accordance with the advice received from the audit and risk management committee is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The directors are satisfied that the provision of non-audit services by the auditor, as set out below, did not compromise the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- all non-audit services have been reviewed by the audit and risk management committee to ensure they do not impact the impartiality and objectivity of the auditor.
- none of the services undermine the general principles relating to auditor independence as set out in Professional Statement F1, including reviewing or auditing the auditor's own work, acting in a management or a decision making capacity, acting as advocate for the company or jointly sharing economic risk and rewards.

Auditors' independence declaration

A copy of the auditors' independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 16.

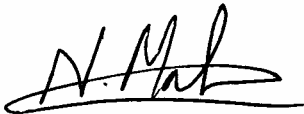

Rounding of amounts

The company is of a kind referred to in Class Order 98/0100, issued by the Australian Securities and Investments Commission, relating to "rounding off" of amounts in the directors' report. Amounts in the directors' report have been rounded off in accordance with that Class Order to the nearest thousand dollars, or in certain cases, to the nearest dollar.

Auditor

PricewaterhouseCoopers continues in office as auditor in accordance with section 327 of the *Corporations Act 2001*.

This report is made in accordance with a resolution of the directors.

Auditors' Independence Declaration

As lead auditor for the audit of Altium Limited for the year ended 30 June 2006, I declare that to the best of my knowledge and belief, there have been:

- (a) no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (b) no contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Altium Limited and the entities it controlled during the period.

Andrew Sneddon
Partner

Sydney
21 August 2006

Corporate governance statement

Corporate governance is a foundation for creating and maintaining shareholder value. With this intention Altium Limited and its board are committed to achieving and demonstrating the highest standards of corporate governance.

Altium's corporate governance framework is broadly consistent with the ASX Corporate Governance Council's best practice recommendations, minor deviations occur only when a principle or recommendation is not appropriate for the group to incorporate.

The board continues to review and assess the appropriateness of the group's corporate governance framework with reference to the effect of both internal and external factors.

The roles of the board and management

The board is responsible for promoting the success of the Altium group as a leading global developer and supplier of electronic product development solutions; and as a commercial entity listed on the Australian Stock Exchange. The board has a charter that outlines its functions and responsibilities, which include the review and approval of corporate strategy, budgets and financial plans, monitoring organisational performance and achievement of the group's strategic goals and objectives.

The relationship between the board and senior executives is critical to the group's long term success. The directors are responsible to shareholders for the performance of the group and seek to balance competing objectives in the best interests of the group as a whole. Their focus is to enhance the interests of the shareholders, employees and customers and to ensure that the group is appropriately managed.

Day to day management of the group's affairs and the implementation of the corporate strategy and policy initiatives are formally delegated by the board to the Chief Executive Officer and senior executives.

Board structure

The board is currently comprised of three non-executive directors and two executive directors, as follows;

Name	Position	Date of Appointment
Carl J Rooke	Chairman, Non-executive Director	13 June 1990
Nicholas M Martin	Chief Executive Officer, Executive Director	30 August 1991
Kayvan Oboudiyat	Executive Vice Chairman, Executive Director	10 February 1997
David M Warren	Non-executive Director	4 December 1991
William A Bartee	Non-executive Director	3 May 1999

Dr Steven G Duvall and Bruce W Edwards resigned as Non-executive Directors on 15 July 2005. Darren Charles resigned as Executive Director on 15 July 2005 and continues in his capacity as Chief Financial Officer at the date of this report.

Details of the background, experience and professional skills of each director are outlined in the Directors' Report under the heading "Information on Directors".

The following directors are retiring by rotation in accordance with the Constitution and the Listing Rules of Australian Stock Exchange and are seeking re-election at the 2006 Annual General Meeting:

Carl J Rooke
Nicholas M Martin
William A Bartee

Director independence

The board considers that for a director to add value to the board they should have either knowledge of the company or the highly technical industry in which the company operates while bringing independent views and judgment to the board's deliberations. Corporate governance best practice principles indicate that the majority of board members should be independent. The board does recognise the need for independent directors and, as such, there are two independent directors, including the Chairman.

The directors have not set materiality thresholds in accordance with the ASX best practice recommendations for determining independence of directors. The directors have assessed the independence of all directors during the period. Specific factors considered included directors shareholdings in the company, length of service and relationships with key advisers.

Meetings of the board

The board meets formally between six and eight times a year and on other occasions as required. Senior executives attend and make presentations at board meetings, as considered appropriate, and are available for questioning by directors. The number of meetings attended by each director for the financial year ended 30 June 2006 is outlined in the Directors' Report.

Retirement and re-election

The constitution of Altium Limited requires each director to retire from office at the next annual general meeting after serving a period of two years. Directors who have been appointed by the board are required to retire from office at the next annual general meeting. Retiring directors are eligible for re-election by shareholders. The chairman is appointed by the board which also determines the period the elected chairman is to hold office.

Nomination and appointment of new directors

Recommendations of candidates for new directors are generally made by the nomination committee for consideration by the board, notwithstanding ASX listing rule requirements*. If a candidate is recommended by the nomination committee, the board assesses that proposed new director against a range of criteria including background, experience, professional skills, personal qualities, potential for the candidate's skills to augment the existing board and the candidate's availability to commit to the board's activities. If these criteria are met and the board appoints the candidate as a director, that director will retire at the following annual general meeting and will be eligible for re-election by shareholders at that annual general meeting.

During the year the nomination committee conducted a review of the membership of the board, with regard to present and future needs of the group, and made recommendations on the board composition and appointments.

* Listing rule 14.3 requires the company to accept director nominations up to 35 business days before a general meeting at which directors may be elected.

Review of performance

The board undertakes an annual self assessment of its collective performance, the performance of the chairman and of its committees. The chairman also undertakes an assessment of the performance of individual directors. Any concerns arising out of these assessments are raised directly with the director concerned. Both of these assessments were undertaken during the year.

Board access to information and independent advice

All directors have unrestricted access to employees of the group and, subject to the law, access to group records and information held by group employees and external advisers. The board receives regular detailed financial and operational reports from senior executives to enable it to carry out its duties. In addition, Non-executive Directors meet regularly with senior executives to establish direct relationships.

Each director and board committee may, in connection with their duties, obtain independent professional advice at the group's expense. Prior written approval is required from the chairman to obtain advice which will not be unreasonably withheld.

Committees of the board

The board has established a number of committees to assist in the execution of its duties and to allow detailed consideration of complex issues. Current committees of the board are the nomination, remuneration and audit and risk management committees. The structure and membership of each committee is reviewed on an annual basis.

Each committee has its own charter setting out its role and responsibilities, composition, structure, membership requirements and the manner in which the committee is to operate. All matters determined by the committees are submitted to the full board as recommendations for board evaluation.

Audit and risk management committee

The members of the audit and risk management committee at the date of this report are:

- William A Bartee (Chairman)
- Carl J Rooke
- David M Warren

The main responsibilities of the audit and risk management committee are to maintain the integrity of financial reporting and monitor the control environment for managing strategic, operation, legal, reputation and financial risks.

The specific responsibilities are outlined in its charter and include reporting to the board on all financial information published by the group or released to the market, assisting the board in reviewing the effectiveness of the organisation's internal control environment, recommending to the board the appointment, removal and remuneration of the external auditor, review the terms of their engagement and the scope and quality of the audit and review insurance matters for the consolidated entity.

Other persons considered appropriate attend meetings of the audit and risk management committee by invitation. The committee also meets from time to time with the external auditor independent of management. The composition, operations and responsibilities of the committee are consistent with best practice recommendations. The number of meetings attended by each committee member for the financial year ended 30 June 2006 is outlined in the Directors' Report.

Financial reporting

The group's financial report preparation and approval process for the financial year ended 30 June 2006, involved both the Chief Executive Officer and Chief Financial Officer giving a sign-off, to the best of their knowledge and belief, that the group's financial report presents a true and fair view, in all material respects, of the group's financial condition and operating results and is in accordance with applicable accounting standards. In addition, the financial report is founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the board. The group's risk management and internal compliance and control system is operating efficiently and effectively in all material respects.

Audit governance and independence

As part of the group's commitment to safeguarding integrity in financial reporting, the group has implemented procedures and policies to monitor the independence and competence of the group's external auditors.

Appointment of auditor

The group's current external auditor is PricewaterhouseCoopers. The effectiveness, performance and independence of the external auditor is reviewed by the audit and risk management committee on an ongoing basis. The selection and appointment of the group's external auditor is the responsibility of the audit and risk management committee.

Independence declaration

Under changes introduced by CLERP 9, auditors are now required to state that to the best of their knowledge or belief, there have been no contraventions of the auditor independence requirements of the Corporations Act or any applicable code of professional conduct in relation to the audit. In accordance with section 298(1)(c) and section 306(2), PricewaterhouseCoopers have provided a copy of this declaration to the audit and risk management committee for the financial year ended 30 June 2006, which has been included in the Directors' Report.

Rotation of lead external audit partners

Altium will adopt a policy of rotating its lead audit partner every five years. This policy will be adopted to all audit work undertaken in the financial year beginning on, or after, 1 July 2006, being Altium Limited's 2007 financial year.

Restrictions on the performance of non-audit services by external auditors

The audit and risk management committee has implemented a policy that requires the prior approval of the committee for the provision of any non-audit services to the group by the external auditor for any amount over \$20,000. The audit and risk management committee has also adopted guidelines to assist in identifying the types of services that may compromise the independence of the external auditor.

Attendance of external auditor at annual general meetings

PricewaterhouseCoopers is invited to attend Altium Limited's annual general meeting and be available to answer questions.

Risk identification and management

The board, through the audit and risk management committee, is responsible for ensuring there are adequate policies in relation to risk management, compliance and internal control systems.

The group is committed to the identification; monitoring and management of risks associated with its business activities and is embedding in its management and reporting systems a number of risk management controls. These include:

- guidelines and limits for approval of capital expenditure and investments;
- a group regulatory compliance program supported by approved guidelines and standards covering such key areas as occupational health and safety, finance, legal and insurance;
- policies and procedures for the management of financial risk and treasury operations including exposures to foreign currencies and movements in interest rates;
- a formal planning process of product development and upgrade programs for a one to two year horizon;
- annual budgeting and monthly reporting systems for all businesses which enable the monitoring of progress against performance targets and the evaluation of trends;
- appropriate due diligence procedures for acquisitions and divestments; and
- crisis management systems for IT infrastructure within the group.

Nomination committee

The members of the nomination committee at the date of this report are:

- Carl J Rooke (Chairman)
- William A Bartee
- Nicholas M Martin

The main responsibilities of the nomination committee are to conduct an annual review of the membership of the board with regard to present and future needs of the group, make recommendations on board composition and appointments, propose candidates for board vacancies and oversee board succession including the succession of the chairman and establish induction guidelines for newly appointed directors, regularly assessing the effectiveness of this induction process. The committee has also established criteria for board independence and conducts an annual review of director's independence. The number of meetings attended by each director for the financial year ended 30 June 2006 is outlined in the Directors' Report.

Remuneration committee

The members of the remuneration committee at the date of this report are:

- Carl J Rooke (Chairman)
- William A Bartee
- David M Warren

The main responsibilities of the remuneration committee are to advise the board on remuneration and incentive policies and practices generally, and make specific recommendations on remuneration packages and other terms of employment for executive directors, other senior executives and non-executive directors.

Each member of the senior executive team signs a formal employment contract at the time of their appointment covering a range of matters including their duties, rights, responsibilities and any entitlements on termination.

Additional responsibilities include reviewing any transactions between the organisation and the directors, or any interest associated with the directors, to ensure that the structure and the terms of the transaction are in compliance with the *Corporations Act 2001* and are appropriately disclosed.

The number of meetings attended by each director for the financial year ended 30 June 2006 is outlined in the Directors' Report.

Remuneration policies

Non-executive directors

The group's non-executive directors receive fees for their services and the reimbursement of reasonable expenses. The fees paid to the group's non-executive directors reflect the demands on, and the responsibilities of, those directors. The advice of independent remuneration consultants is taken to establish that the directors' fees are in line with market standards. Non-executive directors have received options in addition to their remuneration and are eligible to participate in the Altium Limited's Directors Option Plan.

A directors' fee pool limit of \$350,000 per annum was approved by shareholders at an annual general meeting and is currently not fully utilised. This fee pool is only available to non-executive directors as board membership is taken into account in determining the remuneration paid to executive directors as part of their normal employment conditions. The non-executive directors' remuneration is outlined in the Remuneration Report on page 7.

Executive directors and senior executives

The structure and disclosure of the group's remuneration policies for executive directors and senior executives are outlined in the Directors' Report.

Share trading

Under the group's share trading guidelines, all employees and directors of the group are advised not to trade in Altium Limited's shares or other securities if they are in possession of "inside information". Subject to this policy and in the light of the ASX's continuous disclosure requirements, trading can occur at any time and is not limited to specified windows following the publication of financial results.

In addition, employees and directors of the group must advise the Company Secretary of their intention to trade and declare that there is no known reason to preclude them from trading in Altium Limited's shares or other securities.

Continuous disclosure

The continuous disclosure provisions of the *Corporations Act 2001* and the listing rules mean that criminal and civil liabilities could be imposed on Altium Limited and its officers if material information is not released to the market in accordance with the ASX listing rules. The group has established written policies and procedures on information disclosure. The focus of these procedures is on continuous disclosure and improving access to information for all investors.

Altium Limited has nominated the Company Secretary to have responsibility for:

- making sure that Altium Limited complies with continuous disclosure requirements;
- overseeing and coordinating disclosure of information to the stock exchange, analysts, brokers, shareholders, the media and the public; and
- educating directors and staff on the group's disclosure policies and procedures and raising awareness of the principles underlying continuous disclosure.

All shareholders receive a copy of the group's annual report. In addition, all group announcements, media briefings, press releases and financial reports are available on Altium's website.

Conduct and ethics

Altium is committed to conducting business with honesty and integrity and the conduct of every employee is vital in achieving this aim. Altium's Code of Conduct provides a guideline for appropriate behaviour expected from all Altium employees. The code is regularly reviewed and updated as necessary to reflect the highest standards of behaviour, professionalism and practices necessary to maintain the group's integrity. It is not intended to cover all issues that may arise, but rather to provide a framework within which employees can address ethical issues that may arise through the daily business of the group.

Employees are expected to perform the duties associated with their position to the best of their ability in a diligent, impartial and conscientious manner. This includes compliance with legislative and industrial obligations and group policies.

Notes to the financial statements

1. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of the financial report are set out on the following pages. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report includes separate financial statements for Altium Limited as an individual entity and the consolidated entity consisting of Altium Limited and its subsidiaries.

a) Basis of preparation

This general purpose financial report has been prepared in accordance with Australian equivalents to International Financial Reporting Standards (AIFRS), other authoritative pronouncements of the Australian Accounting Standards Board, Urgent Issues Group Consensus Views and the *Corporations Act 2001*.

Compliance with IFRSs

Australian Accounting Standards include AIFRSs. Compliance with AIFRSs ensures that the consolidated financial statements and notes of Altium Limited comply with International Financial Reporting Standards (IFRSs).

Application of AASB1 First-time adoption of Australian Equivalents to International Financial Reporting Standards

These financial statements are the first Altium Limited financial statements to be prepared in accordance with AIFRSs. *AASB 1 First-time Adoption of Australian Equivalents to International Financial Reporting Standards* has been applied in preparing these financial statements.

Financial statements of Altium Limited until 30 June 2005 had been prepared in accordance with previous Australian Generally Accepted Accounting Principles (AGAAP). AGAAP differs in certain respects from AIFRS. When preparing the Altium Limited 2006 financial statements, management has amended certain accounting, valuation and consolidation methods applied in the AGAAP financial statements to comply with AIFRS. Reconciliations and descriptions of the effect of the transition from previous AGAAP to AIFRS on the group's equity and its net loss are stated in note 33.

Historical cost convention

These financial statements have been prepared under the historical cost convention.

Critical accounting estimates

The preparation of financial statements in conformity with AIFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the group's accounting policies. There are no areas involving estimation uncertainty that present a significant risk of causing a material adjustment, to the carrying amounts of assets and liabilities within the next financial reporting period.

b) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Altium Limited as at 30 June 2006 and the results of all subsidiaries for the year then ended. Altium Limited and its subsidiaries together are referred to in this financial report as the group or the consolidated entity.

Subsidiaries are all those entities over which the group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the group controls another entity. Subsidiaries are fully consolidated from the date on which control transfers to the group. They are de-consolidated from the date that control ceases. The purchase method of accounting is used to account for the acquisition of subsidiaries by the group. The consolidated entity has elected to apply the exemption available under AASB 1, in respect of business combinations before 1 July 2004. Investments in subsidiaries are accounted for at the lower of cost or recoverable value in the individual financial statements of Altium Limited.

Intercompany transactions, balances and unrealised gain on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries are consistent with the policies adopted by the group.

1. Summary of significant accounting policies (continued)

c) Segment reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different to those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment and is subject to risks and returns that are different from those of segments operating in other economic environments. The directors have determined the group does not operate in more than one business segment.

d) Foreign currency translation

(i) *Functional and presentation currency*

Items included in the financial statements of each of the group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Australian dollars, which is Altium Limited's functional and presentation currency.

(ii) *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

(iii) *Group companies*

The results and financial position of all the group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- income and expenses for each income statement are translated at the exchange rates at the dates of the transactions.

e) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances and duties and taxes paid. Revenue is recognised for the major business activities as follows:

- Software - a sale is recorded when goods have been despatched to a customer pursuant to a sales order and the associated risks have passed to the customer.
- Support Services - revenue recognition is deferred and taken to the income statement over the period which the service is provided.
- Training Services - a sale is recorded and revenue is recognised at the time the service is provided.
- Projects - for fixed price contracts, the stage of completion is measured by reference to time incurred to date as a percentage of estimated total time to complete each project. Revenue from cost plus contracts is recognised by reference to the recoverable costs incurred during the reporting period plus time spent on each contract.

f) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

1. Summary of significant accounting policies (continued)

f) Income tax (continued)

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

g) Leases

Leases of property, plant and equipment where the group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's inception at the lower of the fair value of the leased property and the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are classified as borrowings in the balance sheet. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The interest element of the finance cost is charged to the income statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases are depreciated over the shorter of the asset's useful life and the lease term.

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the income statement on a straight-line basis over the period of the lease.

h) Impairment of assets

Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units).

i) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts.

1. Summary of significant accounting policies (continued)

j) Trade receivables

Trade receivables, which generally have 30 – 90 day terms are recognised and carried at original invoice amount less an allowance for doubtful debts. An estimate for doubtful debts is made when collection of the full amount is no longer probable.

Collectibility of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. A provision for doubtful receivables is established when there is objective evidence that the group will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial. The amount of the provision is recognised in the income statement.

k) Inventories

Finished goods and raw materials are stated at the lower of cost and net realisable value. Cost comprises direct materials only. Costs have been assigned to inventory quantities on hand at balance date using the first in first out basis.

l) Investments and other financial assets

The group has not taken the exemption available under AASB 1 and has applied AASB 132 and AASB 139 from 1 July 2004.

The group classifies its financial assets as loans and receivables. Management determines the classification of its investments at initial recognition and re-evaluates this designation at each reporting date. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the group provides money, goods or services directly to a debtor with no intention of selling the receivable. They are included in non-current assets, except for those with maturities less than 12 months after the balance sheet date which are classified as current assets. Loans and receivables are included in receivables in the balance sheet.

m) Plant and equipment

Plant and equipment is stated at cost.

Plant and equipment is depreciated and leasehold improvements are amortised over their estimated useful lives using the straight line method.

The expected useful lives of the assets are as follows:

Office equipment	3 – 5 years
Computer hardware and software	2 – 3 years
Motor vehicles	4 – 5 years
Leasehold improvements	5 – 40 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(h)).

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the income statement. When revalued assets are sold, it is group policy to transfer the amounts included in other reserves in respect of those assets to retained earnings.

1. Summary of significant accounting policies (continued)

n) Intangible assets

(i) *Acquired technology and licenses*

Acquisition costs of software licenses, customer lists and copyrights are amortised on a straight-line basis over the period for which the right is acquired or the period over which economic benefits are expected to arise. These periods vary from 3 to 10 years, starting from the date of commercial release.

(ii) *Software developed for internal use*

Costs relating to software developed for internal use have been capitalised and are being amortised over its estimated useful life using the straight line method. Software developed for internal use is presently being amortised over 3 years. Costs capitalised include labour and other directly attributable costs.

o) Research and development expenditure

Expenditure on research activities, undertaken with the prospect of obtaining new technical knowledge and understanding, is recognised in the income statement as an expense when it is incurred.

Expenditure on development activities are charged to operating profit before income tax as incurred, or deferred where these costs are directly associated with integration of acquired technology and it is determined that the technology has reached technological feasibility. Costs are deferred to future periods to the extent that they are expected beyond any reasonable doubt to be recoverable and the technology has reached technological feasibility. The costs capitalised comprises of directly attributable costs, including costs of materials, services and direct labour. Deferred costs are amortised from the date of commercial release on a straight-line basis over the period of the expected benefit, which varies from 3 to 10 years. Research expenditure is recognised as an expense as incurred.

p) Trade and other payables

These amounts represent liabilities for goods and services provided to the group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

q) Finance costs

Finance costs are recognised as expenses in the period in which they are incurred.

r) Employee benefits

(i) *Wages and salaries, annual leave and sick leave*

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within 12 months of the reporting date are recognised in other payables in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

(ii) *Long service leave*

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(iii) *Share-based payments*

Share-based compensation benefits are provided to employees via the Altium Option Plan, Directors' Plan, Altium Employee Share Option Plan and Altium Director Share Option Plan.

Share options granted before 7 November 2002 and/or vested before 1 January 2005

No expense is recognised in respect of these options. The shares are recognised when the options are exercised and the proceeds received allocated to share capital.

1. Summary of significant accounting policies (continued)

r) Employee benefits (continued)

Share options granted after 7 November 2002 and vested after 1 January 2005

The fair value of options granted under the Altium Option Plan, Altium Employee Share Option Plan and Altium Director Share Option Plan, is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

The fair value at grant date is determined using a derivative of the Black-Scholes option-pricing model that takes into account the exercise price, the term of the option, the vesting and performance criteria, the impact of dilution, the non-tradeable nature of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option.

Upon the exercise of options, the balance of the share-based payments reserve relating to those options is transferred to share capital.

s) Contributed equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options, or for the acquisition of a business, are not included in the cost of the acquisition as part of the purchase consideration.

t) Earnings per share

(i) *Basic earnings per share*

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) *Diluted earnings per share*

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

u) Rounding of amounts

The company is of a kind referred to in Class order 98/0100, issued by the Australian Securities and Investments Commission, relating to the "rounding off" of amounts in the financial report. Amounts in the financial report have been rounded off in accordance with that Class Order to the nearest thousand dollars, or in certain cases, the nearest dollar.

v) Share buy-back

Shares bought back are brought to account by directly reducing the share capital account by the cost of acquisition of the shares. The cost of acquisition of the shares bought back comprises the purchase consideration plus costs incidental to the acquisition.

w) Dividends

A provision is made for the amount of any dividend on the date they are declared.

1. Summary of significant accounting policies (continued)

x) New accounting standards and UIG interpretations

Certain new accounting standards and UIG interpretations have been published that are not mandatory for 30 June 2006 reporting periods. The group's assessment of the impact of these new standards and interpretations is set out below.

- (i) *UIG 5 Rights to Interests arising from Decommissioning, Restoration and Environmental Rehabilitation Funds*
The group does not have interests in decommissioning, restoration and environmental rehabilitation funds. This interpretation will not affect the group's financial statements.
- (ii) *AASB 7 Financial Instruments: Disclosures and AASB 2005-10 Amendments to Australian Accounting Standards [AASB 132, AASB 101, AASB 114, AASB 117, AASB 133, AASB 139, AASB 1, AASB 4, AASB 1023 & AASB 1038]*
AASB 7 and AASB 2005-10 are applicable to annual reporting periods beginning on or after 1 January 2007. The group has not adopted the standards early. Application of the standards will not affect any of the amounts recognised in the financial statements, but will impact the type of information disclosed in relation to the group's financial instruments.

2. Revenue and other income	Consolidated		Parent Entity

4. Income tax

(a) Income tax benefit

	Consolidated 2006 \$'000	2005 \$'000	Parent Entity 2006 \$'000	2005 \$'000
Current tax	700	648	72	23
Deferred tax	(505)	(2,833)	(967)	(985)
Over provision in prior years	(581)	(179)	-	-
	(386)	(2,364)	(895)	(962)

Deferred income tax benefit included in income tax benefit comprises:

Decrease (increase) in deferred tax assets (note 11)	(377)	(283)	(967)	1,444
Decrease in deferred tax liabilities (note 18)	(128)	(2,550)	-	(2,429)
	(505)	(2,833)	(967)	(985)

(b) Numerical reconciliation of income tax (benefit) expense to prima facie tax payable

Profit (loss) from ordinary activities before income tax expense	1,029	(3,455)	(600)	(2,999)
Income tax calculated at 30%	309	(1,037)	(180)	(900)

Tax effect of amounts which are not deductible (taxable) in calculating taxable income:

Research and development concession	(364)	(495)	(364)	(495)
Intellectual property amortisation	280	277	29	27
Share-based payments	149	-	149	-
Sundry items	38	4	-	(1)
	412	(1,251)	(366)	(1,369)

Over provision in prior years	(581)	(179)	-	-
Benefit of tax losses not previously recognised now considered recoverable	(586)	(1,025)	(529)	-
Benefit of tax losses previously recognised written down	166	-	-	360
Write-down of carrying value of investment in subsidiaries	-	-	-	15,269
Provision for intercompany receivable	-	-	-	(15,222)
Timing differences not brought to account	-	47	-	-
Effects of different rates of tax on overseas income	203	44	-	-
Aggregate income tax benefit	(386)	(2,364)	(895)	(962)

(c) Tax losses

Unused tax losses for which no deferred tax asset has been recognised	4,037	4,505	-	1,560
Potential tax benefit @ 30%	1,211	1,352	-	468

The benefit for tax losses will only be obtained if:

- the consolidated entity derives future assessable income of a nature and amount sufficient to enable the benefit from the deductions for the losses to be realised, or
- the losses are transferred to an eligible entity in the consolidated entity, and
- the consolidated entity continues to comply with the conditions for deductibility imposed by tax legislation, and
- no changes in tax legislation adversely affect the consolidated entity in realising the benefit from the deductions for the losses.

5. Segment information

Primary reporting – geographic segments

Although the consolidated entity's divisions are managed on a global basis they operate in four main geographical areas:

- **Australia** – the home country of the parent entity which is also the main operating entity. The areas of operation are design, development and sale of computer software for the design of electronic products.
- **North America** – comprises the sale of computer software for the design of electronic products throughout USA and Canada.
- **Europe** – comprises the sale of computer software for the design of electronic products throughout Europe. Also the design and development of electronic products occurs in this segment.
- **Asia** – comprises the sale of computer software for the design of electronic products throughout Asia.

2006	Australia \$'000	North America \$'000	Europe \$'000	Asia \$'000	Other \$'000	Inter-segment eliminations/ unallocated \$'000	Consolidated \$'000

Notes to and forming part of the segment information

(a) Accounting policies

Segment information is prepared in conformity with the accounting policies of the entity as disclosed in note 1 and accounting standard AASB 114 *Segment Reporting*.

Segment revenues, expenses, assets and liabilities are those that are directly attributable to a segment and the relevant portion that can be allocated to the segment on a reasonable basis. Segment assets include all assets used by a segment and consist primarily of operating cash, receivables, inventories, property, plant and equipment and goodwill and other intangible assets, net of related provisions. Segment liabilities consist primarily of trade and other creditors and employee benefits. Segment assets and liabilities do not include income taxes.

(b) Inter-segment transfers

Inter-segment transfers consist of the following types of transactions:

- research and development costs based on a notional mark-up on cost
- royalty costs for the use of intellectual property
- subsidiaries earn a return for a limited risk distribution function
- interest on intercompany loans
- logistic costs based on a notional mark-up on cost

(c) Secondary reporting – business segments

The directors have determined the company does not operate in more than one business segment; as such no secondary reporting segment information had been presented.

6. Cash and cash equivalents

Current

Cash at bank and on hand

	Consolidated		Parent Entity	
	2006	2005	2006	2005
	\$'000	\$'000	\$'000	\$'000
Cash at bank and on hand	6,352	3,590	4,113	1,399

7. Trade and other receivables

Current

Trade receivables

Less: provision for doubtful receivables

	Consolidated		Parent Entity	
	2006	2005	2006	2005
	\$'000	\$'000	\$'000	\$'000
Trade receivables	12,990	9,168	8,640	7,947
Less: provision for doubtful receivables	(181)	(99)	(74)	(3)
	12,809	9,069	8,566	7,944

	12,857	9,358	8,567	7,951

Non-current

Loan to subsidiaries*

Loans to key management personnel**

Employee loans***

Loan to subsidiaries*	-	-	4,314	4,050
Loans to key management personnel**	214	185	214	185
Employee loans***	540	564	530	544
	754	749	5,058	4,779

*For terms and conditions of intercompany loans refer to note 28.

**Further information relating to loans to related parties and key management personnel is set out in note 24.

***The loans advanced are charged at the "benchmark interest rate" under the *Fringe Benefits Tax Assessment Act 1986* (Cwlth) as at 30 June 2006 being 7.30% p.a. (2005: 7.05%). The above unsecured loans are for a five year term or repayable within thirty days of separation. Repayments during the year totalled \$95,308 (2005: \$14,568).

An assessment of the carrying value of all employee loans is conducted by the directors at the end of each reporting period. Where the directors believe that the loan will not be recovered, the loan is expensed along with any fringe benefits tax associated with the loan forgiveness.

Bad and doubtful trade receivables

The group has recognised a loss of \$60,068 (2005: \$80,990) in respect of bad and doubtful trade receivables during the year ended 30 June 2006. The loss has been included in other expenses in the income statement.

8. Inventories

Current

Finished goods at cost

Raw materials at cost

	Consolidated		Parent Entity	
	2006	2005	2006	2005
	\$'000	\$'000	\$'000	\$'000

Net book amount	11,791	14,108	25,899	5,032	11,300	16,332

**Amortisation of \$5,029,000 (2005:\$4,991,000) is included in depreciation and amortisation expense in the income statement.

Impairment test for intangible assets

The recoverable amount of the group's intangible assets has been assessed based on value-in-use calculations. The calculations use cash flow projections based on actual results achieved for 2006. Future cash flows have been extrapolated using average revenue growth rates of 4.1% per annum and average cost growth rates of 2.5% per annum. The annual growth rate used for revenue extrapolation is significantly less than the current annual revenue growth rate. If the assumed growth rates included in revenue forecasts were removed, the recoverable amount would still exceed the carrying amount for the intangible assets. A post-tax discount rate of 12.05% is applied to post tax cash flow projections.

13. Other assets

Accumulated losses at the end of the financial year	(83,446)	(84,861)	(87,424)	(87,721)

(c) Nature and purpose of reserves

Share-based payments reserve

The share-based payments reserve is used to recognise the fair value of options issued but not exercised.

22. Financial risk management

(a) Credit risk exposures

The credit risk on financial assets of the consolidated entity, which have been recognised on the balance sheet, other than investments in shares, is generally the carrying amount, net of any provisions for doubtful debts. The group has no significant concentrations of credit risk. The group has policies in place to ensure that sales of products and services are made to customers with an appropriate credit history.

(b) Interest rate risk exposures

The consolidated entity's exposure to interest rate risk and the effective weighted average interest rate for each class of financial assets and financial liabilities is set out below. Exposures arise predominantly from assets and liabilities bearing variable interest rates as the consolidated entity intends to hold fixed rate assets and liabilities to maturity.

2006		Floating interest rate	Fixed interest rate maturities 1 year or less	Over 1 to 5 years	Over 5 years	Non interest bearing	Total
	Note	\$'000	\$'000	\$'000	\$'000	\$'000	\$'000
Financial assets							
Cash	6	5,354	-	-	-	998	6,352
Receivables	7	-	-	754	-	12,857	13,611

Financial lease liabilities	15,26	-	(202)	(376)	-	-	(578)
		-	(202)	(376)	-	(2,871)	(3,449)
Weighted average interest rate			6.91%	6.98%			
Net financial assets (liabilities)		2,157	(202)	373	-	7,920	10,248

22. Financial risk management (continued)

(c) Net fair value of financial assets and liabilities

The net fair value of financial assets and financial liabilities is based upon market prices where a market exists or by discounting the expected future cash flows by the current interest rates for assets and liabilities with similar risk profiles. At balance date, the net fair value of financial assets and liabilities approximates their carrying value.

23. Dividends

Ordinary Shares

No dividends were paid or declared during the financial year ended 30 June 2006 (2005:\$nil).

	Parent Entity	
	2006 \$'000	2005 \$'000
Dividends not recognised at year end	3,522	-

The directors declared a final unfranked dividend of 4 cents per share on 21 August 2006, for the year ended 30 June 2006

24. Key management personnel

Directors

The following persons were directors of Altium Limited during the financial year:

Non-executive Chairman

Carl J Rooke

Executive Directors

Nicholas M Martin

Kayvan Oboudiyat

Darren Charles*

Non-executive Directors

William A Bartee

David M Warren

Dr Steven G Duvall*

Bruce W Edwards*

* Darren Charles resigned as Executive Director on 15 July 2005 and continues in his capacity of Chief Financial Officer at date of this report. Dr Steven G Duvall and Bruce W Edwards resigned as Non-executive Directors on 15 July 2005.

Other key management personnel

The following persons also had authority and responsibility for planning, directing and controlling the activities of the group, directly or indirectly, during the financial year.

Name	Position	Employer
Darren Charles	Chief Financial Officer	Altium Limited

Directors' Option Plan

The board of directors approved the establishment of the Directors' Option Plan in October 2000. The board may offer options to any director of Altium Limited (excluding Nicholas M Martin). Before issuing options to directors, the board will need to seek shareholder approval in accordance with ASX Listing Rule 10.14.

24. Key management personnel (continued)

The Directors' Option Plan is based on the Altium Option Plan subject to changes required due to the fact that options are being issued to directors rather than employees.

When the board is exercising its discretion in respect of the Directors' Option Plan a director will not be able to vote if the exercise of the discretion relates to options or shares in the company which will be issued to that director.

All exercisable options issued under this plan expired during the year, consequently there were no options outstanding as at 30 June 2006 (2005:1,440,000).

Altium Director Share Option Plan

The board of directors approved the establishment of the Altium Directors' Share Option Plan in November 2003. The board may offer options to any director of Altium Limited (excluding Nicholas M Martin). Before issuing options to directors, the board will need to seek shareholder approval in accordance with ASX Listing Rule 10.14.

The Altium Directors Share Option Plan is based on the Altium Employee Share Option Plan subject to changes required due to the fact that options are being issued to directors rather than employees.

When the board is exercising its discretion in respect of the Altium Directors Share Option Plan a director will not be able to vote if the exercise of the discretion relates to options or shares in the company which will be issued to that director.

A total of 1,790,000 options (2005:1,870,000) are outstanding under the plan as at 30 June 2006. Each option is convertible into one ordinary share. Conversion can occur no earlier than the first anniversary of the date on which the options were granted being 5 December 2003. The last exercise date for these options is 5 December 2008. The exercise price payable upon conversion is fixed at \$0.86.

There were no options exercised during the year by the directors of the company.

Other key management personnel of the group

2006	Balance at 1 July 2005	Granted during the year	Expired during the year	Balance at 30 June 2006	Vested and exercisable at 30 June 2006

Loans to directors and director-related entities

At 30 June 2006 the following unsecured loans to director-related entities were outstanding: Darren Charles - Chief Financial Officer \$51,122 (2005: \$51,130); and Nicholas M Martin - Chief Executive Officer \$209,464 (2005: \$197,581). The loans are charged at the "benchmark interest rate" under the *Fringe Benefits Tax Assessment Act 1986 (Cwlth)* as at 30 June 2006 being 7.30% p.a. (2005: 7.05%). Interest charged on the loans for the year to 30 June 2006 was \$3,628 (2005: \$3,705) for Darren Charles and \$9,607 (2005: \$11,810) for Nicholas M Martin. During the year there were repayments of \$3,636 by Darren Charles and \$nil by Nicholas M Martin. The above unsecured loans are for a five year term or repayable within thirty days of separation.

24. Key management personnel (continued)

Remuneration of director-related entities

A director, Carl J Rooke, is a partner in Horwath Tas Pty Limited. Horwath Tas Pty Limited has provided taxation services to Altium Limited for many years on normal commercial terms and conditions. The total amounts recognised as expenses during the year total \$nil (2005: \$8,899). There was no aggregate amounts payable at balance date to Horwath Tas Pty Limited as a director-related entity.

Related entities of directors employed by any company in the consolidated entity are paid on normal commercial terms and conditions.

25. Remuneration of auditors

During the year the auditor of the parent entity and its related practices earned the following remuneration:

Assurance services

PricewaterhouseCoopers Australian firm:
Audit and review of financial reports and other audit work under the *Corporations Act 2001*
Related practices of PricewaterhouseCoopers Australian firm

Total remuneration for assurance services

Taxation services

PricewaterhouseCoopers Australian firm:
Tax compliance services, including review of company income tax returns
Tax consulting and tax advice
Related practices of PricewaterhouseCoopers Australian firm:
Tax compliance services, including review of company income tax returns
Tax consulting and tax advice

Total remuneration for taxation services

Advisory services

27. Employee benefits (continued)

Share-based payments

The company has the following share option plans:

- i) Altium Option Plan
- ii) Altium Employee Share Option Plan
- iii) Directors' Option Plan
- iv) Altium Director Share Option Plan

Altium Option Plan

The board of directors approved the establishment of the Altium Option Plan in June 1999. All employees (excluding executive directors) of Altium Limited and its subsidiaries are eligible to participate in the plan. Invitations for employees to participate are determined at the discretion of the directors of the company.

A total of 4,343,440 options (2005: 6,535,401) are outstanding under the plan to eligible employees as at 30 June 2006. Each option is convertible into one ordinary share. Conversion can occur no earlier than the first anniversary of the date on which the options were granted. The exercise price payable upon conversion is fixed.

Altium Employee Share Option Plan

The board of directors approved the establishment of the Altium Employee Share Option Plan in December 2003. All employees (excluding executive directors) of Altium Limited and its subsidiaries are eligible to participate in the plan. Invitations for employees to participate are determined at the discretion of the directors of the company.

A total of 9,123,560 options (2005: 8,327,146) are outstanding under the plan to eligible employees as at 30 June 2006. Each option is convertible into one ordinary share. Conversion can occur no earlier than the first anniversary of the date on which the options were granted.

Directors' Option Plan

For details see note 24.

Altium Director Share Option Plan

--	------	------	---	------	------

The weighted average contractual life of the above options is 2.65 years.

27. Employee benefits (continued)

Share options on issue (continued)

	Consolidated			
	2006		2005	
	\$	Number	\$	Number
Options vested at reporting date	3,976,729	9,824,897	2,689,082	9,945,988

The market price per ordinary share at 30 June 2006 was \$0.30.

During the year no options were exercised by employees and directors.

Fair value of options granted

Fair values at grant date have been assessed using a derivative of the Black-Scholes option-pricing model including the following factors; the exercise price, stock price, expected life, volatility, risk-free rate, dividend yield and vesting period. Key assumptions adopted as at the date of issue for valuing the options in the current year include risk-free rate of interest between 5.18% and 5.41% and volatility of share price 66%.

Options are granted for no consideration. The amount received on the exercise of options is recognised as issued capital at the date of issue of the shares.

Expenses arising from share-based payment transactions

Total expenses arising from share-based payment transactions recognised during the period as part of employee benefit expense were as follows:

	Consolidated		Parent Entity	
	2006	2005	2006	2005
	\$'000	\$'000	\$'000	\$'000
Options issued	262	556	262	556

28. Related party information

Directors, specified executives and their related entities

Disclosures relating to directors, director related entities and specified executives including information concerning shares or share options are set out in note 24 to the accounts.

Parent entity

The parent entity within the group is Altium Limited. The wholly-owned group consists of Altium Limited, the ultimate parent entity, and its wholly-owned controlled entities, Altium Inc, Altium Japan KK, Protel AG, Altium Netherlands BV, Altium BV, Altium Europe GmbH, Altium Limited (UK) and Altium Information Technology (Shanghai) Co., Ltd. Ownership interests in these controlled entities are set out in note 29.

Transactions between Altium Limited and other entities in the wholly-owned group during the years ended 30 June 2006 and 30 June 2005 consisted of:

- supply of computer software for sale by Altium Limited;
- purchase of computer software for sale from Altium Limited;
- loans advanced by Altium Limited and interest received thereon;
- loans repaid to Altium Limited;
- purchase of research and development services by Altium Limited;
- supply of finance, administration and marketing services by Altium Limited; and
- payments for royalties in exchange for use of intellectual property.

28. Related party information (continued)

These transactions were made on normal commercial terms and conditions and at market rates, except that there are no fixed terms for the repayment of principal on loans advanced by Altium Limited. The average interest rate charged on the loans during the year was 4.59% (2005: 5.05%).

	Parent Entity 2006 \$	2005 \$
The following transactions occurred with related parties:		
Revenue from continuing operations	23,766,719	24,549,180
Interest revenue	228,464	246,467
Royalty expense	(772,434)	(2,857,911)
Contract research and development expense	(6,861,256)	(5,990,830)
Marketing expense	(815,179)	(929,249)
Employee benefits	111,760	(5,404)
Other related party transactions	50,542	(368,782)

The following balances are outstanding at the reporting date in relation to transactions with related parties:

Current receivables		
Trade debtors	6,123,233	6,237,705
Non-current receivables		
Loans	4,312,309	4,050,331
Current payables		
Loans	2,134,277	1,982,990

29. Other financial assets

	Parent Entity 2006 \$'000	2005 \$'000
Shares in subsidiaries	5,672	5,589

Investments in controlled entities comprise:

Name of entity	Country of incorporation	Equity holding		Investment in subsidiary	
		2006 %	2005 %	2006 \$'000	2005 \$'000
Altium Netherlands BV - at recoverable amount	Netherlands	100	100	1,960	1,960

Information concerning the classification of securities

Options

Options granted under the Altium Option Plan, Altium Employee Share Option Plan, the Directors' Option Plan and the Altium Director Share Option Plan are considered to be potential ordinary shares and have been included in the determination of diluted earnings per share to the extent that the current share price is greater than the exercise price of the outstanding options. The options have not been included in the determination of basic earnings per share. Details relating to the options are set out in note 27.

Options granted prior to and up until 30 June 2006 are not included in the calculation of diluted earnings per share because they are anti dilutive for the year ended 30 June 2006. These options could potentially dilute basic earnings per share in the future.

32. Contingent liabilities

From time to time the consolidated entity is subject to various claims and legal proceedings. Full provision has been made in the financial report for legal costs incurred to date in defending these matters and the directors' do not believe there is significant exposure to these claims based on legal advice received to date.

33. Impact of adopting Australian equivalents to IFRS

(1) Reconciliation of equity reported under previous Australian Generally Accepted Accounting Principles (AGAAP) to equity under Australian equivalents to IFRSs (AIFRS)

(3) Reconciliation of cash flow statement for the year ended 30 June 2005

The adoption of AIFRSs has not resulted in any material adjustments to the cash flow statement.

33. Impact of adopting Australian equivalents to IFRS (continued)

(4) Notes to the reconciliations

(a) Financial Instruments – Non-current receivables

Under previous AGAAP, the group's accounting policy was that financial assets were carried at the lower of cost and recoverable amount. The group's policy for financial assets categorised as loans and receivables under *AASB 139 Financial Instruments: Recognition and Measurement* is to initially measure the assets at fair value with subsequent measurement at amortised cost, using the effective interest rate method. At the date of transition the carrying value of non-current receivables has been reduced by \$226,000. The effect is:

(i) At 1 July 2004

For the group there has been an increase in accumulated losses of \$226,000 and a decrease in non-current receivables of \$226,000.

(ii) At 30 June 2005

For the group there has been an increase in accumulated losses of \$183,000 and a decrease in non-current receivables of \$183,000.

(iii) For the year ended 30 June 2005

For the group other income has increased by \$45,000 and other expenses have increased by \$2,000.

(b) Intangible assets – Trademarks

Under previous AGAAP the group had capitalised certain internally generated intangible assets. The group's accounting policy for internally generated intangible assets under *AASB 138 Intangible Assets* is to only capitalise internally generated intangibles for the purposes of development that meet the criteria outlined by AASB 138. The group has reviewed the intangible assets and at the date of transition trademark assets of \$866,000 are no longer capitalised. The effect is:

(i) At 1 July 2004

For the group there has been an increase in accumulated losses of \$866,000 and a decrease in intangible assets of \$866,000.

(ii) At 30 June 2005

For the group there has been an increase in accumulated losses of \$866,000 and a decrease in intangible assets of \$866,000.

(c) Equity-based compensation benefit

Under *AASB 2 Share-based Payment* from 1 July 2004 the group is required to recognise and expense for those options that were issued to employees under the Altium Option Plan, Directors' Plan, Altium Employee Option Plan and Altium Director Option Plan after 7 November 2002 but that had not vested by 1 January 2005. The effect of this is:

(i) At 1 July 2004

For the group there has been an increase in accumulated losses of \$313,000 and an increase in reserves of \$313,000.

(ii) At 30 June 2005

For the group there has been an increase in accumulated losses of \$869,000 and an increase in reserves of \$869,000.

(iii) For the year ended 30 June 2005

For the group employee expense has increased by \$556,000.

33. Impact of adopting Australian equivalents to IFRS (continued)

(d) Deferred tax assets and deferred tax liabilities

Under *AASB 112 Income Taxes* from 1 July 2004 the group is required to off-set deferred tax assets and deferred tax liabilities where the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity. The effect of this is:

(i) At 1 July 2004

For the group there has been a decrease in the deferred tax assets of \$1,848,000 and a decrease in the deferred tax liabilities of \$1,848,000.

(ii) At 30 June 2005

For the group there has been a decrease in the deferred tax assets of \$1,730,000 and a decrease in the deferred tax liabilities of \$1,730,000.

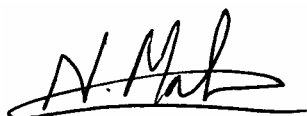

(iii) For the year ended 30 June 2005

There is no effect on the group.

Declaration to the Board of Directors in accordance with Section 295A of the Corporations Act

In our opinion:

- (a) the financial records of the company and the consolidated entity for the financial year ended 30 June 2006 have been properly maintained in accordance with section 286 of the *Corporations Act 2001*; and
- (b) the financial statements, and the notes to the financial statements, of the company and the consolidated entity, for the financial year ended 30 June 2006:
 - (i) comply with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) give a true and fair view of the company's and consolidated entity's financial position as at 30 June 2006 and of their performance, as represented by the results of their operations and their cash flows, for the financial year ended on that date.

Nicholas M Martin
Chief Executive Officer

Darren Charles
Chief Financial Officer

Sydney
21 August 2006

Directors' declaration

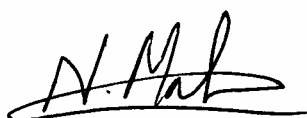

In the directors' opinion:

- (a) the financial statements and notes set out on pages 22 to 61 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the company's and consolidated entity's financial position as at 30 June 2006 and of their performance, as represented by the results of their operations and their cash flows, for the financial year ended on that date; and
- (b) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations by the chief executive officer and chief financial officer required by section 295A of the *Corporations Act 2001*.

This declaration is made in accordance with a resolution of the directors.

For and on behalf of the board

Independent audit report to the members of Altium Limited

Audit opinion

In our opinion:

1. the financial report of Altium Limited:
 - gives a true and fair view, as required by the *Corporations Act 2001* in Australia, of the financial position of Altium Limited and the Altium Limited Group (defined below) as at 30 June 2006, and of their performance for the year ended on that date, and
 - is presented in accordance with the *Corporations Act 2001*, Accounting Standards and other mandatory financial reporting requirements in Australia, and the *Corporations Regulations 2001*, and
2. the remunerations disclosures that are contained on pages 7 to 13 of the directors' report comply with Accounting Standard AASB 124 Related Party Disclosures (AASB 124) and the *Corporations Regulations 2001*.

This opinion must be read in conjunction with the rest of our audit report.

Scope

The financial report, remunerations disclosures and directors' responsibility

The financial report comprises the balance sheet, income statement, cash flow statements, statement of changes in equity, accompanying notes to the financial statements, and the directors' declaration for both Altium Limited and the Altium Limited Group for the year ended 30 June 2006. The consolidated entity comprises both the company and the entities it controlled during that year.

The company has disclosed information about the remuneration of directors and executives (remuneration disclosures) as required by AASB 124, under the heading "remuneration report" on pages 7 to 13 of the directors' report, as permitted by the Corporations Regulations 2001.

The directors of the company are responsible for the preparation and true and fair presentation of the financial report in accordance with the Corporations Act 2001. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report. The directors are also responsible for the remuneration disclosures contained in the directors' report.

Audit approach

We conducted an independent audit in order to express an opinion to the members of the company. Our audit was conducted in accordance with Australian Auditing Standards, in order to provide reasonable assurance as to whether the financial report is free of material misstatement and the remuneration disclosures comply with AASB 124 and the Corporations Regulations 2001.. The nature of an audit is influenced by factors such as the use of professional judgement, selective testing, the inherent limitations of internal control, and the availability of persuasive rather than conclusive evidence. Therefore, an audit cannot guarantee that all material misstatements have been detected. For further explanation of an audit, visit our website <http://www.pwc.com/au/financialstatementaudit>.

We performed procedures to assess whether in all material respects the financial report presents fairly, in accordance with the Corporations Act 2001, Accounting Standards and other mandatory financial reporting requirements in Australia, a view which is

consistent with our understanding of the company's and the consolidated entity's financial position, and of their performance as represented by the results of their operations, changes in equity and cash flows. We also performed procedures to assess whether the remuneration disclosures comply with AASB 124 and the Corporations Regulations 2001.

We formed our audit opinion on the basis of these procedures, which included;

examining, on a test basis, information to provide evidence supporting the amounts and disclosures in the financial report and remuneration disclosures, and

assessing the appropriateness of the accounting policies and disclosures used and the reasonableness of significant accounting estimates made by the directors.

Our procedures include reading the other information in the Annual Report to determine whether it contains any material inconsistencies with the financial report.

While we considered the effectiveness of management's internal controls over financial reporting when determining the nature and extent of our procedures, our audit was not designed to provide assurance on internal controls.

Our audit did not involve an analysis of the prudence of business decisions made by directors or management.

Independence

In conducting our audit, we followed applicable independence requirements of Australian professional ethical pronouncements and the *Corporations Act 2001*.
