

Continued Growth for Wridgways

§ Net Profit after Tax forecast to increase by 40-45 % for the half year ended 31 December 2006.

Leading relocations company Wridgways Australia Limited is forecasting a strong increase in profit after tax of 40-45% for the half year to 31 December 2006, compared to the December 2005 half year, which recorded an increase of 24.9%.

A buoyant resource sector and demand for skilled professionals is driving high mobility activity within Australia and overseas.

Wridgways is due to formally announce its audited half year result on 15 February 2006. Further details will be released at that time.
